

Fits Cured

From *The Journal of Medicine*
Prof. W. H. Pecke, who makes a specialty of Epilepsy, has treated and cured more cases than any living physician. His success is astonishing. We have heard of cases of 40 years' standing cured by him. He publishes a valuable work on this disease, which he sends with a large bottle of his absolute cure, free to any sufferers who may send their P. O. and Express address. We advise any one wishing a cure to address Prof. W. H. PECKE, P. O. 4 Cedar St., New York

On last Saturday one of the "sleek fingered" gentleman who was here attending the fair walked back into town broke and looking as though he had had a hard time of it. The truth was he had started west on the train Friday and fleeced a passenger on the train and had to leave the train while it was running at full speed. Arriving here he proceeded to open up his shell game again and had fleeced five or six before any of the officers had time to stop him. Next he got "light fingered" and tried to get some watches but instead got permission from Runchey to leave town.

For a long time the people had been on a tip toe of expectation in regard to the coming of Tom Patterson the great Denver free silver advocate, who was billed for a speech at the fair on last Friday afternoon. The expected day arrived and with it came a drizzling rain and also Tom Patterson. On account of the rain many people were compelled to stay at home and the meeting was held in the opera house to an audience of between four and five hundred. It had been so much talked of, the brilliancy and polish of the man as an orator, that the public were made to believe that he was worth going many miles and miles to hear but from many who were there it was learned that as an orator his ability was placed too high and he was a disappointment.

On last Tuesday night the populists held a meeting in the opera house and three speakers were announced; C. J. Smythe of Omaha, W. F. Porter of Merriek county and J. V. Wolfe of Lincoln. Mr. Wolfe spoke first and there was nothing really bad or really good in his speech. The speech of W. F. Porter who is candidate for secretary of state was the one most commented upon the next morning on the streets, not from its goodness in any sense of the word for his words disgusted many of his hearers. In comparison with the gentlemanly bearing, words, and manner of his opponent Mr. Joel Piper candidate on the republican ticket, on all occasions and to members of all parties, it was found that Porter is insanely radical in his views, vulgar to the extreme in his remarks and that he is grossly ignorant in the essentials that go towards making the polished and intelligent political speaker, business man or gentleman. Those who have met Mr. Piper who is a resident of the Republican valley, and have drawn a contrast between he and his opponent Porter will not hesitate to see that every effort on their part will go toward retaining Mr. Piper in the position which he has so ably and intelligently filled during his term. The best talk of the evening was made by Mr. Smythe and was very well received by the audience and his words showed that he is a speech maker of exceptional ability.
