

# Nervous

People often wonder why their nerves are so weak; why they get tired so easily; why they start at every slight but sudden sound; why they do not sleep naturally; why they have frequent headaches, indigestion and nervous

## Dyspepsia

The explanation is simple. It is found in that impure blood which is continually feeding the nerves upon refuse instead of the elements of strength and vigor. In such condition opiate and nerve compounds simply deaden and do not cure. Hood's Sarsaparilla feeds the nerves pure, rich, red blood; gives natural sleep, perfect digestion, is the true remedy for all nervous troubles.

Geo. Warren of the Argus is sacredly guarding the 1895 files of his paper—those containing his free silver sentiments—and we understand that he has imported a watch dog for that purpose.

With a longing look at the government brick across the street and a pleasant pat on his pocket where he figured to place the money for printing the amendments, Geo. said, "I can edit my paper for sound money and still vote my free silver sentiments."

Hon. Randolph McNitt the youngest member of the last Nebraska legislature has been nominated by the republicans as county attorney of Webster county. "Mac" is one of the bright young legal lights of the republican valley, who is an honor to his profession—Grand Island Independent.

The bolting silver republicans are being beautifully snubbed by the democrats. Serves them right.—Argus

George may get a taste of this same snubbing. His pneumatic ambition for a government position may get several large sized punctures which even the maintaining of his office as a republican headquarters will not fix.

The editor of the Argus during the year 1895, came out in that paper for free silver. It was current comment at that time that he was a strong advocate of this doctrine. It was also told that he came out in his paper for free silver on a promise of patronage from several influential populists and a desire to place the names of people favoring free silver on his subscription list. No matter what the cause, he advocated free silver through his columns and talked it on the street and there is no doubt that he is today just as strongly impressed with the doctrine of James Gilham as he was then. He is now a free silver republican. He wants to see McKinley elected because that means a government position in sight. He wants a free silver congress and on election day will vote that way. He is also keeping to the good graces of Auding's method in the event of that gentleman's nomination as secretary. He may get a taste of this same snubbing if Warren is nothing if not entailing but

his radical silver talk comes up to confront him like a ghost. The following item taken from his paper speaks for itself.

In the great Horr-Harvey debate the cause of silver is not losing ground. Mr. Horr the champion of the single gold standard contents himself with setting up a general denial, interspersed with more or less attempted ridicule. Mr. Harvey on the contrary is making a clean fight for bimetalism and backs up his statements with facts and figures from undisputable authorities. An unprejudiced reader must admit that Mr. Harvey is having the best of the debate, but "thrice armed is he whose cause is just." Mr. Horr, like the cause he advocates, is clearly outclassed.—Issue of Argus August 1st, 1895.

### Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

# Eczema All Her Life.

Mr. E. D. Jenkins, of Lithonia, Ga., says that his daughter, Ida, inherited a severe case of Eczema, which the usual mercury and potash remedies failed to relieve. Year by year she was treated with various medicines, external applications and internal remedies, without result. Her sufferings were intense, and her condition grew steadily worse. All the so-called blood remedies did not seem to reach the disease at all until S. S. S. was given, when an improvement was at once noticed. The medicine was continued with favorable results, and now she is cured sound and well, her skin is perfectly clear and pure and she has been saved from what threatened to blight her life forever.

S. S. S. (guaranteed purely vegetable) cures Eczema, Scrofula, Cancer, Rheumatism, or any other blood trouble. It is a real blood remedy and always cures even after all else fails.

### A Real Blood Remedy.

Take a blood remedy for a blood disease; a tonic won't cure it.

FROM MINNESOTA. RED WING, MINN., Sept. 26, 1896. This is a city of churches, of schools, and colleges. Besides the six large public schools including the high school there is a college for young ladies and one for young gentlemen. The population of this city is two-thirds Scandinavian, but they believe in educating the rising generation.

Located about two miles from here is a state institution called the training school. It is the same as a reform school. There is a very large main building; then four school buildings, one for girls and three for boys; then green-houses, barns and other buildings, till it looks like a village. It is beautifully situated between the bluffs and the river. The grounds and drives and walks are prime. There are about 400 boys and girls there who have broken the laws of the state in some way, but they are now being trained for useful lives.

The bridge across the Mississippi at this place, is "a thing of beauty" also "a joy forever," to the inhabitants of Wisconsin in its vicinity. It was finished about a year ago, its cost being \$70,000. It is high enough for the steamboats to go under, that run to St. Paul, and therefore gives a person crossing it a good view of this beautiful city.

The cemetery is situated on a bluff overlooking the great river. A great deal of money has been spent on it, and the road leading to it, which is now a beautiful drive in warm weather. They have constructed just at the foot of the bluff a large vault where in winter, when the snows are deep, the caskets containing the remains of those who die at that time, can be deposited, until a more convenient season for burial. We found in that cemetery monuments marking the graves of very many of our friends of thirty-five years ago. But we find also a good number of friends of that date, very much alive, prosperous and happy; nearly all members of some church and good republicans. So you can judge of their standard in society.

Of course the Captain has been fishing again; went with some of his old soldier friends and stayed all day. He says he caught fish, but one member of the party told me confidentially that he only caught one and it was of the kind they throw back in the river again. He is not anxious to go any more.

I went yesterday to a meeting of the W. C. T. U., and met Mrs. C. Hobart who has been state president of this institution for thirteen years. I find these meetings are about the same everywhere.

We went to-day to Bay City, Wisconsin, where the Captain says he invested in some city lots thirty-five years ago. We found the place where they had been, on the shore of Lake Pepin, but the lake had claimed a part of them. We are to go back again to St. Paul Monday and in the evening start for home having enjoyed our trip thoroughly. E. B. KNIGHT.

It has been held that consumption is hereditary, and the fact that one person of a family had died with consumption was considered a sure sign that others of that family could not escape it. This is partly true and partly untrue. A man with weak lungs is likely to transmit that weakness to his children. But there is no reason in the world why the weakness should be allowed to develop. Keep the lungs full of rich, red, wholesome blood, and the weakness will disappear. Decaying tissues will be thrown off, and new material will be added until the lungs are well and perfectly strong again. This is the thing that Dr. Pierce's Golden Medical Discovery does. This is what makes it cure 98 per cent, of all cases of consumption where it is taken according to directions. It searches out disease germs wherever they may be in the body and forces them out of the system. It supplies the blood with rich, life-giving properties. It makes the appetite good, digestion perfect. Send 21 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N. Y., and receive Dr. Pierce's 1008 page "Common Sense Medical Adviser," profusely illustrated.

On last Saturday evening Miss Minnie Reiter entertained a large number of young friends at her home. A very pleasant time was reported by all who were present. Delicious refreshments were served and a large crowd was present. They all returned home at an early hour. The guests were Jennie Morrison, Carrie Holsworth, Nellie Maurer, Walter Gurney, T. J. Gurney, Clarence Gurney, Chris Reiter, Willie Reiter, Steve Morrison, Norman Morrison, Mark McKonkey, Earl McKonkey, Fred Maurer, John Channey, Harry Engels, Yens Soregson, Frank Scott.

INSIST UPON HOOD'S Sarsaparilla when you need a medicine to purify your blood, strengthen your nerves and give you an appetite. There can be no substitute for Hood's.

HOOD'S PILLS are the best after dinner pills; assist digestion, prevent constipation. 25c.

On Sunday morning a ten pound girl arrived at the home of Mr. and Mrs. O. P. Yarger of Orleans.

Ralph Pope returned the last of the week to Annapolis, Maryland, to again take up his cadetship duties.

F. X. Schoonmaker of Chicago was here and spoke in the opera house Friday night. People of all parties who heard him state that his talk was the best heard here so far this campaign.

The many former friends of Lou Kenney will be glad to learn that he contemplates a visit to this city about election time. He now has a position in the treasury department at Washington.

A pain in the chest is nature's warning that pneumonia is threatened. Dampen a piece of flannel with Chamberlain's Pain Balm and bind over the seat of pain, and another on the back between the shoulders, and prompt relief will follow. Sold by H. E. Grice, druggist.

Will Rife met with a very bad accident the first of the week. He was hauling electric light poles with the large end out and in going up a slight raise in the road the poles tipped up throwing him from the wagon. His back came in contact with the wheels and he is badly bruised up in consequence.

It is with the greatest pleasure that we this week chronicle the marriage by Judge Duffy, of Uncle Richard Payne of Otto, and Mrs. Nancy S. Hickey of Walnut creek. Uncle Dick, as he is familiarly called, is a native of Virginia, and like most of the people of that state is a genial and hospitable gentleman. This paper, along with many friends of the married couple, unite in extending to them their best wishes.
