Seems as if all the things we like to disagree with us, and all the things we don't like, agree with us. Dyspepsia lurks in most of the good things we eat, and indigestion follows the gratification of appetite. Of course it isn't nature's fault. Nature does the best she can, and if a man will only help her a little bit at the right time, he can eat what he likes and as much as he likes. Dr. Price's Pleasant Pellets are for people who are troubled with indigestion. Particularly for those in whom it manifests itself in the form of constipation. The Pellets are quick and easy on the stomach. They are in perfect harmony with nature. They effect a permanent cure. You need take them regularly every day, until you feel the system is well. After that you may take them only when you feel the need of them. They are not a laxative, and you would not get a laxative's necessary of life. Once used they are always in favor.
