Undoubtedly most farmers will remember that this year's corn crop may draw good interest in the crib, particularly in case of a drought next season. Hold the corn.

Some 70,000 British troops kept 3,000,000 Americans busy for eight years during the revolution, while 200,000 Spaniards have not yet been able to make a serious impression in Cuba where there are only 1,500,000 people.

A committee of the national grange, an organization of farmers with a membership of 250,000, has requested William McKinley for recognition in his cabinet, by the appointment of J. H. Brignam of Ohio, as Secretary of Agriculture.

People who think we are going to have a war with Spain seem to welcome the idea. Seriously such an event as a declaration of war by our government or by Spain may probably mean a general European war in which we have no business to engage.

Like almost every holiday which is ancient in its origin Thanksgiving has changed its character. It used to be a season of prayerful, sober gladness, flavored with solemn poverty but intensely solemn. It is now a season of good natured satisfaction for

Several of the leading newspapers of Madrid are very bitter in their criticisms of the return of General Weyler to Havana, and declare him to be morally ruined. All of these papers demand that General Azaraga, the present minister of war, be sent to Cuba at once to supersede General Weyler.

Gen. Bradley T. Johnson, who was recently in Cuba as a newspaper correspondent, is quoted as stating that he believes the meeting of congress on the first Monday in December will be made notable by a message from the president recommending the recognition of the Cuban belligerents and that the following Wednesday will see a declaration of war by Spain against the United States.

The reorganization of the federal court in this state will be welcomed by those who have business there. We have no desire to speak ill of the dead, but the fact of the matter is that heretofore it has been impossible for a country dignitary to win a case in that court without the assistance of some of the few who had the ear of the court regardless of their legal attainments or abilities. It is true the country litigant and his country adviser had a show in the federal court.

The official presidential vote of this state is now open to the inspection of the public. Republicans will find nothing discouraging in the returns compared with the vote of four years ago. It is true that McKinley was beaten in Nebraska by 13,000 votes, but his total of 104,555 is a gain of 10,000 over the vote received by Harrison. The Bryan vote of 110,000 is a gain of only 9,000 over the combined vote cast for Cleveland and Weaver. The republicans will mount an ahead in the next roundup.

of the Face.
Mrs. Laura E. Mims, of Dawson, Ga., says: "A small pimple of a strawberry color appeared on my cheek; it soon began to grow rapidly, notwithstanding all efforts to check it. My eye became terribly inflamed, and was so swollen that for quite a while I could not see. The doctors said I had Cancer of the most malignant

the people of this state while they were receiving a subsidy, we think there would be no difficulty in maintaining the bounty. It is not populism which is the element of doubt in the next legislature. It is the fact that the Oxnards have so conducted themselves as that it was plain that no benefit should be extended to the beet producer if they could prevent it and have thereby prejudiced many republicans and citizens generally against the bounty. It required strong pressure to get the bounty granted two years ago and we feel sure that the same legislature would not now grant it. Subsidies have been used with effect elsewhere and may be here but not when it is the prime aim of the subsidized interest to prevent labor from sharing the encouragement.

There is no joy in this world equal to the happiness of motherhood. A woman's health is her dearest possession. Good looks, good times, happiness, love and its continuance depend on her health. At most all the sickness of women is traceable directly or indirectly to some derangement of the organs directly feminine. Troubles of this kind are often neglected because a very natural and proper modesty keeps women from physicians, whose insistence upon examination and local treatment is generally as useless as it is common. Dr. Pierce's Favorite Prescription will do more for them than 90 doctors in 100. It will do more good than the hundredth doctor can unless he prescribes it. It is a prescription of Dr. R. V. Pierce, who for 30 years has been chief consulting physician of the World's Dispensary and Invalids' Hotel, at Buffalo, N. Y.

Hood's Pills cure all liver ills.

There are a great many merchants that always make the excuse "that advertising does not pay" and then wind up by swearing that they won't advertise a d—d line. To such people we wish to dictate the following lines: There was a man once on a time who thought him wondrous wise. He swore by all the babbled gods, he'd never advertise. But his goods were advertised ere long, and thereby hangs a tale; the ad was set in nonparal and read "Sheriff Sale."

How to Cure Bilious Colic.
I suffered for weeks with colic and pains in my stomach caused by biliousness and had to take medicine all the while until I used Chamberlain's Colic, Cholera and Diarrhoea Remedy which cured me. I have since recommended it to a good many people. Mrs. F. BUTLER, Fairhaven, Conn. Persons who are subject to bilious colic can ward off the attack by taking this remedy as soon as the first symptoms appear. Sold by H. E. Grice, Druggist.

Card of Thanks.
We desire to extend thanks to our kind friends and neighbors for their help and kindness shown us in our late bereavement, the death of our dear son M. A. Rolls.

"For five weeks I lived on cold water, so to speak," writes a man who suffered terribly from indigestion. He could hardly keep anything on his stomach. What stayed, wasn't properly digested and gave him terrible pains.

This is not an uncommon case. Dyspeptics don't get enough nourishment. They are generally thin and weak. They eat enough, but they don't digest enough. Much of what they eat turns into poison. If this keeps on there's no telling what disease they may get next.

That's why it is best to take Shaker Digestive Cordial, as soon as symptoms of indigestion appear.

It cures all the evils of indigestion causes.

Sold by druggists price 10 cents to \$1.00 per bottle.
