Algernon Lockhart and his estimable wife, a dister of Mrs. J. A. Lockhar, of this enough, who resides on the Lock-Bernice, Morrana, heve been called within a week. Latie Florence the eldest, was the first to go. She was first attacked with severe pains about two weeks ago and these culminated in throat troubles and finally ended in death. Hon, W. H. On the sad journey home from the cemetery, Winnie, the youngest and last remaining flower of the home, contracted the same disease from which the other child had died, and two days later death again visited the stricken home and took the baby to her waiting sister. Another sorrowful journey followed and Florence and Minnie now lie side by side, and their snow covered mounds is all that is left to tell of the sunshine of a once happy home. Sympathy, heartfelt and deep, goes out to the heart-broken father and mother Years to The Chief and its many readwith the hope that time may heal the ers. double cruei wound.

The family express the deepest sense of gratitude for the kindness shown Hope. them by the friendy who came with heavy burden which they were so un- settlement expectedly called upon to bear, desiring specially to thank Angus Cuinie, Treasurer W. V. Myers and wife, Dr. Vawter, Mr. Powell and Mr. Trotter of the Windsor hotel and his family. Mr. Clunic arranged for the second funeral as he did for the first, and to give an idea of the severity of the weather on the occasion of his last ride of twentytwo miles, it is only necessary to say that the two men employed to dig the grave were badly frozen.

The following lines were contributed by a friend and deep sympathizer with the sorrowing parents: Dear little Florence has taken her flight

Few people know that all plants contain digestive principles. They cannot absorb their food until it is digested any more than animals can. The Mount Lebanon Shakers have learned the art of extracting and utilizing these digestive principles, and it is for this reason that their Shaker Digestive Cordial is meeting with such phenomenal success in the treatment of dyspepsia. The Shaker Digestive Cordial not only contains food already digested, but it also contains digestive principles

which aid the digestion of other foods that may be eaten with it. A single 10 cent sample bottle will be sufficient to demonstrate its value, and we suggest that every suffering dyspeptic make a trial of it. Any druggist can supply it.
