HOW - TO - SAVE - MONEY

Description of the Girtanner Attachment

For burning Straw, Hay, Corn, Cobs, Corn Stalks, Etc.

HOW IT OPERATES.

FIRST. It is a scientific fact that seventy-five per cent of the fuel burned in the ordinary way is lost. Nearly all of this loss is averted by feeding the fuel from an air-tight magazine, charing the same and consuming the smoke, thereby making complete combustion.

SECOND. By the use of the down draft, it heats the lower portion of the room first, making an even temperature throughout, and at the same time avoiding the necessity of making such intense fires in cold weather.

THIRD. By giving double the heating surface.

FOURTH. By a skilled arrangement of drafts, the fire is at all times under perfect control, and can be kept for many hours with one filling.

FIFTH. Ten pounds of straw, weeds or trash, or twenty pounds of cobs, will burn from three to six hours, with sufficient heat for cooking, or for heating the rooms.

It can be readily seen that the farmer saves his entire fuel bill by the use of the Girtanner Attachment; and the towns-people save from forty to sixty per cent, thus keeping the money at home.

Further than this, it makes a new home industry, instead of sending millions of money to the coal combines, the heretofore waste products of the farm are utilized to supply the need.

The Girtanner Coal Attachment

For Stoves, Furnace and Boilers.

The principles involved in this attachment are very simple. The attachment makes the fuel self-feeding and is air-tight. The down draft is also applied, and it burns the smoke and gases before they leave the fire-box.

Seventy-five per cent of the strength of the fuel ordinarily escapes in the smoke. By this method of burning, the tars, pitches and carbons which are contained in the smoke are utilized. It also avoids the gas, smoke and soot which is created by the ordinary method of burning coal.

It gives a larger heating surface and avoids the necessity of making intense fires to get the desired temperature.

Physicians recommend the Girtanner Attachments for the general health of the home.

They can be used with any old stove thus avoiding the necessity of buying a new one.

Saves 40 per cent on your coal bill.

Consumes the smoke and gases.

The down draft and the scientific principles of utilizing the smoke, gases, tar, etc., as fuel.

Now to the point. The Girtanner Attachment consumes its own smoke, fire gas and combustion by burning them and creating more heat than can be produced by any other method. Other fuel savers simply arrest the heat without producing any, while the Girtanner attachment produces double heat out of the same amount of fuel, and uses much cheaper fuel, such as Hay, Straw, Corn Cobs, Stalks, Manure, Sawdust. Weeds, Garbage, Etc., instead of coal or wood.

AMBOY.
Robt. Mitchell visited in Gardenvale Sunday.

The hog market is off this week and receipts light.

William Deakin and Miss Fuller of Cowles attended the lecture Tuesday evening.

Chas. Emick, junior member of the firm of Hines and Emick, broke a bone in his left hand while dressing a green hide.

We received the news of the capture of the bandit at Inavale and wish to congratulate the men who so nobly did their duty.

Rezzofrazzel has hibernated to his den of oblivion until the war cloud of blue smoke has subsided in the south. We hope so contaminated a person will never make so futile an attempt at journalism again.

Dame rumor says that Alex Callahan has been united in the holy bonds of wedlock with a fair lady from Blue Hill. Alex says he has not that good fortune and that his last hope has faded with the death of leap year.

The party given by Mr. and Mrs. C. H. Frisbie was an enjoyable affair. The company was entertained by games of various descriptions. Christian Rasser carried off first prize and Miss Daisy Frisbie the booby prize. Refreshments were then served and after bidding the host and hostess a farewell they departed to their several homes.

The Amboy union Sunday school held their annual election of officers Sunday morning. Sylvester Frisbie, superintendent; Lora E. Frisbie, assistant superintendent; Robt. Mitchell, secretary and treasurer; Maud Miller, organist; Mrs. Alfred Saladen, chorister; James Mitchell, librarian. We hope the interest in the school will continue to grow.

The lecture on Tuesday evening by

Rev. J. M. Darby was highly appreciated by all present. The subject of his lecture, "Wit and Humor," was ably handled. His method of presenting the subject was both entertaining and instructive. It would be beneficial and elevating if Rev. Darby could be secured to deliver another lecture in the near future. The comments of different persons were numerous and all commended his ability.

The progressive ladies of Westfield, Ind., issued a "Woman's Edition," of the Westfield News, bearing the date of April 3, 1896. The paper is filled with matter of interest to women, and we notice the following from a correspondent, which the editors printed, realizing that it treats upon a matter of vital importance to their sex: "The best remedy for croup, colds and bronchitis that I have been able to find is Chamberlain's Cough Remedy. For family use it has no equal. I gladly recommend it." 25 and 50 cent bottles for sale by H. E. Grice, Druggist.

BATIN.
Maud Wilson has the typhoid fever. William Andrews was hurt quite bad last Saturday by being kicked by a horse.

Peter Hausen and bride are in Nuckolls county visiting with relatives.

The Christmas tree at Pleasant prairie was largely attended.

J. B. Wisecarver, Everett and Emory Bean and their families spent Christmas at Rev. Bean's.

W. Palmer had two cows die one day last week with some unknown disease.

Bruce Payne is home from Lincoln to spend the holidays.

K. C. Clutter was seen in this vicinity one day last week.

ECKLEY.
J. Vance is entertaining his cousin, Jas. Houston.

H. T. Miller and brother of Greeley county, Nebraska, spent Christmas with D. H. Robinson and family.

Will Dow and bride spent Christmas in Thayer county.

John Parish of Shenandoah, Iowa, is here visiting friends and relatives and looking after his farm.

The dwelling house on John Parish's farm occupied by Henry Motter and family was burned Christmas night. Everything was lost and the occupants barely escaped. Mr. Parish expects to build soon.

A watch meeting will be held at Eckley New Year's eve. This will be the beginning of a series of meetings to be held by Rev. Chadwick.

Mr. Doughman led the League meeting Sunday evening. A large number were present, but order was not of the best. We hope to see better order in the future.

Edna Woodside is home on a visit.

Mothers whose children are troubled with bad colds, croup or whooping cough, will do well to read what Dr. R. E. Robey, of Olney, Mo., says on this subject. He writes: "For years we have used Chamberlain's Cough Remedy, and always keep it in the house. It is regarded in our family as a specific for all kinds of colds and coughs. "STOCKTON, N. Y., June 28, 1894.
Dr. M. M. FENNER, Fredonia, N. Y.
Dear Sir:—About 2 years ago I became bilious, sallow, dyspeptic and my system was generally run down. Lost appetite and flesh. Could not eat or sleep well, and had palpitation of the heart—in fact I was so wretched and unnerved that on several occasions my friends thought I would not live till morning.

Two bottles of your Blood and Liver Remedy and Nerve Tonic produced a complete cure."
