

THE RED CLOUD CHIEF

VOLUME XXV.

RED CLOUD, NEBRASKA, FEB. 19, 1897.

NUMBER 8

New Firm In Town!

Galusha & Wescott will occupy the Rust building after MARCH 1st, with a NEW AND COMPLETE LINE OF

Clothing and Furnishing Goods.

The room is being fitted up in Tasty and Convenient Shape.

The above firm are prepared to do you all the good that up-to-date merchants with up to date stuff can offer you. We dwell on the ground floor when Point of Excellence and Low Prices are considered. We solicit a call, both for business and pleasure.

Galusha & Wescott.

One Price and No Monkey Business.

ODDS AND ENDS.

It seems that a drayman, wishing to deliver half a ton of coal, drove on the scales to weigh. After weighing, he asked for the scoop shovel, but neglected to inquire in which bin the grade of coal ordered was to be found, nor did he think of it until reaching the yards, a considerable distance from the office. He drove back and onto the scales again, that being the handiest place to ask for information, but before he had time to say anything, the dealer supposing of course he had the coal, and knowing the amount wanted, slid out the beam, gave the beam a flip and locked it, saying, "Just 1,000 pounds exactly." The amusement of the drayman, and the consternation of the dealer, when his "mistake" was known can better be imagined than described. The above is vouched for as being absolutely true, although the circumstance happened some time ago.—Wilcox Post.

When a person is losing flesh and wasting away there is cause for alarm. Nothing so worries a physician. Consumptives would never die if they could regain their usual weight. In fact there would be no consumption if there was no wasting of the system. The cause of this loss of flesh is a failure to properly digest the food eaten. Nine-tenths of all our diseases date back to some derangement of the stomach.

The Shaker Digestive Cordial will stop this wasting of the body. It acts by causing the food we eat to be digested so as to do good, for undigested food does more harm than good. The Cordial contains food already digested and is a digester of foods as well.

Every mother hates to make her children take Castor Oil. LAXOL is sweet Castor Oil.

Bill Nye once most truthfully remarked that a man may use a wart on the back of his neck for a collar button; ride on the back coach of a train to have interest on his money until the conductor comes around, stop his watch at midnight to save the wear and tear; leave "i" and "t" without a dot or cross to save ink; pasture his mother's grave to save corn; but a man of this kind is a gentleman and scholar compared to a fellow who will take a newspaper, and when asked to pay for it puts it back into the postoffice and has it marked "Refused."—Ex.

An amusing story is told about a worthy vicar of a rural parish who had waxed eloquent in the interest of foreign missions one Sunday and was surprised on entering the village shop during the week to be greeted with marked coldness by the worthy dame who kept it. On seeking to know the cause the good woman produced a half crown from the drawer and, throwing it down before the vicar, exclaimed: "I marked that half crown and put it in the plate last Sunday, and here it is back again in my shop. I knowed well them niggers never get the money."—Clips.

J. M. Parker better known as "Mel" Parker by old settlers, was in the city Tuesday night. Mel and family have lived in Colorado Springs, since last spring. Marsh and Mel Parker will be familiar names to old settlers here, as long as this generation shall last. From 1870 to 1880 they were the leading stock buyers and shippers in all this section of Kansas. Marsh now lives in Texas, Mel in Colorado, and thus does the sickle of time—presto change, now you see 'em and now you don't see 'em.—Lebanon Journal.

Chas. Buschow has finished buying corn, having bought and cribbed a total of 54,000 bushels. The Argus and Nation at Red Cloud are "chewing the rag" over something that is of no interest to their readers. After a month's pleasant sojourn in Houston, Galveston and Alvin, Texas, Chris. Passler and wife returned home Monday evening, and will soon be 'at home' to their friends in the Aug. Zerweck residence, where they will go to house-keeping.—Blue Hill Leader.

HERE AND THERE.

We note that Gaylord, populist, succeeded in having the house of representatives pass his bill legalizing the acts of the county treasurer of his county in issuing county warrants for the destruction of gophers and gray squirrels. He must be a disciple of Mirabeau, "Audacity, audacity, always audacity," and the populist legislature condoned the illegal expenditure of the people's money. The "slow eyed goddess of reform" must be getting blear eyed in Nebraska. But perhaps Gaylord and his bill may encounter a law suit some day, and discover where he is at.

Chicago, Pa., "Herald." Richard Vensel reports One Minute Cough Cure the greatest success of medical science. He told us that it cured his whole family of terrible coughs and colds, after all other so called cures had failed entirely. Mr. Vensel said it assisted his children through a very bad siege of measles. One Minute Cough Cure makes expectoration very easy and rapid. C. L. Cotting.

Another Kansas girl is setting the east wild with her wonderful voice. Her name is Miss Boyd. John Conway of the Norton Champion says she is the same Kittie Boyd who lived up the creek near where Jake Potter now farms and who achieved that splendid voice by filling the Prairie Dog valley with the music of that marvelous opera written by Sig. Bovina entitled "Coo-boo, Coo-boo."—Kansas City Star.

A few months ago, Mr. Byron Every, of Woodstock, Mich., was badly afflicted with rheumatism. His right leg was swollen the whole length, causing him great suffering. He was advised to try Chamberlain's Pain Balm. The first bottle of it helped him considerably and the second bottle effected a cure. The 25 and 50 cent sizes for sale by H. E. Grice, Druggist.

NOT EXACTLY RIGHT is the way thousands of people feel. It is because their blood is poor. Hood's Sassa-parilla, the One True Blood Purifier, will promptly set them right.

HOOD'S PILLS are purely vegetable and do not purge, pain or gripe. All druggists.

List of letters remaining uncalled at the post office at Red Cloud, Nebraska, for the week ending February 19th, 1897.

McClain, Thos. Points, Mrs. Shaver, Geo. M.

These letters will be sent to the dead letter office, March 5th, if not called for before.—FRANK W. COWDEN, P.M.

Kansas legislators are not going to allow anything to go "unregulated" if they can help it. Senator Forney has introduced a bill requiring dealers to register descriptions of all chickens bought, with a view to stopping chicken stealing. The Kansas pop can regulate everything but his liver.—Superior Journal.

Minutes seem like hours when a life is at stake. Croup gives no time to send for a doctor, delay may mean death. One Minute Cough Cure gives instant relief and insures recovery. The only harmless remedy that produces immediate results. C. L. Cotting.

Nothing could have been better than the appointment of one June Abbot to a clerkship under the populist regime. The greatest reformers, of other people, are always those who have been persistent oppressors of other people. And we understand that Abbot is a successful three per cent man.

From everywhere come words of praise for Chamberlain's Cough Remedy. "Allow me to congratulate you on the merits of your Remedy. It cured me of chronic bronchitis when the doctor could do nothing for me.—CHAS. F. HEMEL, Toledo, O. For sale by H. E. Grice, Druggist.

We have been requested to inform business men not to allow Mrs. Sarah E. Watson to purchase goods and have them charged to the account of Benjamin Watson as he says they have dissolved partnership.

WHEN YOU CALL FOR IT GET THIS PACKAGE.

PREPARED BY
WELLS, RICHARDSON & CO.
SOLE PROPRIETORS
BURLINGTON, VT.

And Don't Be Defrauded by Any Substitute That Some Dealers Try to Sell You for the Sake of the Larger Profit!

Patronize home industries. Spend your money at home and maybe you will have a chance to get it again. Such advice is much needed in our city. Soon the spring catalogues of Montgomery, Ward & Co., The Cash Buyers Union and numerous other eastern houses will flood the country with their convincing arguments of how easy it is to save money by sending to them for articles which you are in need of and can get cheaper of them than you can at home, of the resident merchant who helps to build up the city and country in which he resides. The money spent with the home merchant is generally invested in the city and country in which he resides and equally so with the eastern merchants. The money received by them from mail orders never helps to build up the community from which it came, it simply leaves it that much less capital to do business with. Thousands of dollars each year through this means find their way to large eastern department stores and not one cent ever returns to circulate in the community from which it came. The community is simply left with that much less to do business with. This rule of patronizing home institutions, will alike apply to both business men and the trading public. If our business men would handle none but fence made by the Red Cloud Factory and those not handling such articles would recommend to their customers to try it and thus encourage the manufacture, how long would it be until an extensive institution would develop out of what at present seems a rather small concern. Another thing we would recommend to our business men is to quit patronizing every cheap John advertising snip that comes along and leave your advertising, what you have anyway, with your home printer. Who ever heard of a country editor hoarding up money. This is one quite noticeable failing of our city. Advertise your business at home until everyone is acquainted with your name, line of goods and prices, and also where you will reach the people who are liable to buy your goods or deal with you, and not on some map or circular that is to be distributed through the east and will reach a lot of people who will never get near enough to you to buy a five cent cigar or a nickel's worth of candy. Let everyone patronize the home merchant and especially the newspapers and the community will be several thousand dollars better off each year.

On Tuesday a delegation of the W. R. C. consisting of Mesdames Dow, West, Talbot, McKeighan, Pond and Judson of Red Cloud, and Knight and Ladd of Inavale, boarded the Hastings fast express bound for the department convention of the W. R. C. at Hastings. We found several delegates on board from corps west of here. Comrades Ladd, Kaley and White were also with us. Two long hours brought us to Blue Hill, just half way but meantime some of the ladies brought lunch which helped to pass the time and also some fun enlivened the house while the comrades talked politics. We arrived at Hastings at dusk and wended our way to headquarters where the ladies were assigned places, as Strickland Corps entertained the delegates. A reception was held that night with speeches and music. Wednesday morning the convention met at Dutton Hall called to order by Department President Mrs. Rosalie B. Condon, and the routine work begun. All passed off pleasantly, there being over 300 delegates present besides many who came to learn the work. The election of officers was quite spirited and resulted as follows: President, Julia S. Bowen of Hastings; S. V. president, Fidelia Rupper of Harvard; J. V. president, Belle Majors of Peru; secretary, Kate Boyd of Hastings; treasurer, Hana F. Church of North Platte; chaplain, Mrs. North; counsellor, Gertrude H. Connell. The officers were installed Thursday night by Past Department President Mollie C. Hardz after which addresses, recitations and music were in order. Among the delegates was our army nurse "Mother Howe" with her snow white hair and bent form. Among other visitors were Comrade Ex-Governor John M. Thayer, Past Commander Russel and others who spoke to the convention words of praise and cheer for the one true auxiliary of the G. A. R. Over one million dollars has been expended by the W. R. C. alone for relief of the veterans and their dependent ones the last year.

There are three classes who attend conventions as a rule. First, those who go to hear and learn. Second, those who go for the honors and emolument of office. Third, those who go for the fun they can get and they usually succeed. All three classes were represented and of course some were disappointed as all could not have office. The next convention will be held at Norfolk.

For Sale. One hundred and sixty acres of unimproved land, four miles northwest of Red Cloud, Neb. Terms cash. Apply to, MRS. JAMES KIRKWOOD, Fairfax, Missouri.

Trees and Plants. If you want anything in this line let me know what you want. Strawberry plants 30c to 40c per hundred. All other stock cheap and good.

L. H. Rost.

Dr. Price's Cream Baking Powder World's Fair Highest Medal and Diploma

DeWitt's Colic & Cholera Cure. Quickly cures Dysentery and Diarrhea.
