bargain
sale,**

**Commencing
Monday, March 8th.**

**Come and See the
Bargains We are
Offering. It will
Pay You.**

G.A. DUCKER & Co.

HERE AND THERE.

Why did they put a woman's head on a silver dollar? Because money talks.—Hastings Democrat.

The Missouri legislature had a bill presented to send a committee to Carson to see how the prize fight was worked. The Nebraska legislature have sluggers of their own to give a fistie exhibition and therefore will not need to go to Carson.

They are so small that the most sensitive persons take them, they are so effective that the most obstinate cases of constipation, headache and torpid liver yield to them. That is why DeWitt's Little Early Risers are known as the famous little pills. C. L. Cotting.

An exchange says: "What do you think of an artist who painted cobwebs on the ceiling so truthfully that the hired girl were herself into an attack of nervous prostration trying to sweep them down?" There might have been such an artist, but there never was such a hired girl.

Mr. Baillie the photographer took a picture of Chris. Konzack's house just east of town, yesterday. He got out in time to catch the 10:26 express, and it all shows up in the picture. He also took a photograph of the Signal building, also the residence of N. M. Doudus and we believe some other places.—Guide Rock Signal.

There is a bill before the Kansas legislature to compel street car companies to use vestibule cars for the protection of the motormen. This is a move in the right direction, and the principle ought to be extended to compel farmers to erect awnings over their riding plows and harvesters to protect the hard worked farm hands.—Beaver Valley Tribune.

If You Wish to purify your blood you should take a medicine which cures blood diseases. No other medicine has such a record of cures as Hood's Sarsaparilla.

HOOD'S PILLS are easy to take, easy to operate. Cure indigestion, biliousness. 25c.

A Hiawatha pastor recently called on one of his flock and found her entertaining her friends at whist. The good sister apologized but nearly fell dead when the pastor admitted that he was fond of whist and even played billiards. Then he sat down with the women and won the royal prize. That kind of a minister will always be popular.—Hiawatha World.

A story is going the rounds about a farmer who went into a drug store and saw for the first time a phonograph. He was told to drop a nickel into the slot and hear the music. The farmer, doubting, dropped in a nickel and put the tubes to his ears; then suddenly dropping them he rushed to the door exclaiming, "gosh all fish hooks! here comes a brass band, and I left my mules unhitched."—Stolen.

At the regular meeting of the Red Cloud fire department last Monday evening the following officers were elected for the ensuing year.

Chief—Jas. W. Runchey.
Asst. Chief—H. E. Pond.
Secretary—R. P. Hutchinson.
Treasurer—J. O. Butler.
Trustees—Geo. Hutchinson, Henry Deldrick, J. E. Kesler.
Foreman Hose No. 1—H. T. Stroup.
Foreman Hose No. 2—Henry Deldrick.
Foreman Hook and Ladder—Geo. Hutchinson.

A man residing in the eastern part of the state has found a new use for the newspaper. An exchange says: "The latest and most novel use for old newspapers that has come to our notice, occurred yesterday when a gentleman stepped into this office and purchased 100 or more to feed his hens. He tears the paper into shreds and soaks in sour milk until the whole mass becomes a

DeWitt's Colic & Cholera Cure.
Quickly cures Dysentery and Diarrhea.

pulp, when he feeds it to the hens, and he claims that it adds greatly to their egg producing qualities. The newspaper is gradually extending its field of usefulness. From food for thought, it has expanded until within its sphere is already included food for goats and hens."

E. H. Overman, near Otego, lost two horses with a strange disease last Tuesday. One of them appears to have set out to knock down all the fences in that neighborhood. It sloshed about home for awhile, got down to Eli Renner's, tore down the paling fence in a couple of places, knocked over a bee hive, ran against the house, continued its course in a general northeast course and after going through eighteen fences finally fetched up in the creek not far from Noah Renner's, where Charley Overman finally ended the horse's life with a blow from an ax. As soon as the other horse commenced to show fool symptoms, it was dispatched by shooting.—Burr Oak Herald.

The good wife came to town with a load of turkeys last week for which she received \$100. This is a fact. Last spring when she was busy caring for the little turks, she wanted some help to fix the coops and was told by her good man that he had no time to fuss with turkeys, that he must hustle and get his corn planted—that raising poultry was a woman's and not a man's business. This is imagination. And yet (this is a fact) the old man would have had to haul into town twenty loads, or 1,000 bushels of corn, to have put in his jeans pockets as much money as his good wife received for the turkeys which he thought too small a business for him to care for last spring.—Sterling Sun.

We are pleased to make note of the marriage of Mr. Oscar Monia and Miss Grace R. West, at the residence of the bride's parents near Guide Rock, on Wednesday of this week. The newly wedded pair are two of the most popular young people of this vicinity. The bride is the amiable and attractive daughter of Mr. and Mrs. Chas. West, and the groom is a prosperous young farmer of Beaver Creek. The ceremony was performed by Rev. A. W. Shamel in the presence of the home circle and near relatives, at 10 a. m. after which an elegant dinner was served. The young people are well known and highly respected in the community and have a bright future before them.—Guide Rock Signal.

The Nebraska India relief commission appointed by Gov. Holcomb has issued a request for donations of corn to be shipped to the starving thousands in India. Great destitution prevails in that country and the inhabitants are dying for the want of food. The U. S. government has furnished a steamship to be loaded at San Francisco. Arrangements have been made with the various railroads for the free transportation of such to the seaboard. The committee desires some one in towns where one or more cars of corn can be secured to take charge of the soliciting, loading and shipping of the same. Persons who will undertake this task are requested to communicate with the secretary of the commission, Mr. M. D. Welsh, Lincoln, Nebr. and receive from him instructions as to the quality of corn desired, kind of cars to load and instructions for billing.

The Shakers have made a great hit. Their Digestive Cordial is said to be the most successful remedy for stomach troubles ever introduced. It immediately relieves all pain and distress after eating, builds up the feeble system and makes the weak strong.

The fact is, foods properly digested are better than so-called tonics. The Cordial not only contains food already digested, but is a digester of other foods. Food that is not digested does more harm than good. People that use the Cordial insure the digestion of what food they eat and in this way get the benefit of it and grow strong.

The little pamphlets which the Shakers have sent druggists for free distribution, contain much interesting information on the subject of dyspepsia.

SUFFER NO MORE NOW!

Paine's Celery Compound is Working Miracles in Curing Disease.

Paine's celery compound is working miracles in the cure of disease!

So says a recent article by the foremost medical essayist.

"Nothing shows more conclusively," he adds, "the astonishing capability of Paine's celery compound than the thoughtful, open-minded class of people who use it and recommend it, both in public and among their closest and dearest friends and relatives. Among us (physicians) there is no longer any hesitancy in recommending this greatest remedy without stint of praise."

About the same time the above article was published there appeared in the Boston Journal, the following letter from David K. Chasser of 452 Windsor st., Cambridgeport, a suburb of Boston:

"I take great pleasure in testifying to the extraordinary merits of Paine's celery compound. For some time past I have been under the treatment of two well-known local doctors, but their combined efforts proved of no avail. I have been for years a harsh skeptic in regard to advertised medicines, but having suffered excruciating pains in the head, which the doctors

informed me were due to neuralgic symptoms, I determined to try Paine's celery compound, on the advice of a friend.

"To my surprise I found an entire change going on after taking a little over three bottles and I began to feel like a new man. I have for the past 10 or 12 years suffered from pains in the back and other symptoms of derangement of the kidneys and bladder, and have spent many sleepless nights in consequence, but now I sleep sound, thanks to the common sense which induced me to try Paine's celery compound. I will ever praise the marvelous potency of this valuable medicine, and at any time will be glad to give personal testimony at my address, should any sufferer care to call, as I consider it selfish to keep such a blessing hoarded up, and think the proprietors of Paine's celery compound deserving of more thanks than I can convey in words, for making me a new man."

A word to other sufferers: Go to your druggist for a bottle of Paine's celery compound, and allow him to sell you nothing else!

Go to your druggist for a bottle of Paine's celery compound, and allow him to sell you nothing else!

LAXOL is not a mixture of drugs. It is nothing but Castor Oil palatable.

A preacher once said: "You editors dare not tell the truth. If you ever did you could not live. Your newspaper would be a failure." The editor replied: "You are right; and the minister who will at all times tell the bare truth about his members, alive or dead would not occupy the pulpit more than one Sunday and he will find it necessary to leave town in a hurry. The press and pulpit go hand in hand with white-wash brushes and kind words, magnifying little virtues into big ones. The pulpit, press and grave-stone are the great saint making triumvirate." And the great minister went away looking very thoughtful, while the editor turned to his work, telling about the surpassing beauty of the bride, when in fact she was ugly as a mud fence.—Ex.

The most intensely interesting people of the world just at this moment are the millions of famine and plague stricken India. But little is known of this region by the people of the United States. Such reports as come to us are the things seen, through British glasses. What has been the effect of British rule in India? Why these terrible famines? Why plagues? Julian Hawthorne has been sent by The Cosmopolitan Magazine to India to obtain answers to these questions at first hand and depict the situation as it appears to an American. The March Cosmopolitan contains the first of what is probably the most important series of articles ever presented in this magazine. Nothing has been published which gives an adequate idea of the larger operations of business—at least nothing by the class of men fitted for such work by thorough familiarity with the subjects of which they write. The article in the March Cosmopolitan on "The Methods of Banking," by the President of one of the largest banks of New York—a man of widest business experience—forms a Postmaster-General James—is one which every person, however humble his clerkship or high his place in the financial world, will find interesting and instructive. This series will constitute a very complete course of business training, and every young man just entering business life and every old man will alike find it of immense value.
