Perhaps it would be a good thing for the proper authorities to notify some of our business men to take boxes, chicken coops, agricultural implements and other cumbersome articles off the side walks. With no street lights these are a nuisance on a dark night.

Rev. Hall delivered his farewell address at the Episcopal Church last Sunday to a very large and attentive audience. During his stay in our city Mr. Hall has made a host of friends who will sincerely regret his departure. He will leave for the east on Tuesday next. Services will be conducted by him at the church Sunday at 4 p.m.

A pedestrian accosted us the other day and remarked that he could tell a well-to-do business man from the one whose business is practically at a standstill, claiming that one who was so poor he could not buy lumber to fix his sidewalk, but instead would go to the grocery store and "bum" a cracker box or go to the tin shop and "beg" some scraps of tin to cover the holes in his walk, was surely having a hard time keeping his head above the tide. Safe to say this sage has not lived in Red Cloud a great while.

We understand that this week young Roy Winfrey dunned Editor Walsh in the postoffice for a nickel, for carrying a note. A borough school board, not a thousand miles from this city, were discussing a motion to put a handsome chandelier in the new school house, when a member settled the discussion for the present by sarcastically declaring: "I don't see what we want of a chandelier! I like music as well as anybody, but I ain't in favor of takin' up with some new fangled thing that nobody don't know nothin' about. I'll bet two dollars there ain't a person in th' hull town could play a tune on a chandelier if we had one!—Meadville (Pa.) Tribune.

Some of our citizens who take pride keeping up the sidewalks in front of their homes are getting considerably worked up in regard to the petty thieving of boards from their walks at night. In a good many cases sidewalks that were to comparatively good shape and could have been kept up by very little fixing have been destroyed in this manner. There are some boys in this town too who have been repeatedly seen by residents to deliberately smash boards by jumping on them just for mere devilment. Some property owners are figuring to lay in wait for these people and fill their carcasses with a load of something warm.

A lawyer in a court room may call a man a liar, scoundrel, villain or thief and no one makes complaint when court adjourns. If a newspaper prints such a reflection on a man's character there is a libel suit or a dead editor. This is owing to the fact that the people believe what an editor says.—Beatrice Democrat.

The Falls City Journal says that the difference between a populist and a popocrat is that the populist is a sincere but misguided individual who believes that everything can be done by act of congress or the legislature, while a popocrat is a free silver democrat or a free silver republican or mugwump who knows that the populist is mistaken, but he is so anxious to get office that he pretends to believe the populist doctrine.

Poor Blood

When a horse is poor in flesh, a new harness won't give him strength. If a house is cold new furniture won't warm it. If your strength is easily exhausted; work a burden; nerves weak; digestion poor; muscles soft; if you are pale and worn out, the trouble is with the blood. It is not so much IMPURE blood as POOR blood. Pills won't make this blood rich; nor will bitters, nor iron tonics, any more than a new harness will give strength to the horse, or new furniture will make a house warm. For poor blood you want something that will make rich blood. SCOTT'S EMULSION of Cod-liver Oil with Hypophosphites is the best remedy in the world for enriching the blood. We have prepared a book telling you more about the subject. Sent Free. For sale by all druggists at 50c. & \$1.00. SCOTT & BOWNE, New York.

SIGNS OF SPRING.

Convey a warning that certain ailments—general debility, dyspepsia, skin diseases, rheumatism, liver complaints, etc., need attention. There isn't anything better for a blood purifier than our

COTTING'S SARSAPARILLA. Nothing secret or mysterious about it—simply sarsaparilla, yellow dock stillingia, iodide of potassium, etc.—drugs you perhaps know something about and which are recommended by all physicians.

Then it is honestly and carefully made of the best drugs and we give you a bigger bottle than you usually get for one dollar and guarantee satisfaction. C. L. COTTING, Druggist.

They are so small that the most sensitive persons take them, they are so effective that the most obstinate cases of constipation, headache and torpid liver yield to them. That is why DeWitt's Little Early Risers are known as the famous little pills. C. L. Cotting.

It is pretty well conceded that the winter wheat has been badly injured by the cold weather of February and that of the earlier fall. An expert farmer tells THE EXPRESS that wheat would never winter kill in this section if the farmers would only plant about a month earlier. The greater part of the winter wheat was planted in Gage county last fall as late as the middle of October and the first of November. It is this late planted wheat that is suffering most from the cold snaps. Wheat planted in September is all right.—Beatrice Express.

About two weeks ago while a couple of young men were returning to their homes in the south part of the city they were followed by two men in disguise. One wore a blanket or sheet of white material and carried under his arm a white lantern and the other had on a red robe and carried a red lantern. On two occasions has this thing happened and we have been requested to state by friends of the young men that if this thing is carried too far the one's taking part in the foolish act are liable to get more than they bargain for in the shape of a dose of lead. We should have mentioned the matter last week but it was forgotten.

The Bloomington Echo says, "A republican editor is expected to work like a— for the party during all campaigns, after which the party has no further use for him." The Echo man is right in a great many cases, but we generally notice that the editor who has been true blue republican and who has ability has been well taken care of when there was anything to be given out. We do not see any reason why an editor should receive any more consideration when it comes to giving out the plums, than the everyday citizen who pulls his coat and works and spends his money for success of the party. We have an editor in this town who has been recognized once as a servant of Uncle Sam and ever since he has lived upon anticipation of getting his old job back. In 1895 he came out as a howling advocate of free silver publishing free silver editorials and rabid plat articles on the subject. He thought the free silver band wagon was a good thing to get into, but he made a mistake. Now he pretends to be a republican and has a penchant for the postoffice.
