Severe Attack of Dyspepsia Cured by Hood's Sarsaparilla—A Skin Disease From Childhood.

"Since we came to North Dakota we have never had occasion to call a physician. We take Hood's Sarsaparilla for all our ailments. About three years ago my husband had the misfortune to strain his stomach by heavy lifting. This brought on dyspepsia and he suffered very much, especially at night, and he could not sleep. He decided to take Hood's Sarsaparilla and after using two bottles he was completely cured. He was also gratified to find that Hood's Sarsaparilla relieved him of a roughness of the skin with which he had been troubled from childhood." Mrs. JOHN ABRAHAM, Pembina, N.D.

Eczema All Her Life.

Mr. E. D. Jenkins, of Lithonia, Ga., says that his daughter, Ida, inherited a severe case of Eczema, which the usual mercury and potash remedies failed to relieve. Year by year she was treated with various medicines, external applications and internal remedies, without result. Her sufferings were intense, and her condition grew steadily worse. All the so-called blood remedies did not seem to reach the disease at all until S.S.S. was given, when an improvement was at once noticed. The medicine was continued with favorable results, and now she is cured and well, her skin is perfectly clear and pure and she has been saved from what threatened to blight her life forever.

S.S.S. (guaranteed purely vegetable) cures Eczema, Scrofula, Cancer, Rheumatism, or any other blood trouble. It is a real blood remedy and always cures even after all else fails.

A fine rain Tuesday evening made things look better in this locality.

Mrs. Reed of Chicago, daughter of G. W. Francis is visiting at the old home.

The Congregational parsonage is undergoing considerable repairs this week.

Miss Ella Little gave an elocutionary entertainment at the M. E. church last Thursday evening.

Prof. Hart gave an able address on the higher education in the Christian church at close of Christian endeavor on Sunday evening.

The name of Miss Myrtle Boyce was inadvertently omitted from the list of reciters at the commencement exercises last week. She gave a very good paper on, "The Beauties of Nature."

Mrs. Woodward, president of the Railroad W. C. T. U. work advocated the temperance cause very eloquently Saturday evening in the Congregational church. Mrs. W. is a most effective talker along gospel temperance lines.

The memorial sermon last Sunday was a decided success. Prof. A. C. Hart's address was of a very high order. The recitations by Miss Bertha Keeney and Miss Helen Fuller were finely rendered, and the music elicited general commendation. The old soldiers were present in force, and the building crowded. It was considered the best service of the kind ever held in Cowles. The church was very tastefully decorated with flags and flowers for the occasion.

Niagara Falls.

With its beauty and grandeur reveals to the tourist each year some new harmony. There is no place in America where the summer tourist could spend his time more profitably than at this world famed cataract. The Nickel Plate road with its solid trains, thro' sleeping car service, and unexcelled dining car service between Chicago New York and Boston is the recognized highway to this resort. With the new train service which becomes effective Sunday, May 30th, a stopover of ten days will be given on both first and second class tickets to patrons who desire to visit the falls. Trains leave Chicago daily at 10:30 a. m., 3:05 p. m. and 10:15 p. m.

Mr. J. Y. Callahan, General Agent, 111 Adams St., Chicago, Ill., will be pleased to furnish all information in regard to stopover, etc.

Wayne, Cleveland, Erie, Buffalo, New York and Boston. This line has grown so in popularity that it has become necessary to increase the train service in order to meet the demands of the traveling public.

Mr. J. Y. Callahan, Gen'l Agent, 111 Adams St., Chicago, Ill. will be pleased to furnish all information in regard to this new train service.

Some Queer Poisons in Tobacco.

Chemists say Turkish tobacco contains prussic acid and Cuban tobacco has another alkaloid called collidine, one-twentieth of a drop of which will kill a frog, giving the creature all the symptoms of paralysis. Experiments have proved that three drops of the liquor that accumulates in the bowl of a pipe will kill a rabbit in nine minutes. A drop of pure nicotine inserted near the conjunctiva of any small animal will kill it almost instantly; eight drops will kill a horse, giving him frightful convulsions. If one drop of the stuff would give a man convulsions one day it would take two the next, four on the third day, etc., which shows how readily the system adapts itself to poison.—St. Louis Republic.

—Young wife—"What is baby trying to say, dear?" Husband—"Give it up. He seems to be trying to manufacture a word about twenty syllables long." Young wife—"Isn't that lovely? He'll be a great scientist some day."—Tit-Bits.

"I have never had a day's sickness in my life," said a middle-aged man the other day.

"What a comfort it would be," sighs some poor invalid, "to be in his place for a year or two." Yet half the invalids we see might be just as healthy as he, if they would only take proper care of themselves, eat proper food—and digest it.

It's so strange that such simple things are overlooked by those who want health.

Food makes health.

It makes strength—and strength wards off sickness. The man who had never been sick was strong because he always digested his food, and you could become the same by helping your stomach to work as well as his. Shaker Digestive Cordial will help your stomach and will make you strong and healthy by making the food you eat make you fat.

Fast time and low rates will be one of the main features that the Nickel Plate road can offer to their patrons. For full information in regard to train service, etc., call on or address, J. Y. Callahan, Gen'l Agent, 111 Adams St., Chicago, or H. Thorpe, G. P. & T. A., 111 Adams St., Chicago, Ill.

THE NEXT SENATE.

Resumes of the Legislative Elections Where Senators are to be Chosen.

WASHINGTON, Nov. 6.—Great interest was manifested here in the legislative elections throughout the country, as they will materially affect the control of the United States senate. Up to yesterday the standing in the senate was as follows: Republicans, 42; democrats, 39; populists, 5; vacant (democrat), 1; total, 88. As the result of yesterday's elections the democrats will lose and the republicans will gain a senator from Maryland, Kentucky and Ohio respectively. The other legislative elections do not appear to affect the standing in the senate as Mississippi remains democratic, while Iowa continues republican. Utah chooses two United States senators for the first time, but the complexion of the legislature is not certain. The Utah senators take their seats in the senate shortly after congress assembles. The changes in Ohio and Maryland will not affect the senate until March, 1897.

The republican majority in the next Ohio legislature, as shown by the returns from Ohio, insures the retirement of Senator Brice (dem.) and the succession of a republican. It appears to be settled that ex-Gov. Foraker will be the choice of the legislature, as the state convention placed his name in the platform as the senatorial candidate.

In Maryland the election of a republican legislature, the first in many years, will bring about the retirement of Senator Gibson and the election of a republican in his place. The election of a republican legislature in Iowa was not unexpected, and it is considered settled that Senator Allison will be elected to succeed himself.

The return of a democratic legislature in Mississippi has been a foregone conclusion. It will elect a successor to Senator George. The returns from New York and New Jersey indicate republican gains. These legislatures do not elect United States senators this year, but, as part of legislatures hold over, the present election is important in influencing these bodies which will elect successors to Senator Hill, of New York, and Senator Smith, of New Jersey, whose terms expire March 4, 1897.

THE SECRET OF BEAUTY.

Dr. Hartman in speaking of female beauty in a recent letter, said: "It is not vanity for a woman to desire to be beautiful. It is natural for a woman to have a graceful body, symmetrical features and a clear complexion. This is hers by birthright. It is only when some disease or calamity robs her of these natural gifts, to which she is entitled, that she does not have them. It is, therefore, perfectly natural and commendable that she should, as far as possible, obtain that which is hers by nature. This is just as it should be, if she does not make a mistake in the means used. To cover a blemish, to conceal a deformity, to hide a poor complexion, is not to get rid of them.

"After all, good health is the basis of beauty. Clean skin, clean mucous membranes; these are the true source of beauty and symmetry. It is even more necessary that the lining membranes of the body (mucous membranes) be kept clean than the covering membranes (the skin) should be kept clean. The slightest catarrhal congestion of the mucous membrane, especially in females, gives rise to weakening discharges, acrid secretions, and a host of distressing symptoms peculiar to female diseases."

The remedy is Pe-ru-na. Pe-ru-na cures catarrh wherever located. Female catarrh is the most beauty-destroying disease in existence. Pe-ru-na cures by removing the cause. ST. LOUIS, Nov. 6.—Miss Alice Hamilton, stenographer in the office of E. M. Ward, manager of the Transit Coal Co., yesterday entered Scruggs, Vanderfoot & Barney's dry goods store, coolly opened one of the large glass cases, selected a mink skin cloak worth \$150, put it on and walked out. Miss Hamilton was recognized by an acquaintance, a saleswoman, who noticed her supposed purchase, and went to the fur department to ascertain who had made the sale. It was then found that the cloak had been stolen. Miss Hamilton admitted that she had taken it, and told where the cloak could be found. Instead of a single cloak the detective found her room packed with dry goods of every description, inventoried at \$3,500 to \$4,000.
