One of the heaviest rains of the season visited the section of country lying south of this city and near the Kansas line last Monday. A rainfall of seven inches is reported in several localities and to the southwest in the vicinity of Sherwood, Kansas, considerable hail is reported to have fallen, doing a large amount of damage to growing crops.

A good story is told on one of our barbers who asked another fellow to have a glass of beer but said he didn't want any. An hour or so after he went to the barber shop, got shaved, and tendered the barber a nickel in payment. The barber told him the price was ten cents, but he simply remarked that he did not take any beer. Since the above event took place no doubt the Slocum law has one more in favor of its enforcement.

Miss Jane Sheeley.

These letters will be sent to the dead letter office July 23d, if not called for before.—FRANK W. COWDEN, P. M.

Richard Lee wishes us to state that in one particular an item in a city paper telling of the killing of his horse by a B. & M. train was wrong. His horse was not lariat near the track as stated but was over a quarter of a mile off and the lariat rope had been cut thus allowing the animal to stray onto the railroad track.

With a monumental amount of cheek Jack, of the Nation, after calling the teachers at the institute ignoramuses, tries to make out this week that it was done by mistake and that if the words "this is a joke" had been added to the article it would have been all right. It won't go down Jack. You can't joke the teachers that way.

Don't use bill heads or statements in which you have to write your own name. Get them printed in an up-to-date style. There is nothing which will make your customers think you are of the disposition to be penurious so much as this. If you are stingy in one way what reason is there to believe that you won't be in other ways. Get your printing done right at the Chief office.

Baby's Second Summer

is the time that tries all the care of the mother and all the skill of maternal management. Baby comfort comes from fat; fat babies have nothing to do but to sleep and grow.

If your baby does not seem to prosper, if he does not gain in weight, you must get more fat there. A few drops of

Scott's Emulsion

each day will put on plumpness; fat outside, life inside, baby and mother both happy.

Your baby can take and relish Scott's Emulsion as much in summer as in any other season.

Rocky Road to Red Cloud.

Considerable has been said by our business men and farmers during the past two weeks about the condition of the road between this city and the river bridge and considerable more will be said unless something is done to fix them and an effort should be made by the business men of this city and the farmers living south of the river to get an appropriation of \$400 or \$500 from the county board to repair and grade this road. While this piece of road is only a little over a mile in length it has lost more business to the merchants of Red Cloud than all the other roads leading into town, and has driven lots of Red Cloud's good customers to Lebanon, Ebon, and other Kansas points to do their trading and will continue to do so until it is fixed so that people living south of the river can be sure of starting to town and getting here without breaking a vehicle or killing a horse. No matter how small the rain, at places in the road the water will form a mud hole and stand until enough hot sun comes to dry it up, and then leave the road so full of ruts and chuck holes that it is dangerous to cross them with a light rig or a loaded wagon. During the past month this road has been worse than ever before and the sooner our merchants see that it is fixed the better it will be for them.

"Hobos" Arrested.

Quite a number of hobos who seemed to have enough money to buy beer were rounded up by Sheriff Runchoy and his deputies and placed in jail to sober up. They had "rushed the can" enough to get in a good quarreling mood and it was thought best to put them out of harm's way for a time. One of them who was being taken up to the jail by Sam Fox got obstinate and tried his powers as a wrestler in good shape. He tried his maneuver the second time and both he and the officer went down together. Someone at this juncture of the proceedings rapped him over the head with the flat side of a thin piece of board and another party shied a banana peel at him. With assistance he was finally loaded into Sherwood & Albright's "hurry-up" wagon and hauled up to jail. Some parties who saw the proceedings pictured the weapon he was hit with as being a fence rail and were loud in their denunciations of this part of the program. The fellow was resisting after arrest and did not get half what he deserved. Some people seem to think that it is an officer's business to be kicked and thumped by a prisoner and would stand and look on without an offer of assistance. Eight of the hobos in all were taken in.

Should Be Seen to.

Although it has been known for some time past that an institution just outside the city limits has been in the habit of dispensing liquid refreshments which have a tendency of making one drunk who partakes of them, with the exception of the Chief some of the city papers have had the nerve to say anything in regard to the matter. Several of the young sports of the city have been observed to make this place their headquarters and have several times been noticed to be the worse for liquor. Our saloon men in the city pay a license of \$1,000 in order to run respectable houses and have been criticised for drunks which have emanated from this place. The law in cases of this kind does not seem adequate to get at the offenders for the reason that some one must make a complaint and although the youth of a number of our well known families are on the down road to destruction as a consequence of this resort no complaint has been made. As the county is being beat out of license money our county commissioners should see to it that a complaint is made and the county attorney instructed to do his duty.

Assessed Property Valuation.

Some comment has been made in regard to the fact that a return of only fourteen acres of alfalfa in cultivation in this county has been made and so it appears that way in the abstract of assessment. The fact of the case is that there is very likely from 1,500 to 2,000 acres planted in alfalfa in the county, but the assessors in making up their books have most likely put it down as meadow. The number of acres in cultivation in potatoes is given as seventy, when everybody knows that the acreage is away over that. The valuation on gold and silver plate and plated ware is put down as \$17. It is evident from this that there are no fashionable table sets in this county. Diamonds and jewelry are valued at \$110, so that when you see these blooded gentlemen who pretend to be wearing diamonds you can depend on it they are bogus or else they have lied to the assessor. The fact of the case is that when choosing an assessor the best man in the township should be elected—a man who knows values and is not afraid to call a man down when he is putting in a dishonest assessment.

Drowned While Bathing.

The bodies of C. H. Seymour and wife, who were drowned in the Blue river, were found about a half mile from where they entered the water. They had been in the water about twenty-eight hours. They were found about six o'clock this evening and the bodies were badly discolored. The remains were taken to Dinmitt's undertaking rooms; where they were prepared for burial. Mr. Seymour has lived here for nine years and was for seven years democratic committeeman and for several years chief of the fire department. He was one of the oldest engineers on the Burlington at this point. The above was taken from a Wymore dispatch to the State Journal dated last Sunday, and will be read with deep regret by many in this city. Charley, as he is familiarly known, has been engineer on No. 15, between this point and Wymore for a number of years past and his demise will be mourned by his many friends in this city.

Happily Wedded.

A very pleasant wedding occurred at the residence of Mr. and Mrs. J. D. Calder of Hardy, Nebr., the contracting parties being their daughter Gertrude to Mr. Milton J. Richardson, of Red Cloud, Nebr. The bride has been a teacher in the Hardy high schools for the past four years and is loved and esteemed by everyone.

Mr. Richardson is a self made young man, he having held the principalship

of the Reynolds, Nebr., high schools for the past two years and is elected to that position at Guide Rock, Nebr., for the ensuing year. They left for San Francisco the next day, the points of interest which they will visit being Denver, Pikes Peak, Colorado Springs, Salt Lake City and back by way of Portland and Yellowstone Park.

The young couple will be at home to friends after August 15th, at Guide Rock. A host of friends join in wishing them a pleasant journey through life.

Bodily Powder Burned.

Melvin McCord and F. P. Hadley met with quite a serious accident last Saturday while firing the cannon for the morning salute for the celebration. The cannon went off while Mr. Hadley was putting in a charge of powder and filled his arm and hand full of powder, and Mr. McCord, who was thumbing the vent hole, had his face badly powder burned. At first it was thought Hadley would lose his hand and McCord one of his eyes, but up to the present both are getting along nicely and in fair way to recovery, but both will be considerably powder marked. The iron rod used in loading the cannon was found driven completely in the ground in front of the marble works, where it still remains. It is indeed fortunate that the accident was not more serious.

A Card.

Mr. Isidore Freymark of Mattoon, Ill., has bought an interest in my business and will conduct the same hereafter in the manner it has been run for the past fifteen years. He has had many years experience in this line. The house will be run under the old name of the "Golden Eagle" and the firm name of Freymark & Co. My customers will receive the same just treatment as they have received, and they can rely on getting goods just as represented. Mr. Freymark will shortly go east with me to purchase the fall stock with my assistance. The firm will continue to buy for cash, and will be able to offer you good bargains this fall. I thank all my patrons for past favors and kindly request their patronage for the new firm.

Yours Respectfully,
CHAS. WINNER.

Notice.

I will start the oil wagon next Monday when a daily trip will be made over the city each day.
