Eastern and Western Farming.

cording to the western idea, is so little visits, they find themselves wholly misunderstood, and the fertility and reas completely unappreciated. The eastern man's knowledge of the west is chiefly derived from a kind of literature that aims to claim the reader's atof whether it depicts western life truly western farmer as rude, without aspirations of any wholesome kind, gloomy, sullen and a chronic grumbler. We need not say how untrue such representations are, and yet this is about the has of his fellow farmers in the west. Naturally the eastern man has a very
