The present warm weather is likely to prove detrimental to the fruit interests of this section. Another week of such weather as the past week and fruit buds will be out, and one late frost will ruin almost the entire crop. Don't use bill heads or statements in which you have to write your own name. Get them printed in an up-to-date style. There is nothing which will make your customers think you are of the disposition to be penurious so much as this. If you are stingy in one way what reason is there to believe that you will be in other ways. Get your printing done right at the Chief office.

A young lady went into one of our dry goods stores recently and asked the gentlemanly clerk for a pair of hose. "What size?" inquired the clerk. "I don't know," replied the maiden. "What size shoe do you wear?" asked the clerk. "None of your business," replied the maiden as she moved toward the other end of the counter with her nose elevated at an angle of forty-five degrees and muttering something about some people thinking they were so "cute."

When the sap begins to rise and the geese begin to mate, then we hear the gentle carol of the county candidate. Oh, he's a jolly fellow, and he's full of vain conceits, and he sees a bosom friend in every man he meets. He asks about your family, your horses and your hogs, and shows a friendly interest in your children and your dog. Oh, he's a jovial gentleman, as game some as a lamb, as blithesome as a meadow lark and happy as a clam. His prospects are the brightest and his chances they are sure, and he helps his money freely and he helps the needy poor. He goes to church on Sunday and his pious traits appear, but when it's necessary he will then set up the beer. Oh, he's a buoyant sanguine duck, the pound candidate; he starts out early in the morn and stays until it's late. His patient wife unlocks the door and, with a look of pain, she says, "You needn't lie to me your leg's been pulled again."—Ex.

Baugh of the Hastings Cycle Company has opened up a repair shop in the building on the corner north of the Moon block. The Pond-Berlin Co. which will appear at the opera house three nights next week commencing Monday, comes well recommended from all places where they have had engagements this season, and have always given satisfaction. The longer they stay in a town the larger the attendance each night is as good a recommendation as any troupe can have, and such it is with this company.

The series of evangelistic meetings which have been held at the Christian church in this city for some time past terminated last Sunday evening with the result of seven admissions to the church. The meetings were well attended throughout and much good has no doubt resulted therefrom. The pastor, L. A. Hussong, is deserving of great credit for the able manner in which he has conducted the meetings. Another series of these meetings will soon be commenced in the Methodist church which will be continued indefinitely.

Why would not this be a good time to agitate the organization of a band in this city? With the band talent contained within the limits of this city there is no reason why Red Cloud should not have one of the best bands in the state of Nebraska, and with the assistance of the business men and the various secret societies of the city who are benefitted by the use of a band, there should be no trouble in raising the money required and starting it out with a complete set of new instruments and uniforms. Let some energetic man take the matter in hand and see what can be done toward it. At present Red Cloud is "not in it" when it comes to band music.

The "Shaker Show" has come and gone, and a goodly portion of the people of Red Cloud and vicinity are at present doctoring themselves for some disease or ailment—which they never knew they had before they attended the free show—with Shaker medicines purchased at the reduced rate of one dollar a "batch," and the doctor has gone to other and greener fields happy with the thought of being of great benefit to a community where so much (?) sickness existed, and also happy in his success in being able to carry away one thousand or fifteen hundred dollars as a remembrance of his visit. The medicine sold by them may do all that is claimed for it for all we know, our life being so few and immature we have had no occasion to try it nor do we expect to have until the spring fever sets in and the spring poet begins to send in his effusions, but suffice to say there is enough of it distributed in our fair city and vicinity to keep all human life away until the judgment day, provided that day is not over fifty or one hundred years distant, and provided, of course that Shaker pills, pain killer, herb cure, cough drops, soap, etc., can do it. This was a free show and people went in flocks, but many spent more money for medicine which they will never use, than it would cost them to attend regularly at a show with an admission fee of twenty-five cents, and still thought it was nice to go to a free show. However, take your medicine, you bought it at reduced prices, but it is hardly possible that the old doctor lost anything, nor was he here for his health.

Wasting in Children can be overcome in almost all cases by the use of Scott's Emulsion of Cod-Liver Oil and the Hypophosphites of Lime and Soda. While it is a scientific fact that cod-liver oil is the most digestible oil in existence, in SCOTT'S EMULSION it is not only palatable, but it is already digested and made ready for immediate absorption by the system. It is also combined with the hypophosphites, which supply a food not only for the tissues of the body, but for the bones and nerves, and will build up the child when its ordinary food does not supply proper nourishment. See that the man and fish are on the wrapper. All druggists: 50c. and \$1.00. SCOTT & BOWNE, Chemists, New York.

Guarantees satisfaction or money refunded. Admission 15c, 25c, and 35c. Reserved seats on sale at Grice's. This office may not have as good a second hand job printing outfit as the fellow that makes boasted claims. It is a fact that we pay about seven times as much taxes on our plant. We do good job printing because we have put in several years at the business and have learned our trade—not on top of a box car trying to brake. When you want good job printing at reasonable prices come to the CHIEF office.

I have been afflicted with rheumatism for fourteen years and nothing seemed to give any relief. I was able to go around all the time, and constantly suffering. I had tried everything I could hear of and at last was told to try Chamberlain's Pain Balm, which I did, and was immediately relieved and in a short time cured. I am happy to say that it has not since returned.—JOSIE EDGAR, Germantown, Cal. For sale by H. E. Grice.

"A cow has almost human intelligence," said J. B. Weston recently. "Not long ago I bought a few calves of hay and placed them in the loft of the barn, feeding a little of it to my cows at night. The loft is reached by a ten foot ladder, and one night one of my Jersey cows got loose and climbed that ladder and went into the loft and ate hay. In the morning, when she heard me coming she slid down the ladder as neatly as a fireman could have done it, and was very demure when I milked her. Upon another occasion the same cow showed marvelous intelligence. I had her locked up in the barn, and forgot to water her one morning. I had a barrel of water in the barn, convenient for mixing up bran mash and such goods. It stood on end, with a tap at the bottom, and a two-inch hole at the top. Well, that cow took a four foot length of garden hose and lowered it through that hole to the water, and sucked the barrel dry. She is a very valuable animal. She was presented to me by the mayor of Hoag some years ago, and my money would not buy her."—Beatrice Express.

J. R. Van Horn was in Kansas City the last of the week. Miss A. Christina Anderson of Goodell, Iowa, sent us money on subscription this week. The famous comedian, Mr. John Dillon, is coming to Red Cloud supported by a splendid company. He will be seen here Saturday evening, April 9.

We will pay a salary of \$10.00 per week and expenses for man with rig to introduce our Poultry Mixture and Insect Destroyer in the country. Address with stamp PERFECTION MFG. CO., Parsons, Kansas. A certain city editor, as he hastily made his exit from the opera house on Tuesday night was heard to remark that "if he had a sister who would make such a fool of herself as to appear as the ladies of the Degree of Honor did he would kick her off the stage." This is not surprising as the editor in mind, we believe, is capable of striking a woman.

Miss Maggie Erickson, daughter of Andrew Erickson, who was several weeks ago brought to town so she might receive better medical attention, died of typhoid fever on Wednesday, March 9th, aged eighteen years. The funeral services were conducted by Rev. John Bean and the remains were laid to rest in the Danish burying ground. Hacker had been named for postmaster here will be heard with universal pleasure by the patrons of this office. Mr. Hacker has been here for many years and has won the respect and good will of all as being an accommodating citizen and a gentleman, and there is no place where these traits are needed more than in a postoffice. He has been confirmed and after securing his bond and having it approved will receive his commission from the president.

Advance Agent Berlin of the Pond-Berlin Opera Co., met with a painful accident on Tuesday. He had come in on a freight and the rest of the train was cut loose from the way car. Being told by a traveling man who was also a passenger, that they would have to walk to the depot he got on his feet to do so. At this juncture the detached train backed onto the way car with force throwing the door shut and causing Berlin to be thrown forward and his right hand to go through the glass in the door.

Translate. Pretty girlsies, (nominative.) Pretty posies, (accusative.) Pretty boisies, (dative.) Friday is rhetorical day. A good programme is planned. These exercises occur every two weeks. Several high school girls were in the play "The New Woman." Even in this capacity they did justice to their ability.

We are glad to note that Maud Merrill is again able to enter school, she having been absent several weeks on account of illness. Mr. Crabtree, Nebraska state inspector of high schools, came last Tuesday. He apparently approved the condition of the schools. He expects to return in April.

Last Wednesday afternoon was inspection day; accordingly school was dismissed from recess until noon. The books were examined and found in pretty good shape. Kodak pictures seem quite the order lately. Several of the high school people have "proof" of their good looks, though perhaps not "conclusive evidence" of its "development."

Mr. Scammon must be careful and not select such pretty little boys to assist him. They do say that five or six of the senior and junior ladies chin with one of them every evening after school. LESTER. Farmers are putting in their small grain. James Mitchell of Red Cloud spent Sunday here.
