Ernest Bolton formerly of this city passed through here last Saturday on his way home to Pa at Denver. On account of leaving his dress suit, tan shoes and laundry somewhere in the south where the climate only permits of a pair of plow shoes, a sweater and overalls, he did not telegraph ahead for his "select few" friends to meet him at the train.

THE CHIEF is compelled to issue twelve pages this week on account of the heavy advertising patronage. Our merchants realize the worth of the home paper as an advertising medium and do not hesitate to take advantage of it. It would be well for purchasers to read what these merchants have to say as you may save several dollars in purchasing your spring and summer goods.

A Denver man has discovered a plan to get a hog back into the pen via the aperture through which it passed out. His receipt in substance is: "Get the hog's nose at the hole in the pen, then pass around behind the hog carefully, get hold of its tail and pull back as hard as you can. The animal will think you want to prevent it from going in and makes a leap to its old place." This receipt may be all right but what will you pull providing his hogship has been unfortunate and had that part of his anatomy amputated.

Everyone come to the opera house on Tuesday evening, March 22d, and visit "Fairy Land." You will be well repaid. You will see all kinds of fairies; good and evil fairies; red white and black fairies. You will hear the music of their sweet voices as they tell us of all the grandeur of their fairy world and see them join in their merry dances. This company of children (thirty in number) will enable you to experience a real "Dream of Fairyland." We will be glad to see you all out. You can secure tickets at the usual place. Come, you can't afford to miss it.

This will also necessitate the opening of night offices at Bartley, Holbrook and Edison. A passenger will also be put on the Oberlin branch to connect with trains 15 and 16 on the same date. This train will run daily except Sunday."

The Pond-Berlin Opera Co., which has been an attraction at the opera house since last Monday night is somewhat different from the usual week stand engagements which have made this place, in the fact that it is a good clean show without any attempt at the low and vulgar. In the leading man Mr. Pond, they have an actor of merit, and Miss Lulo Berlin the leading lady catches the audience just right to be appreciated. The between act specialties are all up-to-date and Master Dean does not fail to bring down the house with his clever singing. They carry their own special scenery which helps materially to cover up the deplorable condition of the tattered and unkempt appearance of the stage settings of the opera house. Their costumes are first-class. They will present The Fireman's Ward on Saturday evening and should receive good patronage.

Resolved, That Mexico is a better country than the United States and that we ask that country to annex us and make our Willie J. president of the United States of Mexico.

Resolved, That our seeming prosperity is a delusion. That in point of fact this nation is on a brink and it will always be on a brink so long as we permit foreign nations to pay us in gold for our agricultural products when we want to make forty cents worth of silver buy as much as one dollar in gold.

Resolved, That we shall not be happy so long as we have a surplus to sell. That we pray for those days in which we shall go over the brink and cease selling corn and wheat and cattle to gold buying nations and all live on the salary from the office which hard times once brought us and will bring us again if the hot winds will only blow.

Resolved, That we favor a drought for 1898, as that would enable us to more fully educate the people. The greatest foe to political salvation is good crops. You cannot get a man who is out of debt and has plenty to eat to fully appreciate the blessings of our system of political salvation.
