We have lost all belief in human nature since the present incumbent of the mayor's office put in a bill to the city for his year's salary as mayor. While we believe the servant is entitled to his hire, we don't believe we would have touched that salary if it was the last cent we ever expected to receive. He may yet however turn it back into the city treasury as he promised.
The city election passed off quietly very little interest in the outcome being manifest, most people believing that after the votes were counted the republican ticket would be elected, as it was with the exception of W. In some manner the clothing on a bed occupied by a small boy living with Mr. and Mrs. Polnicky and attending school here caught fire and were burning at a lively pace when discovered. The origin of the fire is supposed to be a spark from a parlor match which was used to light a lamp.

"A word to the wise is sufficient" and a word from the wise should be sufficient, but you ask, who are the wise? Those who know. The oft repeated experience of trustworthy persons may be taken for knowledge. Mr. W. M. Terry says Chamberlain's Cough Remedy gives better satisfaction than any other in the market. He has been in the drug business at Elkton, Kentucky, for twelve years; has sold hundreds of bottles of this remedy and nearly all other cough medicines manufactured, which shows conclusively Chamberlain's is the most satisfactory to the people and is the best. For sale by H. E. Grice.
