SOME TRANSPORTS SAILED YESTERDAY.

The Start was Made Monday, but Dragged to the Second day - Expect to Land Priday and Saturday if Everything Works as Planned.

WASHINGTON, June 15 .- Official information has reached Washington to the effect that the full fleet of transports with troops for Santiago, which was supposed to have left yesterday for Cuba, had not sailed up to an early hour this morning.

No reason has beed stated, so far as can be learned, for this very unexpected delay in the movement against Santiago.

Officials positively decline to discuss the matter, but clearly show by their manner that the news is most unwel-

Later advices received during the afternoon show that a start was actually made yesterday, but that the movement dragged and that many of the ships did not move until some all of the vessels are now fairly under way. The public probably will be fully informed to-morrow concerning the movement, as the authorities here have determined to withdraw the censorship thus far enforced from Florida points sometime to-morrow. Allowing three days for the trip, General Shafter's forces will be in the vicinity of Santiago by Friday noon, and it is expected that the debarkation will take the reet of that day and night and part of the following day.

DE CASTELLANE IN A DUEL.

A French Editor Wounded by the Husband

of Annie Gould. Paris, June 15 .- Count Boniface de Castellane, who married Miss Anna Gould of New York, fought a duel this morning with M. Henri Turot of the Petite Republique Francaise. Three rounds were fought with swords and M. Turot was wounded in each round, twice slightly and the third time severely in the right fore-

arm, thus ending the duel. The Petite Republique Francaise. one of the most sensational papers in Paris, commented at length on the arrest of a servant in the count's household for failing to report to the health authorities the birth of twins. The article contained some insulting references to the Count de Castellane. who at once sent a challenge to the editor. There was some talk at first that Castellane would bring a suit for defamation against Turot. Few people doubt that he has good ground, but the young deputy is reported to have said; "No lawsuits for me. I'm young and will fight for my name

every time my honor is attacked." A second duel over an article in the same paper will be fought by Charles Bernard, deputy for Gironde, with Gerault Richard, editor-in-chief of the Petite Republique. To-day is a sort of field day for the editors of that reckless sheet. But duels are cheaper than libel suits.

SENATE IS NEATLY BUNCOED.

Major F. B. Stahlman Works the Members to a Finish.

WASHINGTON, June 15 .- For nearly two hours yesterday the Senate had under discussion the resolution of Mr. Lodge of Massachusetts directing the claims committee to make an inquiry as to the disposition of the money appropriated by Congress to pay the claim of the book concern of the Methodist Episcopal church (South).

A heated colloquy between Mr. Chandler of New Hampshire and Mr. Pasco was the feature of the discussion. Mr. Chandler said that Mr. Pasco was unwittingly and unwillingly the agent through which a deception had been practiced upon the Senate. Mr. Pasco demanded the withdrawal of the statement, but Mr. Chandler insisted that it was correct and refused to withdraw it, although he disclaimed any intention to reflect upon Mr. Pasco's honor. The resolution prob-

ably will be called up again to-day. Major F. B. Stahlman, a well-known lobbyist, is said to have received \$100,-000 for working through the claim. The Senate understood there was no lobby contract to be paid.

LITTLE DAMAGE AT SAN JUAN.

A British Captain Says Sampson Did Not Injure the Forts.

NEW YORK, June 15 .- The British steamer Tyrian, from San Juan de Porto Rico June 6, arrived to-day. Captain Angrove reports that very little damage was caused by the bombardment by Admiral Sampson's fleet on May 12. The forts were not injured. One church had a hole in each end where a large shell passed through. The captain said he visited all of the forts to see the result of the assault. but could observe nothing unusual. At the gateway of one of the forts stands an unexploded American shell, which is kept there as a souvenir. There were in port the Alphonso XIII

CHICKAMAUGA PARK, Ga., June 15. During a hard wind and rain storm last night scores of tents were blown down and hundreds of men were rushing in every direction hunting shelter. Many young trees in the park were blown down and ruined. This morning the men began work early repairing the damage done, and by noon everything was in good shape again.

He Could Not Sell His Wheat Fast Enough and Had to Quit. Cuicago, June 15. - Joseph Leiter,

speaking of the collapse of his wheat deal, says:

"It is a case where the tail has began to wag the dog. This statement has its illustration in the fact that futures began breaking faster than eash wheat declined. Logically, the condition should have been just the reverse. For several days - in fact, I may say for some weeks cash wheat has been slow sale, especially in the Northwest and around the milling centers generally. To a certain extent this has been offset by a fair degree of activity at the seaboard in response to an inquiry from the other side, but the local markets have been decidedly in- floating from a Spanish flagstaff. clined to drag. There has been a steady marketing of eash wheat, but I cannot say anything as to the quantities in which it has gone into home consumption or abroad for foreign use.

"I see no objection to stating that all my holdings of futures have been disposed of. A good deal of gossip has come to me on the general subject of alleged treacherous conduct on the time this morning. It is supposed that | part of Northwestern grain interests, which I have always heretofore considered friendly to me in a personal and business way, but I have nothing whatever to say on this subject. Mr. P. D. Armour, himself one of the central figures in the Leiter deal which has been going on for many months, did not take a particularly gloomy view of the situation. He said:

"Most of the wheat with the banks is margined at 80 cents a bushel. I where it is worth the money, regardless of speculation. The arrangement which I understand has been perfected provides for the protection of all parties in interest. Mr. Leiter's cash wheat in all positions between the Northwest and Europe ought to be so to take a loss.

WANT REGULARS AS AIDES.

Volunteer Brigadiers' Requests Embarrass the War Department Officials.

Washington, June 15 .- The War department officials are very much embarrassed at requests coming from the newly appointed brigadier generals to have regular United States army officers assigned to duty on their staffs. The department is not indisposed to allow a fair representation of the regular army on the volunteer staffs but it is felt to be improper and unjust to the regular army officers to make up these staffs entirely from among them. The immediate consequence of acceding to these requests has been to force the volunteer officers of lower grade in positions where they are frequently called upon to command men much older in years and riper in military experience than themselves. The result is dissatisfaction and discontent all along the line, for, as a rule the regular army officers very much prefer duty on the staff of generals of the regular army.

LONDON, June 13.—News comes from Havana that the American fleet resumed the bombardment of the fortifications of Santiago de Cuba yesterday. The assault began at 8 o'clock in the morning and continued until 11. The reason for the renewed attack was the fact that the Spaniards were attempting to repair some of the batteries which had not been entirely destroyed during the previous bombardments by the American squadron. The Spaniards had so far repaired the batteries that they were able to now and then send a shot at the American ships This is said to have finally become annoving to Admiral Sampson, and he decided to stop the desultory peppering. Marrimac.

WASHINGTON, June 13 .- The Navy department posted the following bulletin to-day, giving a detailed official report from Admiral Sampson on the exploit of Lieutenant Hobson and his men in sinking the Merrimae in the Santiago channel: UNITED STATES PLAGSHIP NEW YORK, OFF.

SANTIAGO, June 3, 1808. Permit me to call your special attention to Assistant Navai Constructor Hobson. As stated in a special tele-gram before coming here, I decided to make the harbor entrance secure against the possibility of egress by Spanish ships by obstructing the narrow part of the entrance by sinking a collier at that point. Calling upon Mr. Hobson for his professional opinion as to a secure method of sinking the ship, he manifested the most confidently believe the market will re- lively interest in the problem. After several tract, possibly before the end of the which he consideration he presented a solution which he considered would insure the immediweek. Wheat has got down to a point ate sinking of the ship when he reached the deat in the channel. This plan was pre pared for execution when we reached Santiago. The plan contemplated a crew of only seven men and Mr. Hobson, who begged that it might be entrusted to him. The anchor chains were arranged on deck for both the anchors, forward and aft, the plan including the anchoring of the ship almost automatically

As soon as I reached Santiago and I had the handled that the banks will not have collier to work upon the details were completed and diligently prosecuted, hoping to complete them in one day as the moon and tide served best the first night after our arrival. Notwithstanding the hour of 4 o'clock in the morning arrived and preparation was scarcely completed. After a careful explanation of the final preparations I was forced to relinquish the plan for that morning, as dawn was breaking.

Mr. Hobson begged us to try it at all hazards. This morning proved more propitious, and a prompt start was made. Nothing could have been more gallantly executed. patiently after the firing by the Spaniards had When they did not reappear from the harbor at 6 o'clock I feared that they had all perished. A steam launch which had been sent in charge of Naval Cadet. Powell, to rescue the men appeared at this time coming out under a persistent fire of the batteries, but brought none of the crew. A careful inspection of the harbor from the ship showed that the vessels Merrimac had been sunk in the channel.

This afternoon the chief of staff of Admiral Cervera came out under a flag of truce with a letter from the admiral extelling the bravery of the crew in an unusual manner.

I cannot myself too earnestly express my appreciation of the conduct of Mr. Hobson and his gallant crew. I venture to say that a more brave and daring thing has not been done since ushing blow up the Albemarie.

Referring to the inspiring letter which you addressed to the officers at the beginning of the war. I am sure you will offer a suitable professional reward to Mr. Hobson and his companions.

I must add that Commander J. N. Miller has relinquished his command with the very greatest reluctance, believing he would retain his command under all circumstances. He was however, finally convinced that the attempt of another person to carry out the multitude letails which had been in preparation by Mr. Hobson might endanger its proper execution. I therefore took the liberty to relieve him for this reason only. There were hundreds of vol unteers who were anxious to participate; there were 150 from the Iowa, nearly as many from this ship and large numbers from all the other ships, officers and men alike. W. T. Sampson,

Conferences Had Been Held With Amerlean Representatives.

VANCOUVER, B. C., June 13.-Information has been brought by the steamregarding negotiations between the Philippine rebel chief and the United States representatives at Singapore. It seems that just before the outbreak of hostilities between Spain and the United States Singapore was the scene of a secret political arrangement by which General Emilio Aguinaldo y Femi, supreme head of the revolutionary movement in the Philippines, entered into direct relations with Admiral Dewey while that officer was still at Hong Kong. General Aguinaldo's policy, as a re-

sult of these conferences, embraces the independence of the Philippines, whose internal affairs would be controlled other one of the lionesses in the Hagunder European and American advisers. GRANT LED THE MANEUVERS.

Sham Battle at Chickamauga to Illustrate a New Battle Problem.

CHICKAMAUGA, Tenn., June 13.-The event of the day at Chickamauga was the execution of General Fred Grant's battle problem. In this problem were a number of new and difficult maneuvers. and it was watched with great interest by thousands of officers and men. The maneuvers were all carried out according to General Grant's excellently conceived plan, and the fact was demonstrated that many of them would be very useful in actual conflict. The battle begun at 7 o'clock and was con cluded before noon.

There were two columns in the formation. The first, consisting of the First Vermont. Third Tennessee and Eighth New York regiments, commanded by Colonel Clark of Vermont. was formed along the Vineyard road.

The second column, consisting of the Fourteenth New York, Second Nebraska and First Missouri, under command of Colonel Charles J. Bills of Nebraska formed on the Thedford road. When the two columns met the struggle began in earnest. When this was finished. General Grant threw the two columns together to ward off a supposed attack from some direction of which he was supposed to have knowle edge in advance.

STRONG SITUATION.

The Business Outlook Could Scarcely Be Better Than Now. NEW YORK, June 13.-R. G. Dun &

o.'s weekly review of trade says: "The certainty that the Spanish Atlantic fleet is imprisoned and powerless to do harm has helped to make the tone of markets more confident. Every step of progress during the week which has looked toward an early termination of the struggle has been reflected in the market and in lower rates for money. All industries have felt the uplifting influence. In finances the growing anxiety to lend on even long exchanges at low rates, in place of shipment of gold to this country, begins to accumulate a standing credit in favor of the United States. A stronger situation it would be difficult to describe."
