The business men of Campbell raised about \$150 for a Fourth of July celebration at that place, as much as could be raised in this city which is three or four times the size of Campbell.

The city fathers should next try their hands at sanitary work. All filth and filth breeding places should be cleaned up and not permitted in the future. One ounce of preventative is worth sixteen ounces of quinine.

Roadmaster Wilburn has had the large cotton-wood trees surrounding his house girdled and soon the nuisance of having everything around the property covered with clinging cotton thrown off from these trees will be abated.

The McCook Tribune says: "The backbone of the drought will soon be broken." The people of this section are wishing that the backbone of the rainy season might soon be broken. The rain clerk has evidently lost or mislaid the plug.

Does Baby Thrive?

If your baby is delicate and sickly and its food does not nourish it, put fifteen or twenty drops of Scott's Emulsion in its bottle three or four times a day and you will see a marked change.

We have had abundant proof that they will thrive on this emulsion when other food fails to nourish them.

It is the same with larger children that are delicate. Scott's Emulsion seems to be the element lacking in their food. Do not fail to try it if your children do not thrive. It is as useful for them in summer as in winter.

Ask your doctor if this is not true. SCOTT'S EMULSION, Chemist, New York.

Royal makes the food pure, wholesome and delicious.
