The Up-to-Date Farmer wants to revise the manner of spelling the adjective that precedes the cow that is giving milk. He says there is as much sense in writing it "milch" cow as there is to call a work horse a "worch" horse or a silk dress a "silch" dress.

If the professor of the state university would invent some insect that would be as destructive to sunflowers and cockleburrs as cutworms are to corn and tomatoes, they would win the everlasting gratitude of the human race.

Mrs. S. M. Walker, state president of the W. C. T. U. will be in Red Cloud Monday, June 26. She will speak to the ladies at 2 p. m. in the M. E. church and all are most cordially invited to attend. In the evening she will give an address at the same place to the general public. Mrs. Walker is a lady of wide culture and an entertaining speaker. Everyone will feel well repaid who hears her address.

Fred Fearn received a badly burned arm on Tuesday afternoon while heating a kettle of tar for use on the roof of Miner Bros. building. In dipping the heated tar from the kettle he used a vessel which had been dipped in water and the consequence was that the vessel coming in contact with the hot tar made it fly in all directions, a portion of it falling on his arm and burning it badly. The kettle of tar took fire and caused many to believe that some building in that vicinity was on fire. Another kettle of tar was burned the next morning.

HOW are the children this summer? Are they doing well? Do they get all the benefit they should from their food? Are their cheeks and lips of good color? And are they hearty and robust in every way? If not, then give them **Scott's Emulsion** of cod liver oil with hypophosphites. It never fails to build up delicate boys and girls. It gives them more flesh and better blood. It is just so with the baby also. A little Scott's Emulsion, three or four times a day, will make the thin baby plump and prosperous. It furnishes the young body with just the material necessary for growing bones and nerves.

A Missouri preacher a few evenings since pleaded with his congregation to renounce their sins and lead better christian lives, and warned them of the awful fate of the eternal association with the Spaniards if they failed to do so. It is said that half of the congregation went to the mourners bench in a trot.

The quantity of food that a toad's stomach can accommodate is wonderful. In one was found seventy-nine myriapods, in another fifty army worms, in another sixty-five gypsy caterpillars, in another nine ants, six cutworms, five myriapods, six sow bugs, one weevil, and one wire worm beetle. In twenty-four hours the toad consumes enough food to fill his stomach four times. Feeding at the rate above mentioned, a single toad will in three months consume over 10,000 insects. If every ten of these should do a cent's worth of damage, the toad thus effects a saving of \$10. Do not kill the toads.

On Wednesday afternoon, June 15th, a group of happy children gathered at the home of Mr. and Mrs. Butler of Cowles to celebrate the anniversary of their oldest son, Merlin. About three o'clock the merry laughter began with games conducted by Mary Spracher, Flora Anderson, Edith Story and Pearl Hines. Peanuts, candy, ice cream, cake and lemonade flowed abundantly, to which the little urchins did ample justice. Merlin was the recipient of a good many presents. They found Mr. and Mrs. Butler quite entertaining. About 6 o'clock they took their departure, taking with them a souvenir in remembrance of the happy day, saying they wished they could go to a surprise party every day.

Bad management keeps more people in poor circumstances than any other one cause. To be successful one must look ahead and plan ahead so that when a favorable opportunity presents itself he is ready to take advantage of it. A little forethought will also save much expense and valuable time. A prudent and careful man will keep a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house, the shiftless fellow will wait until necessity compels it and then ruin his best horse going for a doctor, and have a big doctor bill to pay, besides, one pays out 25 cents, the other is out one hundred dollars and then wonders why his neighbor is getting richer while he is getting poorer. For sale by H. E. Grice.

The death of Rev. John Bean which occurred on last Tuesday after a short illness cast a shadow of sadness over the community, the gentleman being universally liked and respected by all who knew him. He was an early settler in this county having come here from Illinois some sixteen or eighteen years ago where he took up the peaceful pursuit of farming in Batin township. He was a devout christian gentleman and member of the clergy having preached the gospel for many years. At the time of his death he was just turning his three score years. He leaves a wife and several children to mourn the loss of a devoted husband and father. The last sad rites of burial were preached by Rev. Blackwell and the remains were escorted to their last resting place in Pleasant Prairie cemetery by many sorrowing relatives and neighbors.

Wedding rites were solemnized on Wednesday evening at 8:30 p.m., for Miss Lydia E. Rife of this city and Dr. E. T. Rickard of Weeping Water at the residence of the bride's sister, Mrs. Elmer Ross, east of town. The bride is the daughter of Mrs. Savilla Rife, and is a very estimable young lady and one who has won many friends during her residence here. The groom, Mr. Rickard, is a rising young practitioner of Weeping Water. A large number of invited guests were present and witnessed the ceremony which was performed by Rev. James Mark Darby. After the pleasant marriage event was over an elegant supper was served. The young couple were the recipients of many useful presents. They will make their home at Weeping Water, for which place they departed Thursday morning, a large number of friends going to the depot to give them a parting farewell.

I was seriously afflicted with a cough for several years, and last fall had a more severe cough than ever before. I have used many remedies without receiving much relief, and being recommended to try a bottle of Chamberlain's Cough Remedy by a friend, who, knowing me to be a poor widow, gave it to me, I tried it, and with the most gratifying results. The first bottle relieved me very much and the second bottle has absolutely cured me. I give this certificate without solicitation, simply in appreciation of the gratitude felt for the cure effected. Respectfully Mrs. MARY A. BEARD, Claremore, Ark. For sale by H. E. Grice.
