The election is now over and we shall again settle down to business. We hope and believe we have injured no one's feelings during this campaign, and if we have it has been unintentional, for we have tried to treat the opposition with the utmost respect. The entire campaign has (with a few exceptions) been devoid of the usual slanders and mud slinging so common in such cases, and the whole people are thankful that it was so. While the republicans win a portion and lose a portion of the ticket it can be plainly seen by the tabulated vote that within the past two years a change has taken place in the county which gives a republican majority of 125 instead of a fusion majority of 272. Why it is that the whole republican ticket should not be elected under such circumstances we are unable to say and leave it to each to figure out.

Query—If Webster county can give 125 republican majority for supreme judge or regents, how many republican votes will it take to elect the republican county ticket.

CONOVER, Agent.

The North Platte Valley in northwest Nebraska, offers some wonderfully good opportunities to the man or woman with a little money to invest in irrigated lands. Excellent irrigated land can be had now for \$12 to \$15 an acre, but it is plain to those watching the development of the North Platte Valley that this low price is just about to fade away. The farmers of this valley are now reaping an abundant harvest. Alfalfa, corn, wheat and garden vegetables yield good profits. There are also good openings in the live stock business. If you are interested in the North Platte Valley, write for our booklet describing it. It is free.—J. FRANCIS, G. P. A Burlington Route, Omaha, Nebr.
