We are glad to see cur contemporarys up the street advocating improvements in the way of electric lights and other things. We talked these same things tor years without a responsive little bit position in the drug store of C. L. Cot. of help from the other papers until we grew tired. After a great deal of talk for a new brick hotel we have got it and perhaps our writings on the need of an opera house will some day not have been in vain.

The old building formerly occupied for saloon purposes by John Pointeky is no more it having been completely torn down this week. What will poor get money to pay taxes on the lot? Guess he will have to put up the taxes The CHIEF is unavoidably late this himself hereafter. If some of the other pocket and put up the taxes, they perhaps also would be torn down.

> Talking about Newhouse's grab sale, wasn't it a corker? Such crowds! What caused all this demonstration of the people all crowding to the store of this popular firm on last Saturday? Simply the fact that the people have learned that when these young menwho represent this firm advertise, they meso just what they say and that there will absolutely be no swindle in the transaction. If they advertise to give a gold watch it will be a gold watch. They sold out all the packages in their grab sale and the lucky winners of the larger prizes received goods worth considerable money. The rest got their money's worth, and it was a good advertisement for Newhouse Brothers and that was what they were after and ready to spend money to get.

Let's
