Mrs. W. J. Ridder, of Hill Dale Farm (Euosburg Center). Enosburg, Vt., writes: "During the past year I found myself expecting maternity, and in rapidly fasting health. I suffered dreadfully from bloating and urmary difficulty. I was growing perceptibly weaker each day and suffered much sharp pain at times. I felt that something must be done. I sought your advice and received a prompt reply. Took twelve bottles of Doctor Pierice's Favorite Prescription, and also followed your instructions. I began to improve immediately, my health became excellent, and I could do all my own-work (we live on a good sized farm). I walked and rode all I could, and emoyed it. I had a short, easy confinement and have a healthy baby boy."

Oil for the Children.

Give them oil-cod-liver oil. It's curious to see the result.

Give it to the peevish, fretful child, and he laughs. Give it to the pale, anæmic child and his face becomes rosy and full of health. Take a flat chested child, or a child that has stopped growing, give him the oil, and he will grow big and strong like the rest.

This is not a new scheme. It has been done for years. Of course you must use the right oil. Scott's Emulsion is the one.

Scott's Emulsion neither looks nor tastes like oil because we are so careful in making it pleasant to take.
