While at his farm southwest of Beatrice Fred Claussen, a groceryman of Beatrice, was attacked by a ferocious bull and narrowly escaped being killed. When the animal came for him he grabbed it by the horns and held on until a farm hand came to his as-sistance. Aside from a few bruises he escaped being injured.

The three-year-old child of John Ogle, a farmer a few miles east of Humboldt, was severely and perhaps fatally scalded as the result of pulling a plug from a washing machine operated by its mother, completely drenching the little one with boiling water. One entire side was literally cooked, and the physicians give little hope of recovery from the accident.

August Wachter, of Fremont, met death in the Platte river. In company with a number of clerks at Eddy Bros.' store, where he was employed, he went down for a swim after supper. He dived from the top span of the bridge across the south channel and never came to the surface. The water at this point is only thirty inches deep ark! it is supposed that he struck bottom. The body was found by Lep Moller at the end of Big Island. Wachter was 20 ars of age, and had been clerking at Eddy Bros. for the past three years.

Willie Stahl, 14 years old, stole away to swim with comrades and was drowned in the Elkhorn river, near Norfolk. His comrades denied the accident, declaring Willie had gone home and hid his clothing in a barn to conceal the fact. Searching parties were busy all night, using hooks and boats, trying to rescue the body. The river was high. The body is thought was high. The body is thought to be in a hole filled with brush, where diving is perilous.

Roy Philpot, a well known young man of Humboldt, while assisting two companions in a premature celebration of the Fourth, discharged a 22-calibre pistol in the left hand, tearing quite a hole in one of his fingers and causing him considerable pain. Unless complications arise no serious trouble is anticipated, but the weapon was so close that the flesh was badly burned and there is some danger of poisoning.

The team went east, and supposed to be headed for Sloux City, Ia. Mr. Heacock will pay \$100 reward for the capture of the team and conviction of the thief.

Government surveyors are at work north of Scotts Bluff near the Scotts Bluff-Sloux county line, on the proposed government ditch. Early in the morning the Norge, which was out of her course in heavy weather, ran onto the Rockall reef which in the distance looked like a ship under full sail. The Norge was quickly backed off, but the heavy seas poured in through a rent in her bow.

The emigrants, who were then awaiting breakfast below, ran on deck. The hatchways were scarcely built for these hundreds of souls, and became clogged.

The Norge quickly began to do down by the head. Eight boats were lowered and into these the women and children were hurriedly put. Two boatloads got safely away from the side of the sinking ship, and many of the emigrants who were left on board, seizing life belts, threw themselves into the sea, and were drowned. Half mad with fright, the survivors all struggled for places in the boats. They fought their way to the big lifeboat, and an officer stowed in the six women and the girl and told the men to get in. The officer then took charge and got the boat away from the side of the Norge. Seeing that the boat was already overloaded, the officer, with great heroism, jumped into the water and tried to board another boat was drowned.
