State Fair News

The educational exhibit at the State Fair, September 4th to 8th, will occupy three times the space heretofore allotted to the schools of the state. Five times the usual amount is offered in prizes, eight hundred and twenty dollars worth of prizes and ninety-two diplomas being offered. Of the total 721 prizes, twenty-six are general, two hundred and nineteen are for town and city schools and four hundred and seventy six are exclusively for rural schools. Colleges also come in for prizes, and individual work has not been overlooked.

The schools have a gardening department which show school and home gardening by pupils of the public schools, and school gardening by teachers in the summer normal schools. An exhibit will be made from the five junior normal schools.

A model rural school will occupy the center space opposite the south entrance. This will be up-to-date in seating, lighting, heating, blackboards, maps, charts, libraries, wall finishing, decorations, desks, etc. Work of pupils will be on exhibition as in an ideal rural school, and in charge of the room will be a model teacher, who will explain to visitors any features exhibited.

A school teacher made of Rock county grasses will be in position to keep an eye on all who enter, and a

school boy made of York county corn products will be present every day.

Box Butte county will illustrate her products of horse, cattle and potatoes by figures made of potatoes, and Perkins county will be on hand with the "staff of life" represented by the cactus plant as trained in the west to furnish food for hogs, cattle and horses.

The Lincoln city schools will have in operation a section of their cooking school, where pupils will be instructed in and perform the regular work of the school.

The educational exhibit will be a point of interest for all visitors. Wednesday, September 6, will be School Day. A speaker of national reputation will give an address. Plans will be made to entertain and care for school children. Excursions will be run from all localities where a sufficient number of persons become interested.

It is urged that the schools do not commence until Monday, September 11, in order that both teachers and children who desire may attend the fair and take advantage of the educational exhibit.

Deputy Superintendent E. C. Bishop, State House, Lincoln, will have charge of the exhibit and arrangements. Write to him for any desired information.
