"That it shall be the duty of land owners in this state to mow or otherwise destroy all weeds to the middle of all public roads along their lands at least once in each year, namely, between the fifteenth day of July and the fifteenth day of August in each year. And whenever land owners neglect to mow or destroy the weeds in roads as herein provided it shall be the duty of the overseer of roads on complaint of any resident of his road district to mow or destroy the weeds on neglected portions of roads complained of, and the overseer may charge and be paid from the general funds of the county one dollar and fifty cents per day for a man, one dollar and fifty cents for a team, and one dollar per day for the use of the mowing machine for the time actually spent for the cutting and destroying of weeds, provided that no overseer shall destroy the weeds on any road until after the time has passed in which the owner is required to destroy said weeds. And a statement of all money paid to overseers of roads for carrying

out the provisions of this act shall be made by the overseers to the county clerk, giving a proper description of lands whereon weeds were destroyed by the overseer of roads, and the county clerk shall include such amounts in making the county tax lists as an assessment against such lands, which shall be collected as other taxes."
