### From Mrs. Knight.

SAN PEDRO, Cal., Oct. 6, 1905.

EDITOR CHIEF:—I wonder if your readers would like to hear from me again? We have had a sea voyage. We lived three months at Hueneme by the Sea and we liked it very much. It was so cool and comfortable all summer. But it is too dull a place for a winter residence, so one day last week we took passage in an ocean steamer and came down here. It is about twenty miles south of Los Angeles. We did not like the voyage very well, for the sea was rough and we were all sick an hour or two, and by the time we were better it was bed time, and when we arose in the morning the ship was anchored in the San Pedro harbor and we landed. It was a new experience to us. This is one of the oldest towns on the coast. It has a deep harbor where all sorts of ships can land. It has been a small town, but in the last three or four years it has increased rapidly and still continues to do so. Of course, it has great "expectations." I have not seen much of it yet. My son, U. G., is interested in the daily paper here. He found us a house which we rented and went to housekeeping in a couple of days after we arrived. It is much warmer here than where we have been living, but it is comfortable, and it is said that the winters are fine here.

When I have found out more about the place I will write you further.

While living in Hueneme I met a brother of Mrs. John G. Potter of Red Cloud. He is presiding elder of the Pasadena district of the M. E. church. I met him at a quarterly conference of that church, to which I was invited. His father, Archibald Thomson, was an old resident of Red Cloud and he has been there several times. He is considered one of the best preachers and he has fine executive ability. He seemed much pleased to meet me and we had a good visit.

Fruit is plentiful here, brought right to our door. We bought a bushel of good sweet grapes for 40 cents. Apples are not as plentiful as other fruit and they are about a dollar a bushel; lemons, 15 cents a dozen, but they are very large. No oranges now, but there will be in December. We are still pleased with the country and intend now to make it our home.

Mrs. E. B. KNIGHT.
