REVOLT IS CRUSHED

CZAR'S FORCES FURIOUS AT TACTICS OF THE "RED" ARMY.

Emperor and Count Witte Receive Report From Governor General Telling of Failure of the Rebellion—Leaders of the Revolutionists Captured.

St. Petersburg, Dec. 27.—Emperor Nicholas and Count Witte received a report from General Doubasoff, governor general of Moscow, saying that the revolt there had failed, that the military had the situation in hand and that whatever disaffection may have existed among the troops had been overcome by attacks on them by bombs and revolvers, to which they had been subjected from the windows and roofs of houses and which had so enraged them that they could hardly be restrained. Although rebellion may flare up immediately elsewhere, and although there is an indication of another upheaval at Odessa, if the attempt at armed rebellion in Moscow should be crushed the leaders of the "reds" will receive a blow from which they cannot quickly recover. Count Witte is not so blind to believe that the revolution can be stamped out, but with the present demonstrations of the lengths to which the "reds" are willing to go he hopes that the moderates of all classes will come to their senses and aid in counselling order and in accelerating the convocation of the duma.

Among the developments here the most important was the capture of the leaders of the "Fighting Legions," which, it is believed, ends the danger of an attempted armed uprising in St. Petersburg. This capture, it is understood, places in the hands of the government complete information regarding the revolutionary plans and places where arms are concealed, as well as disclosing the weak spots in the army.

The correspondent of the Associated Press at Moscow telephoned that there seemed to be no longer doubt that the insurrection was collapsing. The insurgents still held the quadrangle, in which the workmen's council was sitting as a revolutionary committee, but only because Governor General Doubasoff was not yet ready to give the coup de grace.

Firing continues and automatic guns are being used in Strastner square, but the insurgents are becoming exhausted after their four days' efforts, and the fighting is rapidly degenerating into guerrilla warfare. The insurgents were defending themselves with revolvers and bombs, as they were being hunted down from house to house. The correspondent says that the entire population of the city is terror stricken.

About one-third of the workmen have left the city and are traveling on foot to the villages, some of which are hundreds of miles distant. Among the lower classes, who do not sympathize with the desire to overthrow the emperor, the feeling is becoming intense and many strikers have been beaten to death. The correspondent predicts that the crushing of the rebellion is likely to be followed by the most horrible atrocities if the "black hundreds" are let loose.

The Bourse Gazette says it is reported that General da Dioulin, prefect of police of St. Petersburg, has been informed by telephone that the number of dead and wounded at Moscow number 10,000, and that when questioned the general did not deny that such a report had been received.

GOVERNMENT'S SOIL SURVEYS.

Western Farmer Chiefly Concerned About Eradication of Alkali.

Washington, Dec. 27.—The soil survey of the department of agriculture has mapped 15,752,320 acres of land during the past fiscal year, according to the annual report of the soils bureau. The surveys were made in twenty-eight states. Rhode Island is the first state in the union of which a complete survey has been made. The maps show the different kinds of soil which occur in each area. The report says that the work during the past three years shows the three great agricultural problems now are

First—The western farmer is chiefly concerned with the presence of alkali and its removal.

Second—The eastern farmer is chiefly concerned with the study of the adaptation of the proper crop to the proper soil.

Third—With the maintenance or restoration of soil fertility.

Nine Die From Poisoned Punch.

El Paso, Tex., Dec. 27.—At Torreon, Mex., nine citizens, who were poisoned at a banquet Saturday night, have died and many others are ill. It is alleged that the poisoning was part of a political plot. Strychnine was put into a bowl of punch. All the dead are said to have been of one political faction. The members of an opposing faction who attended the banquet were not affected by the punch they drank.

Court House Damaged by Fire.

NEW RULES IN FOOTBALL.

Neither Side Able to Score in Game at Wichita.

Wichita, Kan., Dec. 26.—Changes in football rules to require ten yards gain on three downs and permit the forward pass were tried in a game between Washburn and Fairmount clubs in this city. Neither side was able to score. Washburn made the ten yards gain only four times and Fairmount but three. Both sides punted constantly and the forward pass caused more trick plays and end runs. Only four times were attempts made to break through the opposing line and these when there were but two or three yards to gain. Heavy penalties against rough play caused a clean game and not a player was injured so as to leave the game. It is the general opinion of football men who saw the game that had four downs been allowed to make the ten yards the game would have been as open and would have permitted the ball to be advanced with possibilities of a touchdown.

Five firemen sustained slight injuries. No one was in the building when the fire started and its origin is unknown. The occupants of the building were: F. Damsky, paper boxes; Cohen & Muhlendorff, shirt waists; Goldschmidt & Knapp, cloaks; L. Mendelsohn & Co., silk belts; Joseph Brandt & Bro., braids, and J. Jentes, furs.

Fatal Quarrel Over Card Game.

Mineola, L. I., Dec. 26.—After a card game one Italian was found dead in the house of Angelo Giniglio here and another a short distance away, mortally wounded. The police say that Giniglio, Rocco Tappor and Phillip Nari quarreled over a card game and charge that Giniglio shot the other two men. Tappor was found in the house with a bullet through his heart and Nari was shot twice in the back. He crawled from the house to a street car before fainting.

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a Home of Swamp-Root pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.
