

# Every Niece and Nephew of Uncle Sam

should be deeply interested in what he has said about soda crackers, because they are the one food with which all of them are familiar.

Uncle Sam has given out figures showing that soda crackers are richer in nutriment and body-building elements, properly proportioned, than any food made from flour.

This is saying much for common soda crackers, and much more for **Uneeda Biscuit**, because they are soda crackers of the best quality. They are baked better—more scientifically. They are packed better—more cleanly. The damp, dust and odor proof package retains all the goodness and nutriment of the wheat, all the freshness of the best baking, all the purity of the cleanest bakeries.

Your Uncle Sam has shown what food he thinks best for his people. His people have shown that they think **Uneeda Biscuit** the best of that food, nearly 400,000,000 packages having already been consumed.

### WRECK OF STREET CARS FATAL.

One Person Killed and Five Fatally Injured at South Omaha.

Omaha, March 14.—The most serious street car accident in the history of the local street railway company was that which occurred on the Walnut Hill line at Thirteenth and J. streets, South Omaha. A partially loaded car descending the steep grade at a high rate of speed jumped the track and dashed into a north bound car, which was loaded with people, starting to their day's work in Omaha. A blinding snowstorm was in progress at the time—6:30. The rails were covered with snow and the motorman says that he was unable to slacken the speed of his car before the point where there is an abrupt decline in the track. He declares that the wheels were sliding when his car left the rails and crashed into the other car. Joseph Ratican was instantly killed and seventeen persons injured, five of whom will die.

Dangerously injured: Mary Abraham, Freda Hoffman, T. E. Peterson, William Richt, Richard Wendlund, Leo McGuire.
