

# My Hair Ran Away

Don't have a falling out with your hair. It might leave you! Then what? That would mean thin, scraggly, uneven, rough hair. Keep your hair at home! Fasten it tightly to your scalp! You can easily do it with Ayer's Hair Vigor. It is something more than a simple hair dressing. It is a hair medicine, a hair tonic, a hair food.

The best kind of a testimonial—  
"Sold for over sixty years."

### AUTO ACCIDENT.

**G. M. Plumb, Formerly of Red Cloud, Breaks Boy's Leg.**

An automobile driven by G. M. Plumb, 1921 N street, ran over the 5-year-old son of Mr. and Mrs. Gunderson, of 2407 O street, last evening at 5.30 o'clock. The boy's left leg was broken above the ankle. The boy was accompanied by an older sister. The sister saw the automobile and ran across ahead of it. The boy held back and Plumb was steering the machine between the two when the lad ran forward, hesitated and turned back. Before the automobile could be stopped one wheel ran over his leg. Plumb picked the boy up and took him in the automobile with his sister to his home, where a physician dressed the wound—Lincoln Star.

Mr. Plumb is a brother of Fred Plumb of this city, and formerly lived here, where he was at one time manager of the creamery. The Star, in another article, pays Mr. Plumb a nice compliment for the course he took after he had injured the boy.

### The Food You Eat.

The average consumer of baking powder does not know that a reaction occurs in the process of baking. Whenever a chemical reaction takes place, the nature of the original materials is entirely changed, so that the substances which remain in the food to be eaten are very different from those which composed the baking powder before baking. For this reason the statement that a baking powder contains alum or cream of tartar is worthless so far as informing the consumer as to what he eats. What the consumer wants to know is what goes into his stomach, not what is in the can. Food prepared with a cream of tartar baking powder does not contain any cream of tartar, just as food prepared with alum baking powder is free from alum. Some baking powders leave large quantities of Rochelle salts in the food, which is a dangerous drug and is produced by the chemical combination of bicarbonate of soda and cream of tartar; others leave lime, ammonia, etc.

Calumet baking powder has been for so many years the standard of all that is good in baking powder that its purity needs no defense. There is just one fact that will bring this point forcibly to the reader's mind. This state, in common with nearly every other state in the Union, now has a very stringent pure food law which in no uncertain terms prohibits the manufacture and sale of any food substances injurious to health. Calumet baking powder complies with the pure food laws of this and all other states.

Why should the consumer pay forty-five or fifty cents per pound for baking powder, when the best baking powder in the world can be made to retail at twenty-five cents per pound (the price asked for Calumet baking powder) and leave a fair manufacturer's profit? The manufacturers of Calumet baking powder have for years made a standing offer of \$1,000.00 for any substance injurious to health found in food prepared from it. Bread made from Calumet is entirely free from Rochelle salts, alum, lime, ammonia or any injurious substance; therefore it is recommended by leading physicians and chemists.

### TEACHERS INSTITUTE.

**Webster County Teachers Will Meet Reunion Week.**

The Teachers' Institute for Webster county will be held during the week of August 27. The best of instructors have been secured, and everything will be done to make the week of the greatest practical advantage to the teachers.

One strong feature of the institute will be the work in school management, conducted by G. H. Thomas, superintendent of the McCook schools, and manager of the State Junior Normal at McCook. Mr. Thomas is recognized as being one of the leading school men of the state. He will bring to the teachers just what will be the most helpful to them in their work.

The work in reading will receive special attention, and will be conducted by Superintendent E. B. Sherman of Columbus. Mr. Sherman is one of the authors of the book on the teaching of reading which has been adopted by the state board as part of the work of the reading circle for the next year, and is a recognized authority on the subject. We are especially fortunate in securing him this year when the subject of reading is receiving so much attention, and demands are being made for better work in reading, and better teachers of reading.

Mrs. Brindley, of Columbus, conductor of the work in the primary methods, is known to many of the teachers, is a woman of long experience as a normal instructor, and will bring to the teachers common sense methods, work that can be used in the rural schools with the material obtainable. State Superintendent McBrien will spend one day of the session with us, and will address the teachers in the evening on the subject, "Education and Patriotism."

Arrangements have not yet been completed for the remaining evening sessions, but they will be made as attractive and helpful as possible.

Visitors will be cordially welcomed to any or all of the sessions.
