A GREAT RECORD.

Not a Solitary Kick Registered Before the Equalization Board.

That the people of this county are satisfied with "Uncle Dick" Turner as county assessor was demonstrated last week when the county commissioners met as a board of equalization and finally adjourned without having had a single assessment brought before it for equalization. We doubt if another assessor in the state can show such a record. Of course Mr. Turner was careful in selecting his deputies, and they gave him perfect assistance except in one case where there was a slight bobble over the rural telephone assessment, but this was adjusted by the county assessor without its going before the board. It is matter of sincere regret on our part that the statute does not permit the assessor to serve more than one term, so that we could continue

Mr. Turner in office. In all of his decisions in regard to assessments he has been sustained by the state board, and his reports have been used as models for the board to hold up before the eyes of other county assessors as worthy of emulation. "Uncle Dick" has made a record of which the people of the county, as well as him, self, have a right to be proud.
