McKELVIE BROS.'

Public Sale

of Big-Boned, Growthy

Poland-China Boars

at the farm of H. L. McKelvie, 4 1/2 miles north of
Fairfield, Nebr., October 26th, 1907

This is going to be one of the first and best offerings of Boars to be made in this section of the state this year. There are represented in these Boars the best pedigrees of the large, practical type of hog, and we feel that we are going to put in a class of boars that will meet with favor with the buying public. There is some speculation as to what constitutes the profitable kind of hog for the farmer and breeder and with our years of experience we have learned to appreciate that we must raise the kind of hog that will be large at maturity and also respond to good care at any age.

A few facts which will give you an idea of the kind we are going to offer are given in the following weights and measurements: The bunch was weighed up some few days ago and averaged 166 pounds in just good thrifty condition, and they range in age from March 1st to April 15th. The shortest in length was 41 inches and the longest about 48 inches. They measure in size of bone from 6 to 7 3/4 inches.

We buy in a number of sows each year and always buy what we consider the best and most popular. To verify this will state that there will be represented in this offering the following sires: Expansion, Chief Tecumseh 3d, What's Ex, Tecumseh Medium, Ideal Prospect, Blain's Tecumseh 2d, Expander, Belmetal, Highland Chief Jr. and Look's Challenger by King Look. This breeding in the main represents the winners as close up as you can buy them that got in the money strong at the Nebraska State Fair this and preceding years. Catalogs and full particulars will be furnished on application to

**H. L. McKelvie, Fairfield, Nebr., or
Claude McKelvie, Clay Center, Nebr.**
