How the Brahman Cleans His Teeth.

When the Brahman cleans his teeth he must use a small twig cut from one of a number of certain trees, and before he cuts it he must make his act known to the gods of the woods. He must not indulge in this cleanly habit every day. He must abstain on the sixth, the eighth, the ninth, the fourteenth, the fifteenth and the last day of the moon, on the days of new and full moon, on the Tuesday in every week, on the day of the constellation under which he was born, on the day of the week and on the day of the month which correspond with those of his birth, at an eclipse, at the conjunction of the planets, at the equinoxes and other unlucky epochs and also on the anniversary of the death of his father or mother. Any one who cleans his teeth with his bit of stick on any of the above mentioned days will have hell as his portion.—"Hindoo Manners," by Abbe Dubois.

Den yo' take de lef' one an' keep on a-goin' till yo' gets to where de ole postoffice uster be."
