The Teacher's Institute. The teachers of Webster county have again assembled at Red Cloud for the purpose of attending the institute. One hundred and nineteen experienced and inexperienced teachers have enrolled and most of them are taking an active interest in the work. Saturday afternoon an educational rally was held in the high school room. It consisted of several good papers, interesting discussions, patriotic discussions, etc. Sunday evening Rev. Edson delivered an interesting and instructive sermon to the teachers. Monday morning at 8 o'clock the teachers were in the high school room ready for instruction. The superintendent in her usual pleasing manner conducts the institute to the entire satisfaction of all. The instructors, Mrs. E. W. Nicholls of Omaha, Miss Ellen B. Atwater of Lincoln, and William Ducker of Red Cloud, are doing good work. The teachers will feel well repaid for all time spent in any class and will go back to their schools, feeling that they are better prepared to fulfill their duties in the school room. Miss Nicholls is teaching written arithmetic, orthography, geography, penmanship, drawing and reading. Miss Atwater teaches U. S. history, source method and others, literature and English. William Ducker is instructor in mental arithmetic, civil government and physiology. Mrs. Nicholls and Miss Atwater are giving new methods of teaching the various branches, while Mr. Ducker instructs for the personal benefit of the teachers themselves. The opening exercises consist of singing led by Mrs. Flora Baum, quotations from famous authors, and various interesting exercises conducted by the different instructors. Monday evening an informal reception was given to the teachers at the Superintendent's home. The lawn was nicely decorated with flags and bunting, and chairs and swings were placed in convenient places. The teachers spent a very enjoyable evening. Mrs. Case tries to make every evening enjoyable for teachers and others interested in education. Tuesday evening at the Congregational church Prof. Edward E. Ott delivered his famous lecture entitled, "Sour Grapes." It was one of the best, if not the best, lecture ever given in Red Cloud. For over two hours he held his audience spell bound. After appointing the various committees the convention adjourned until after dinner. On the re-assembling of the convention the temporary organization was made permanent with the addition of J. C. Brooks as assistant secretary. The reading of a wonderfully long set of resolutions by Capt. Houchin caused considerable merriment both to delegates and onlookers and after the conclusion of the reading they were adopted. The nomination of representative being next on the call a ballot was taken which resulted in the nomination of J. L. Grandstaff he receiving 94; J. F. Grimes 26; O. R. Pitney 9; W. B. Householder 3. The nomination was made unanimous and was followed by a few remarks from the successful candidate. Four ballots were taken for county attorney and brought out the names of J. S. Gilham, A. D. Ranney, and Fred Maurer and on the last ballot the voting settled down between Ranney and Gilham the former receiving 73 votes and the latter 63. HOW are the children this summer? Are they doing well? Do they get all the benefit they should from their food? Are their cheeks and lips of good color? And are they hearty and robust in every way? If not, then give them Scott's Emulsion of cod liver oil with hypophosphites. It never fails to build up delicate boys and girls. It gives them more flesh and better blood. It is just so with the baby also. A little Scott's Emulsion, three or four times a day, will make the thin baby plump and prosperous. It furnishes the young body with just the material necessary for growing bones and nerves. All Druggists, and Scott & Bowen, Chemists, N. Y.

Sailor, Roy Grandstaff and others attended the populist convention at Red Cloud Saturday. The teacher's institute convened last Monday and every part of the county is well represented. The rule prohibiting teachers not attending the institute from teaching in the county is serving to a good purpose in causing attendance, and also in providing our schools with practical and up-to-date teachers, and the old ones who were in the habit of teaching on old certificates have begun to realize that in order to teach school in Webster county they must have something to show that their ideas are not antiquated. The present institute promises to add many new and competent teachers to our already very efficient corps, for the various schools in this county. An exchange says, "to insure perfect health in the summer days a person should eat not less than three green cucumbers, five ears of green corn, and drink three glasses of ice water at each meal, and take a little violent exercise in the hot sun immediately after eating."
