Difference in Army and Navy.
Two congressmen were having a warm argument over the war, and especially over the difference in the management of the army and that of the navy, in the reading room of a Washington hotel. One of them would invariably close a sentence arraigning some department of the army by asking: "Now, why couldn't that have been done as well as the naval officers did all their work?" After he had asked the question half a dozen or more times, he was surprised to be confronted by a quiet gentleman who had been sitting near, who calmly said: "I can answer your question." Looking at him somewhat fiercely the congressman said: "Well, go ahead; tell us why navy work was better done than army work?" "Simply because politicians and persons with social pull could not get naval commissions for civilian incompetents; the work in the navy was all done by men specially educated to do it," was the quiet reply. "Humph; who are you?" asked the congressman. "Never mind my name, I am a naval officer," answered the gentleman. The congressman said he had an engagement and started to leave, but before doing so he leaned over and said to the naval officer: "Better be more careful how you express opinions and criticisms on the other branch of the service." Those in hearing joined the naval officer in smiling and one man said to another: "Wonder how many army commissions that congressman secured for incompetents?"

Man's life is full of crosses and temptations. He comes into the world without his consent, goes out against his will, and his trip between the two eternities is exceedingly rocky. The rule of contrariness is one of the important features of the trip. When he is little the big girls kiss him, when he gets big the little girls kiss him. If he raises a large family he is a chump, but if he raises a small check he is a thief and a fraud and is shunned like a Chinaman with the seventeen year itch. If he is poor he is a bad manager and if he is rich he is dishonest; if he is in politics it's for pie; if he is out of politics you can't tell where to place him and he is no good to his country; if he does an act of charity, it's for policy; if he doesn't give for charity he's a stung cuss and lives only for himself; if he dies young there was a good future ahead of him; if he lives to an old age he has missed his calling. He is introduced into this world by a doctor and to the next by the same process. The road is rocky but a man likes to travel it.

Excursion to Omaha, Monday, October 10th.
An unequalled opportunity for visiting the Trans-Mississippi Exposition is afforded by the Burlington Route excursion to Omaha, on Monday, October 10th. The rate will be exceedingly low—only \$4.50 for the round trip from Red Cloud. Special train with through coaches for Omaha will leave Red Cloud at 10:30 a.m. reaching Omaha at 5:50 p.m.

If you have not yet seen the great fair do not fail to take advantage of this excursion. A visit to the Trans-Mississippi Exposition is a privilege no western man or woman should forego. It is an education of the best kind. Nowhere else—NOWHERE—in the world at the present time can one see so much in so short a time and at so little expense.
The week beginning October 10 promises to surpass all others since the exposition opened. In addition to the exhibits in the main and state buildings, the sham battles and dances which daily attract thousands to the Indian encampment; the midway with its countless curiosities and strange people; the famous Innes band, the live stock exhibit, etc., visitors will have an opportunity of taking part in the Peace Jubilee, in which President McKinley and his cabinet, the governors of the trans-Mississippi states, the mayors of the principal western cities and representatives of the army and navy will participate.

Three Doctors in Consultation.
(From Benjamin Franklin.)
"When you are sick, what you like best is to be chosen for a medicine in the first place; what experience tells you is best, to be chosen in the second place; what reason (i.e., theory) says is best is to be chosen in the third place. But if you can get Dr. Inclination, Dr. Experience and Dr. Reason to hold a consultation together they will give you the best advice that can be taken."
When you have a bad cold Dr. Inclination would recommend Chamberlain's Cough Remedy because it is pleasant and safe to take. Dr. Experience would recommend it because it never fails to effect a speedy and permanent cure. Dr. Reason would recommend it because it is prepared on scientific principles, and acts on nature's plan in relieving the lungs, opening the secretions and restoring the system to a natural and healthy condition. For sale by H. E. Grice.

One of the Kansas boys in the army at Santiago, writes back as follows:
"Two months ago I left Tampa for this blasted land where we are trying to live. For forty-five days I never saw a woman. Fellow citizens, if you want to appreciate a woman get away from her. You don't know what the Creator did when he performed the first surgical operation on Adam. If you want to know what a grand, glorious, and sugar-coated thing a woman is, join the army as I did. See nothing but men from morning till night. Join the army and loaf with men, help men, carry men, see men, men, men, men, and nothing but men. Live in a perpetual atmosphere of suppressed profanity, boot smell and tobacco smoke and at the end of three weeks you would become enamored with the mummy of an Egyptian servant girl and give her an electrical kiss that would burn three thousand years of dried hide into flushed and velvety animation."
Old Settlers Take Notice.

Catarrh is Not Incurable
But it can not be cured by sprays, washes and inhaling mixtures which reach only the surface. The disease is in the blood, and can only be reached through the blood. S. S. S. is the only remedy which can have any effect upon Catarrh; it cures the disease permanently and forever rids the system of every trace of the vile complaint.
Miss Josie Owen, of Montpelier, Ohio, writes: "I was afflicted from infancy with Catarrh, and no one can know the suffering it produces better than I. The sprays and washes prescribed by the doctors relieved me only temporarily, and though I used them constantly for ten years, the disease had a firmer hold than ever. I tried a number of blood remedies, but their mineral ingredients settled in my bones and gave me rheumatism. I was in a lamentable condition, and after exhausting all treatment, was declared incurable. Seeing S. S. S. advertised as a cure for blood diseases, I decided to try it. As soon as my system was under the effect of the medicine, I began to improve, and after taking it for two months I was cured completely, the dreadful disease was eradicated from my system, and I have had no return of it."
Many have been taking local treatment for years, and find themselves worse now than ever. A trial of
