

The Eyes and Health

Nothing is more important for the preservation of good health and clear business judgment than jealous care of the eyes. Defective vision produces irritation and nervousness, and in this condition no person is capable of giving to business matters or to the ordinary affairs of life the attention necessary to success. Perfect fitting glasses will overcome nature's defects. You can have your eyes examined free by

HEART FAILURE

Has often been styled the cause of death in persons who have long lingered in disease. The amazing work which the heart regularly performs would certainly pre-suppose its breaking down. The most active climber can raise himself 1000 feet in an hour, the best locomotive 4000 feet and the heart 20,000 feet. To preserve its energies in full glow and force, Pabst Malt Extract, The "Best" Tonic, will act as an effective and practical fuel. No steam without fire. No energy without food. No staying power without rich supplies of blood. The heart is the great engine of the body. Keep it going, steadily, easily, persistently, unto a ripe old age.

Philadelphia, Pa. I have used your Malt Extract where a "Best" Tonic seemed to be indicated, and the results have proved quite satisfactory. Where a malt preparation is required, I shall not hesitate to suggest the use of your preparation.

 The Tennessee Jubilee Singers will give an entertainment under the auspices of the Epworth League Monday night, March 27th. Reserved seats, 35c; general admission, 25c. Reserved seats on sale at Cotting's drug store.
 Robert J. Sloan an attorney-at-law of Geneva was here the first of the week looking the city over with a view to locating here and has about decided so to do. The trouble of finding suitable office rooms and a residence are the only things now in the road to his coming at an early date.
 Mrs. Pierce's and Rev. Hummel's father, accompanied by Mrs. E. Hummel, a sister of Mrs. G. W. Hummel, all of Muscatine, Iowa, arrived on the 8:30 p.m. train Tuesday evening, where they will visit friends and relatives for several days. Geo. Hummel, Sr., contemplates spending the summer in Nebraska.
 As the season of the year when pneumonia, la grippe, sore throat, coughs, colds, catarrh, bronchitis, and lung troubles are to be guarded against, nothing "is a fine substitute," will "answer the purpose," or is "just as good" as One Minute Cough Cure. That is the one infallible remedy for all lung, throat or bronchial troubles. Insist vigorously upon having it if "something else" is offered you. — C. L. Cotting.

Citizen's caucus No. 2 was held in one of the jury rooms at the court house last Monday evening and the following city ticket placed in nomination: Mayor, Henry Cook; city treasurer, G. W. Dow; city clerk, Samuel Dyer; police judge, J. Porter, Jr.; alderman 1st ward, W. A. Sherwood; alderman 2d ward, S. B. Kiser; members of school board C. B. Crone and S. Beckwith. Since that time the candidate for mayor has had his name withdrawn from the ticket.
 The "Apocalypse in Paintings" at the Congregational church last Tuesday evening was not as largely attended as the nature of the entertainment would warrant. The paintings when accompanied by a biblical history of each are entertaining, interesting and instructive and gives one a very clear idea of the visions of St. John as related in the book of Revelations. Mr. Mercer will no doubt repeat the entertainment at some future date and give our citizens all a chance to see them.

 Deputy Sheriff Burdick returned the fore part of the week from a trip down in Kansas, where he had been in search of the parties who robbed Hayes' store in Guide Rock. He succeeded in getting trace of them, but owing to their zig-zag course across the country he was unable to get anywhere near them.
 The six weeks of cold weather from February 2d (on account of the ground hog seeing his shadow) has passed, but there still seems to be an unlimited quantity of it in the arctic region which is not content to remain there and every day or so comes sweeping southward and makes the cold chills run up and down the spine.
 If people keep on coming to this city to locate some one will have to move out. At present not an empty house is to be found in the town, and even upstairs rooms in brick buildings are at a premium. Some who have bought places are even unable to get them until the present occupants have found some place to move.
 D. E. Spanogle on last Tuesday afternoon received word from the projectors of the electric light plant in this city to withdraw their proposition, and acting as their agent here, he notified the mayor or of their desire. No cause is stated for the withdrawal, and Red Cloud now stands where it did six months ago on the matter of electric lights.

 Elder Hussong, whose year as pastor of the Christian church in this city expired last week, will no doubt be retained for another year. It was at first intended to not have any regular minister of the church until fall, however, upon consideration the members decided differently, and as a certain financial list grows there is encouragement of Mr. Hussong being retained.
 The spring term of court will convene in this city one week from next Monday, and there promises to be some warm times in the old town. The number of damage cases, part of which will no doubt be thrown out when the

court knows the true nature of the case, together with the numerous criminal cases, and other civil cases will no doubt be about all the court will desire at once.
 While we on one other occasion gave a barn storming show which played at the opera house here a mild roast it does not go that we are going to treat a meritorious one the same way. The Pond-Berlin people will be here next Thursday Friday and Saturday and as this is not their first appearance here the public knows that they give a first-class performance from the first night to the last. We commend them to the patronage of the people. They are not only a good company but a nice lot of show folks. They were to appear for the week but gave way for the entertainment for the benefit of the public school.
 Deputy Sheriff McClaren of Blue Hill arrested Samuel Fair in this city Monday night charged with the theft of a diamond pin belonging to Martin Bogatt proprietor of a hotel in Blue Hill. The landlord was washing at the sink and laid the diamond down and forgot to replace it before he left the room. When his loss was noticed young Fair who had been in the room and had gone to the barn to hitch up his team was suspected and on being accused denied the theft. He was followed to this city and the diamond was found on his person. The trial is going on to-day.
 About the largest pest this community has to contend with at present is the cur dogs. They are everywhere and sometimes go in droves. They say a poor man can be told by the number of dogs he keeps, and if the same will apply to a community we are surely too poor to have electric lights. And then it is not very encouraging for visitors who are looking over the town with a view to locating to have somebody's cur dog snapping at their heels every few minutes. Parties who harbor dogs within the city limits should be compelled to keep them tied up.
 Bills were scattered on our streets last Saturday afternoon announcing that there would be a "citizen's" convention at the opera house in the evening. While a call for a citizen's convention for the nomination of a city ticket has heretofore been considered strictly populistic and fixed to catch a few "sore-head republicans," or else strictly "sore-heads" with a little taffy spread on to catch the populist vote, it seems that this gathering refused to allow history to repeat itself. At the appointed hour a goodly number of "citizens" gathered, but not of the class advertised for, and as a result the entire republican ticket was endorsed.

Is Baby Too Thin?

If so, there must be some trouble with its food. Well babies are plump; only the sick are thin. Are you sure the food is all right? Children can't help but grow; they must grow if their food nourishes them. Perhaps a mistake was made in the past and as a result the digestion is weakened. If that is so, don't give the baby a lot of medicine; just use your every-day common sense and help nature a little, and the way to do it is to add half a teaspoonful of

SCOTT'S EMULSION

to the baby's food three or four times a day. The gain will begin the very first day you give it. It seems to correct the digestion and gets the baby started right again. If the baby is nursing but does not thrive, then the mother should take the emulsion. It will have a good effect both upon the mother and child. Twenty-five years proves this fact.
