Captain Underwood, late of Co. I, Third Nebraska volunteers was in the city on the Fourth. He is an Englishman by birth but is proud of his adopted country and thinks the United States is the greatest country on the globe. Our baby has been continually troubled with colic and cholera infantum since his birth, and all that we could do for him did not seem to give more than temporary relief, until we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy. Since giving that remedy he has not been troubled. We want to give you this testimonial as an evidence of our gratitude, not that you need it to advertise your meritorious remedy.—G. M. Law, Keokuk, Iowa. For sale by H. E. Grice.

A little incident occurred on the Fourth here which caused considerable comment, and while we had no interest in the matter one way or the other, it was brought forcibly to our minds that the city authorities have a peculiar idea of their own as to the right or wrong of things. A cripple, who had to be wheeled around in an invalid

chair, sought out the parties who had charge of the issuing of license and obtained permission after paying his license to run a game of chance on the street. After having gotten well started somebody made complaint and he was given back his license money and his game was stopped. Remember, as we said before, this man was a cripple and took this method of obtaining money to enable himself to live. We have before stated our attitude on the matter of gambling in our city, and we are not against it, but we are against favoritism. If our city is going to be run on the moral plan well and good, but we do not want to see this idea aimed only in certain quarters. If it is wrong for this poor cripple to run a game of chance where fifteen cents is at stake it is wrong for a game of poker to be run in some back room where the stake is larger. This cripple paid a license to run his game while the other fellows do not pay a cent. A game of chance where the stake is five cents worth of chewing gum is gambling just as much as where the stake is five cents in coin. There is a policy in this town to deprive some parties of privileges where in other quarters the use of the same privilege is winked at.
