Strong Endorsements

Dr. Mary E. Green, president National Household Economics Association, member American Medical Association, member American Public Health Association, author of "Food Products of the World," writes from Charlotte, Mich.: "The excellence of Pabst Malt Extract is not unknown to me, as I have used it professionally for years, always with the most satisfactory results. For mothers nursing their children and for general debility from any cause, I regard it as of special value, as it combines both tonic and nutrient properties, which make it truly the 'Best' Tonic."
"I recently prescribed Pabst Malt Extract, The 'Best' Tonic, to three of my patients, all of whom were ladies, and all of whom were suffering from dyspepsia and its consequences, and in all these cases it acted like a charm. Two of them bought more of the tonic, and continued to take it, until now they tell me they can eat anything, and one of them added 'everything.' Without the slightest inconvenience. They have certainly improved wonderfully in weight and strength. I have prescribed your 'Best' Tonic a great number of times. It is one of the best, if not the very best, of its kind."
