ROYAL Baking Powder

Made from pure cream of tartar.

Safeguards the food against alum.

Alum baking powders are the greatest menaces to health of the present day.

ROYAL BAKING POWDER CO., NEW YORK.

SAVINGS vs GETTINGS.

If our present county clerk's record is as good as advertised what is the use of using half a newspaper to explain it. A clean record will speak for itself. We have heard no one vilifying the present clerk's record, and are willing to accept his statement that he is "saving the county money," and turning back to the treasurer more "surplus fees" than any previous clerk, until we have investigated and found that such is not the case. To tell the truth we do not see why he should not turn back more fees, as he has had \$100 for attending the commissioners each quarter, regardless of whether the other fees of the office were sufficient to pay the expenses or not. The former clerks have only put in claims for this fee when other accruing fees would not pay the accruing expenses, viz: salary of clerk and deputy and extra help. And aside from this the business of the office has increased to such an extent as to require the services of two deputies, or at least two of them are retained there permanently. The fees for each quarter this year have been, including the commissioner fee of \$100 for each quarter, as follows:

Fees collected 1st quarter..... \$ 672 25
Fees collected 2d quarter..... 817 30
Fees collected 3d quarter..... 806 30

Total fees collected..... \$2296 85

The expenses during the same period have been as follows:

Clerk's salary for three quarters..... \$1125 00
Deputy's salary for three quarters..... 525 00
Extra clerk hire, 1st quarter..... 35 00
Extra clerk hire, 2d quarter..... 139 00
Extra clerk hire, 3d quarter..... 150 00

Total expenses..... \$1974 00

These are the figures, taken from the quarterly reports of the clerk and published in this paper. Now deduct the total expenses for these nine months from the total fees collected for the same period and we have a balance of \$321.85 as excess fees in his hands on September 31st. Now deduct from this last sum the \$300 in fees that were drawn as clerk of the board for these three quarters, or nine months, and which under the circumstances when the other fees were sufficient to pay the current expenses of the office should not have been drawn, and you will find that the excess fees amount to just \$21.85 for nine months. The last statement of the county clerk showed a balance in fees in his hands of \$655 35,
