Children may drink it with great benefit. 15c and 25c per package. Try it. Ask for Grain-O.

Twenty times a day, or more,
Salesmen in a general store
Need to wash their hands,
After handling syrup, cheese,
Coal-oil, onions—things like these
Which their trade demands.
Ivory Soap, which lathers thickly,
Washes clean and rinses quickly,
Proves—and storemen know it well—
Best to use and best to sell.

REEFTON, New Zealand, Nov. 23, '96.—I am very pleased to state that since I took the agency of Chamberlain's medicines the sale has been very large, more especially of the Cough Remedy. In two years I have sold more of this particular remedy than of all other makes for the previous five years. As to its efficacy, I have been informed by scores of persons of the good results they have received from it, and know its value for the use of it in my own household. It is so pleasant to take that we have to place the bottle beyond the reach of the children.—E. J. SCANTLEBURY. For sale by H. E. Grice.

THE FIRST BABY.

Its Coming is Looked Forward to
With Both Joy and Fear and its
Safe Arrival is Hailed With
Pride and Delight by All.

The arrival of the first baby in the household is the happiest and most important event of married life. The young wife who is to become a mother delights to think of the happiness in store for her little one shall nestle upon her breast and latterly she shall hear it lisp the sweet and holy name, "mother." But her happy anticipation quickly vanishes when she realizes the terrible pain and suffering through which she must pass while bringing the little one into the world. An indescribable fear of the danger attendant upon the ordeal soon dissipates her joyfulness.

Thousands of women have learned by experience that there is absolutely no necessity for the sufferings which attend child-birth; they know that by the use of "Mother's Friend"—a scientific liniment—for a few weeks before the trying hour, expectant mothers can so prepare themselves for the final hour that the pain and suffering of the dreaded event are entirely obviated and it is safely passed through with comparatively little discomfort.

All women are interested, and especially expectant mothers who for the first time have to undergo this trial, in such a remedy; for they know the pain and suffering, to say nothing of the danger, which is in store for them. "Mother's Friend" is woman's greatest blessing, for it takes her safely through the severest ordeal of her life. Every woman should be glad to read the little book "Before Baby is Born," which contains information of great value to all. It will be sent free to any one who sends their address to The Bradford Regulator Co., Atlanta, Ga.
