Incidents of Every Day Life Which Very Few People Stop to Think About on Account of Their Littleness

Did you ever notice how pretty a lot of rose bushes look when they are all in bloom.—They look tempting even if they are over a fence.—People have been known to climb a fence at night to get at a nice rose bush.—However some people would live in a place for a hundred years and never have a rose bush around them.—If there is anything that makes a crowd of young fellows feel good it is to drive twenty or thirty miles to go "fishing" and then have some one steal the "bait."—It makes them feel like joining the A. S. L.—This week is institute week and school "marms" are thicker than fiddlers in Kansas.—There was a pleasant rain the first day of the institute.—However that didn't hurt the attendance any.—We think Webster county has got as spry and good looking a lot of school "marms" as ever handled a rod of correction.—This don't apply to the "sirs."—The people of this city will probably celebrate at the neighboring towns this year.—There will be no dearth of celebrations in this vicinity.—The small boy and the cannon crackers are already with us.—Court convenes one week from Monday and although it is only an equity term it promises to be an interesting one.—Several parties are billed to give their views on the question "Is Marriage A Failure?"—Probably it is in some cases or at least one would think so after looking over the court docket.—This is the time of year when it keeps the farmers a humpin' to get ahead of the weeds.—They can't even find time to come to town and do their trading.—And these are also the days when the water commissioner is always pleased to meet the patrons of the city water system.—They all meet him with a kind (?) word or a club.—He is probably the most popular man in town.—Some people appear to think that because he is also marshal he ought to stand and listen to all their troubles.—The water commissioner has enough troubles of his own.—Tell your's to the north ward alderman.—Some fellows are so forgetful.—One young fellow went home one evening this week and forgot to tell his best girl good night.—As a consequence he had to crawl out and come back down town and tell her.—He should leave word with the night watch next time.—It would save considerable trouble and inconvenience.—If you don't know your own business ask the enumerator.—Just at present he is the best posted man in town.

Deputy Sheriff A. A. Burdick was shot last Tuesday evening by John A. Poyer, residing one mile north of Cowles. Mr. Burdick had gone to the home of Mr. Poyer in company with the agent of the Walter A. Wood Company for the purpose of serving an execution. He served the execution and according to his story everything was all right, and Mr. Poyer was going with them as far as Cowles and make an inventory of exemptions, and show that the property levied upon, a buggy, was exempt. This Mr. Burdick told him was all he would have to do and could get the buggy back again. Mr. Poyer went into the house and Burdick and the agent had started to fasten the buggy on behind theirs when Poyer again appeared on the scene with a shot gun and told Burdick to drop the buggy or he would drop him. Mr. Burdick started toward him and told him to drop the gun and at the same time reached for his own, but before he could get it Poyer shot, and Burdick received the larger part of a load of No. 6 bird shot in his body. Burdick shot but the bullet went high and did no harm. The shooting scared the team and it ran away and broke the buggy in pieces. Mr. Burdick and the agent then went after the team which they caught and went to Cowles where they got another rig and came back to this city arriving at about 7 p.m. He was at once taken to Dr. Creighton's office and his wounds dressed. An examination showed that he had received in all forty-two shot,

five in the right hand, seventeen in the right arm, six in the face and thirteen in the body. None of the wounds are serious and he will probably be around in a few days again. The most serious are three which struck near the heart and one which entered his mouth and lanced near the root of the tongue. Sheriff Wells went out the same night and arrested Poyer and brought him to this city and at a preliminary hearing he was bound over in the sum of \$800.

DUTCH FLAT.

According to previous announcements, the Pleasant Grove S. S. celebrated children's day in a very pleasant manner in Mr. Chas. Beardslee's grove. Owing to the presence of poison ivy the location was changed. In the forenoon Mount Hope S. S. rendered a very fine programme, after which some few selections were given by the Pleasant Grove children. Then dinner was served in grand good style, after which the remainder of the programme was rendered. Rev. G. W. Hummel gave a few remarks, followed by an appeal for the sufferers of India. The sum of six dollars was collected and a person authorized to buy corn and deliver to Mr. Fulton of Red Cloud to be sent to the people of India. Jewell, Smith and Webster counties were well represented. Everything was done nicely, the best of order prevailed and everybody seemed to enjoy the good things for both mind and

body. Uncle William VanDyke was present and took part in the doings of the day. We wish to thank Chas. Beardslee, W. H. Lewis, B. Gibson, and W. G. Shannon for hauling the lumber and more especially C. J. Platt for loaning the same.
