This corset is made especially to remedy that trouble and once tried will always be used.

STATE AUDITOR, Charles Weston, Of Sheridan County.

Charles Weston, the republican nominee for state auditor was born in New York City in 1854. He moved with his parents to Champaign county, Illinois, in 1857, and spent much of the time on the farm until he reached manhood.

Mr. Weston is a man of thorough education. He received his elementary education in the public schools of Chicago and Champaign City, Illinois. He entered the University of Illinois in 1872, and graduated from the institution in 1876, having completed in a very creditable manner a four years' course in the college of Literature and Science.

For two years after graduation he taught in the public schools of Illinois and although since engaged in other

CHARLES WESTON.

pursuits, he has always found time and inclination to take an active interest in educational work.

In 1878 he commenced the study of law in the office of Judge J. W. Langley of Champaign, Illinois, and subsequently studied with Wm. H. King, of Chicago, at that time president of the board of education of Chicago. Mr. Weston was admitted to the bar by the supreme court of Illinois in 1880, having passed the most creditable examination in a class of forty-five. For four years he was associated in business with William H. King and Frederick W. Paekard, at that time one of the leading firms of Chicago.

In 1884 Mr. Weston removed to Washington Territory and was for a time editor of the Lewis County Bee in that territory. He came to Nebraska in 1886, and has since resided in the

state, most of the time in Hay Springs, Sheridan county, and has been engaged in the mercantile, banking and stock raising business. He is at present chiefly engaged in the stock industry in Sheridan county.

During the greater part of Harrison's administration he was editor of the North West News, a republican paper published at Hay Springs.

Mr. Weston has always been a republican in politics, and in 1892 was elected regent of the state university, which position he filled with great credit to himself and advantage to the educational interests of the state. He proved himself to be a man of energetic purposes and discriminating judgment, and was much esteemed by university people and by his associates on the board. Mr. Weston has served for many years on the school and village boards at Hay Springs, his counsel being eagerly sought and invariably followed. He was undoubtedly the unanimous choice of his district as candidate for state senator prior to his nomination for auditor. His republicanism has never been questioned and all who know him personally will cheerfully subscribe to these statements in regard to his personal worth and character. Mr. Weston has been a widower for many years, and has one daughter, a bright Miss Weston, who is being educated in Chicago.

The Eminent Kidney and Bladder Specialist.

The Discoverer of Swamp-Root at Work in His Laboratory.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, or the kidneys themselves break down and waste away cell by cell. Then the richness of the blood—the albumen—leaks out and the sufferer has Bright's Disease, the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root the new discovery is the true specific for kidney, bladder and urinary troubles. It has cured thousands of apparently hopeless cases, after all other efforts have failed. At druggists in fifty-cent and dollar sizes. A sample bottle sent free by mail, also a book telling about Swamp-Root and its wonderful cures. Address Dr. Kilmer & Co., Binghamton, N. Y. and mention this paper.

ATTORNEY GENERAL

F. N. Prout,

Of Gage County

Hon. F. N. Prout, nominee for attorney general, is a descendant of the sturdy Holland Dutch who figured so conspicuously in the early history of the New England states. He was born in 1832 in New Jersey, but came to Illinois with his parents three years later, who located in Stark county. Mr. Prout began the study of law at an early age and was admitted to practice by the supreme court of Illinois in 1875 and practiced there six years. In the fall of 1881 he came to Nebraska, locating at Blue Springs. After practicing law there seven years he removed to Beatrice in 1889. In 1897 he was appointed city attorney at Beatrice by Mayor Bourne, which office he filled with signal ability for two years when there was a change in the

FRANK N. PROUT.

city administration. In 1898 he was elected to the state senate and during the 26th session was chairman of the committee on revenue and reform schools and other asylums. He served as a member of the Cornell investigating committee of which body he was appointed chairman. While living at Blue Springs, Mr. Prout began and brought to a successful issue the first case of its kind brought in the state, a case the nature of which caused him to be severely ridiculed when it was first begun. When the Burlington railway built its line south from Beatrice, the company ignored the town of Blue Springs by building through, but failing to open a station there, the Lincoln Land Company organizing the town of Wymore one mile below and here the railroad company placed the station. The suit referred to was

one brought to compel the company to open a station at Blue Springs. Judge Amasa Cobb, who was on the supreme bench when the case reached that court, said: "This is an entirely new action and we will expect a full exposition of the law or else you will go down." Members of the bar were included among those who laughed at the man who had the temerity to begin such a suit, but notwithstanding the almost universal sentiment against him the case was fought out and won for the town people. The subject of this sketch is popular among the members of his profession as he is among the town's people where his ability, integrity and high character is known and appreciated. As an attorney and exponent of the law he ranks with the best talent in the state and his loyalty to party and principle is above reproach.

Rheumatism Cured in a Day.

Mystic Cure for rheumatism and neuralgia readily cures in from one to three days. Its action upon the system is remarkable and mysterious. It removes at once the cause and the disease immediately disappears. The first dose greatly benefits. 75 cents. Sold by H. E. Grice, Red Cloud, Neb.

The Art of Self-Defense.

The popular idea expressed in the phrase, "the art of self-defense," shows the opinion that the chief enemies a man has to defend himself from are visible and external. But the real danger of every man is from minute and often invisible foes. In the air we breathe and the water we drink are countless minute organisms leagued against the health of the body.

The one defense against these enemies is to keep the blood pure. Dr. Pierce's Golden Medical Discovery thoroughly purifies the blood, removing poisonous substances and accretions. When the blood is pure there is no harborage for the germs of disease which find a lodging only when the blood is impure and corrupt.

"I consider your 'Golden Medical Discovery' one of the best medicines on the face of the earth," writes Mr. Wm. Foster, of Red Oak, Montgomery Co., Iowa. "While in the southwest, three years ago, I got poisoned with poison ivy. The poison settled in my blood and the horrors I suffered cannot be told in words. I thought I would go crazy. I tried different kinds of medicine, tried different doctors, but all the relief they could give me was to make my pocket-book lighter. I then began taking Dr. Pierce's Golden Medical Discovery. Took four bottles without relief. Kept taking it. I took in all ten bottles and got entirely cured."

Dr. Pierce's Pleasant Peppets cure constipation.
