A Word to Travelers.

We have a word to say in favor of the Missouri Pacific Raifroad. It was the "pioneer" line westward and is the "old reliable" route to St. Louis. With the improvements that have been made during the past year, we believe that the Missouri Pacific raifroad has the best track and the finest and asfest equipment of any line west of the Mississippi. It is the only line which runs three daily express trains of fine coacues and Pullman sleepers, equipped with the Miller plaiform and the patent air brake, from leading points in the West, through Kansas City, Sedalia and Jefferson City to St. Louis, without change, connecting at St. Louis with eleven different through routes to points north, east and south. No change of cars from Omaha to St. Louis via this route. Particular information, with maps, time tables, &c., may be had at the "Through Ticket" Railroad Stations in the West, or upon personal or written application to G. H. Baxter, Western Passenger Agent, Kansas City, Mo., or E. A. Ford, General Passenger Agent, St. Louis, Mo. 19 29tf A Word to Travelers.

No part of Principal due for wo years from purchase, and alterwards only one-ninth yearly. Products will pay for land and improvement : The Prices of these lands are low, ranging generally in lows, from \$5 to \$15 per acre, and in Nebraska from \$4 to \$12 per acre, with some less and some more.

They vary according to soil, location, water supply, timber, and other advantages, in precisely the same manner as do other lards.

All these peculiarities of every lot offered for sale, may be learned at the office of the Land Commissioner, or of any of the local agents along the line; but every man will, of course, examine in person the land he expects to cultivate, and the locality where is to be his future home, and for this every facility is offered.

These Iowa and Nebraska Lands These lows and Nebraska Lands re not exceeded in fertility, beauty, and all attractions and advantages of locality and soil which are essential in the estimation of farmers, by any region in the world; while trade, manufactures, arts, science, and all the attendants of refinement and luxury, which enterprise can introduce and thrift maintain, are following r pidly the march of settlement. The Railroad lands aiready sold have been wonderfully improved, and the increase in their value is large, in many cases almost incredible.

Much equally good land remains unsold, and can be purchased at low rates, on the same easy terms of payment and with equally good prospects of steady and large increase in value.

TERMS OF SALE.

TERMS OF SALE.

The purchaser pays at the outset, one year's interest at six per cent. on the vaine of his land; at the end of a year he makes another similar payment of six per cent. only.

At the end of the second year he makes payment of one-ninth part of the principal of the purchase money and one year's interest at six per cent, on the remainder, and the same at the end of euch successive year thereafter, until all has been paid.

If he chooses to pay cash down, or one-third cash and the balance in one and two years, with interest at ten per cent. annually, he is allowed an outright discount of 20 per cent. or one-fifth from the ten year price of the land.

So better terms than these have never been offered, and probably never will be.

Parties who purchase for cash receive a Certificate of Purchase, and a Warranty Deed as soon as it can be executed.

If purchased either on Short Credit or Long Credit, a Contract or a Bond for a Deed is executed, and, so soon as all the payments are made, a Warranty Deed, free from any incumbrance, is given, precisely as in the case of lands purchased for cash down.

As a close observer, I have while witnessing its positive results in the few special discusses incident to the separate organism of winant, singled it out as the climax or crowning gem of my medical career. On its merits as a positive, safe, and effectual remedy for this class of discusses, and one that will at all times and under all circumstances act kindly and in harmony with the laws which govern the female system. I am willing to stake my reputation as a physican. Nay, even more so confident am I that it will not disappoint the most sanguine expectations of a single invalid ady who employs it for any of the aliments for which I recommend it, that I offer and sell it under A POSITIVE GUARANTEE. which I recommend it, that I offer and sell it under A POSITIVE GUARANTEE. If a beneficial effect is not experienced by the time two-thirds of the contents of the bottle are used. I will, on return of the bottle, two-thirds of the medicine having been taken according to directions, and the case being one for which I recommend it, promptly refund the money paid for it. Had I not the most perfect confidence in its virtues. I could not offer it as I do under these conditions; but having witnessed its truly miraculous cares in thousands of cases. I feel warranted and perfectly safe in risking both my reputation and my money on its merits.

The following are among those diseases in which my Favorite Prescription has worked cares—as if by magar and with a certainty never before attained by any medicine. Low-orthers, Excessive Flowing, Painful Mouthly Periods, Suppressions when from unnatural causes, Irregularities, Weak Back, Prolapsus or falling of the Uterus, Anteversion and Retroversion, Bearing Down Sensations, Internal Heat, Nervous Depression, Debility, Despondency, Threatened Miscarriage, Chronic Congestion, Infammation and Ukeration of the Uterus, Impotency, Barrenness, or Sterility, Female Weakness, and very many other chronic diseases incident to woman not mentioned here, in which, as well as in the cases which I have mentioned, my Favorite Prescription works cures—the marvel of the World. This medicine I do not extol as a cure-ail, but it admirably fulfills a singleness of purpose being a most perfect specific in all chronic diseases incident to pregnancy, and can be taken in moderate doses with perfect safety while in that state. Indeed, it is a Mother's Cordini, and so prepares the system for parturition that it renders child-labor easy. HALLS HALLS HAIRE VEGETABLE SICILIAN HAIR RENEWER Every year increases the populari-

ty of this valuable Hair Preparation; which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfecton Fadeb Hair to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. the disease, and with assurance, founded on proof, that no harm can arise from its use in any quantity.

That which protects from or prevents this disorder must be of immense service in the communities where it prevails. Prevention is better than cure, for the patient escapes the risk which he must run in violent attacks of this baleful distemper. This "CURE" expels the miasmatic poison of FEVER AND AGUE from the system, and prevents the development of the disease. If taken on the first approach of its premonitory symptoms. It is not only the best remedy everyet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of everybody; and in bilious districts, where FEVER AND AGUE prevails, everybody should have it, and use it freely, both for cure and protection. It is hoped this price will place it within the reach of all—the poor as well as the rich. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is, that it contains no Quinism or other injurious effects whatever upon the constitution. Those curred by it produces he quinism or other injurious effects whatever upon the constitution. Those curred by it produces he healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of the miasmatic poison. A great variety of disorders arise from its irritation, among which are Neuralgia, Rheumatism, Gout, Headache, Biffindness, Toothache, Earsche, Catarri, Asthem Baleful Affection of the Sulsen. orders arise from its irritation, among which are Neuralgia, Rheumarism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Palpitation Painful Affection of the Spieen, Hysteries, Pain in the Bowels, Colic, Paralysis, and derangement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. This "CURE" expels the polson from the blood, and consequently cures them all alike, It is an invaluable protection to immigrants and persona traveiling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the infection, that will be excreted from the system, and cannot accumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protection than cure; and few will ever suffer from Intermittents if they avail themselves of the protection this remedy affords.

For Liver Complaints, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity, and producing many truly remarkable cures, where other medicines fail.
