We have a word to say is inver of the Mississiri Pacific Railroad. It was the "pioneer" line westward, and is the "old rediable" route to St. Louis. With the improvements that have been made during the past year, we believe that the Missouri Pacific railroad has the best track and the finest and asfest equipment of any line west of the Mississippi. It is the only line which runs three daily express trains of fine coaches and Pullman sleepers, equipped with the Miller platform and the patent air brake, from leading points in the West, through Kansas City, Sedalia and Jefferson City to St. Louis, without change, connecting at St. Louis with eleven different through routes to coints north, east and south. No change of ears from Omaha to St. Louis via this works. Particular information, with maps, time inbles, &c., may be had at the "Through Ticket" Railroad Stations in the West, or upon personal or written application to G. H. THE WORLD

The great Democratis victories in New York Ohlo, Maryland, and Virgista, the star-ling Republican defeats in Wiscorair, Iowa, Kansard illinois, forcabadow the election of a Domocratic Congress in 1874, and the election of a Domocratic President in 1876.

The secret of the triumph a endy won has been, steadfast adherence to the organization unflinching fidelity to the principles of the Domocratic Party. "The World' has been faitaful to its trust. When faint horits talked of a spolled party, a deer marty, a new party, it bore aloft the flag of the historic, indomitable Democratic party. That flag, inscribed with the legends, Free Trade and Farners Rights, Hard Money and no Monopolies,—hig Democratis of Ohlo and New York carried to a glorious victory, subverting Grant's majorities

glorious victory, subverting Grant's majoriti of 37,000 and 51,006.

glorious victory, subverting Grant's majorities of 37,000 and 51,000.

A new career now opens before the Democracy—more glorious and more beneficent than its past career, identified though that be with the founding of the Republic, its expansion across the continent, its half century of prespective and peace.

The special triumphs, is still a steadisst adherence to the organization, an unfluching fidelity to the principles of the Democratic party—principles never so needful as now to be applied throughout our Nation, State and municipal life, to heat the wounds and demoralization of war, to stop corrupt and profligate expenditure, to limit and localize powers entrusted to the people's servants, to liberate our industries from the letters of a barbarous tariff, our trade from the flunctuations of an irredeemable paper entrency, and our agriculture from the double plundering of both, as well as to repair the wide-spread financial ruin wrought by the fiscal policy of the Republican party.

The duty of the World in this onward march

party.

The duty of the World in this enward march of the Democratic bosts to victory, is the dissemination of political truth. Our work will be fruitful in proportion as the World is widely

read.

We ask Democrats everywhere to aid us in scattering the good seed broadcast over the whole land during the period so important to whose land during the period so important to the coming harvests.

Where or how can any Democrat work so efficiently for the diffusion of the principles of his party, and their triumph at the ballot box in '74 and '76, as by procuring new readers for the World, now?

Dr. Pierce's Favorite Pre

The term, however, is but a feeble expression of my most matured appreciation of its value, based upon actual and witnessed realities. As a closs observer, I have while witnessing its positive results in the few special diseases incident to the separate organism of woman, singled it out as the climax or crowning gem of my medical career. On its merits are positive. medical cureer. On its merits as a positive, safe, and effectual remedy for this class of diseases, and one that will at all times and under all elementances act kindly and in harmony with the laws which govern the female system, I am willing to stake my reputation as a physican Nay, even more so confident am I that it will not disappend the most sanguing expectations of a single toyally the most sanguine expectations of a single invalid lady who employs it for any of the alimenta for which I recommend it, that I offer and sell is under A POSITIVE GUABANTEE. which I recommend it, that I offer and sell it under A POSITIVE GUARANTEE. It abenetical effect is not experienced by the time two-thirds of the contents of the bottle are used, I will, on return of the bottle, two-thirds of the medicine having been taken according to directions, and the case being one for which I recommend it, promptly refund the money paid for it. Had I not the most perfect confidence in its virtues, I could not offer it as I do under these cenditions; but having witnessed its truly miraculous cures in thousands of cases, I feel warranted and perfectly safe in risking both my reputation and my money on its morits.

The following are among those diseases in which my Favorite Prescription has worked cures—as if by magic and with a certainty never before attained by any medicine: Leucorbea, Excessive Flowing, Paintal Monthly Periods, Suppressions when from unnatural causes, Irregularities, Weak Back, Prolapsus, or falling of the Uterne, Anteversion and Retroversion, Bearing Down Sensations, Internal Heat, Nervous Depression, Debility, Despendency, Threatened Miscarriage, Chronic Congestion, Indemnation and Uteration of the Uterus Impotency, Barrenness, or Sterillity, Female Weakness, and very many other chronic diseases incident to woman not mentioned here, in which, as well as in the cases which I have mentioned, my Pavorite Prescription works cures—the marvet of the world. This medicine I do not extol as a cure-all, but it admirably fainlis a singleness of purpose being a most perfect specific in all chapme diseases of the sexual system of woman. It will not disappoint, nor will it do harm in any state or condition. It will be found invaluable in diseases condition to pregnancy, and can be taken in moderate does with perfect after while in that state. Indeed, it is a Mother's Cordial, and so prepares the system for parturition that it renders child-labor casy. I have received the heartfelt praise from hundreds of mothers for the inestimable benefit.
