Another evidence of Mormon ingenuity has just come to light. In tearing down the walls of an old Mormon building in Nauvoo last week a large quantity of counterfeit coin was discovered. It was coined in 1840; very probably in obedience to a special revelation.

WHY should our Democratic contemporary go into spasms because Scandinavians or eitizens of any other nationality who intended to settle upon homesteads in Saunders county, have seen fit to remain in Omaha until after our census is

SENATE.

WASHINGTON, April 15. The clerk of the House announced at the Senate bar this morning, that the House has passed without amendment the Senate currency bill; also that the House has passed a bill amending acts providing for national currency and establishing free banking. The latter was referred to the committee on finance.

The House bill making an appropriation of \$98,000 to pay back sala-ries of public school teachers in the District of Columbia, was take up and passed.

The Senate resumed the consider-

ation of Louisiana election bill, and Mr. West addressed the Senate at length in opposition, concluding by saving there was not a particle of testimony to show that Kellogg was not elected, and until this was proved, Congress had no right to

Mr. Carpenter stated he had seen a dispatch from New Orleans saying that although the Legislature of Louisiana had repealed the election law, it had on the last day of the session re-enacted it.

Mr. West protested ignorance of such proceeding, and read a telegram from Kellogg denying such to be the fact.

Mr. Hamilton, Md., read a letter from J. Zacherie, New Orleans, stating that Kellogg had in his possession a new bill which would give

him control of the whole election machinery. Mr. West again denied any knowl-

edge of such a thing, and was sharply taken to task by Mr Bayard for speaking authoritively in a matter of which he was ignorant. Pending further argument the Senate went into executive session and adjourned.

Mr. Bundy from the committee on mileage, reported a bill abolishing mileage to members of Congress, and providing for the payment of the actual traveling expen-

ses of each session.

Mr. Maynard moved to recommend the bill; Mr. Young to lay it on the table. House refused. The motion of Mr. Bundy for the previous question was seconded, and

previous question was seconded, and the bill passed 186 to 49.

The House then went into the committee of the whole on the legislative, executive and judicial appropriation bills, Mr. Woodward in the chair.

Mr. Cox offered a resolution re-citing the existence of an architec-tural defect in the new state Department building, and providing for a board of architects to examine it: Referred to the committee on

public huildings.

There was good deal of discussion over the salaries of employees of the House, some of which were increased and some reduced.

The item of \$50,000 for folding documents was reduced to \$25,000, and the number of folders reduced to twenty. After two pages of the bill were gone through with, the committe rose, and the House adjourned.

The water is over the leves at the head of Orange street, and is over a foot deep on the Mobile Railroad track from Jefferson street to the lower end of the French market. The McCullon and Connell plantation crevasses are both reported beyond control, and nothing is likely to be done with them until the river falls

ten or fifteen feet. Governor Kellogg to-day addressed a circular to all police justices in the river parishes saying that exegencies were beyond all provided means to control the threatened overflow, and advising them to go to work, build up and protect levees in their respective parishes, promising to recommend the next legislature to reim-

burse means for money expended.

Sr. Louis, April 15. The sommiftee of the Board of Trade, appointed some days ago, to report on the proposition to estab-lish a ship-yard at St. Louis for building iron steamers and barges, have submitted a lengthy report in which they exhaustively discuss the whole question. They recommend the establishment of a ship-yard here, and show that St. Louis af-fords greater facilities for building vessels than any other place in the United States.
