NEW MEAT MARKET.

NEW MEAT MARKET, 4th St. bet. Farnham and Hurley, Omaha. Opposite the Grand Opera.

OMAHA ice-creamists are beginning to look to their earnings.

The Chicago Tribune concedes the palm to Omaha for strategy in dealing with the crusaders.

EVER since the departure of their defaulting manager the thirteen original editors of Mr. Root's organ have been praying devoutly for currency expansion.

SOMEbody, with or without side whiskers, offered a premium of five hundred dollars to one of the first ward clerks of election if he would rectify the ballot box for a re-count on "Treasurer." Who this munificent rectifier might have been, it would be very difficult to guess.

GERALD MASSEY is to explain to the Omaha people why God don't kill the devil. If he could induce them to believe that the devil is already dead, the lecture would be more profitable to him and more interesting to his audience.—St. Louis Democrat.

The Democrat is evidently talking by the card. A large majority of Omaha's devil-may-care population were formerly prominent citizens of St. Louis.

Knocked Down! A remarkable fact can be ascertained by investigating our stock and prices that we have reduced to a very low figure all of our clothing and Gents' furnishing goods, far below the price of any other house. Overcoats in particular can be bought of us now at less than 25 per cent. less than our former prices. Quick sales and small profits is our motto.

MEMPHIS, April 26. There is nothing left of importance from the seat of war at Little Rock, the two Governors still retain their armies, and are preparing to drill them regularly. Recruiting is going on in nearly all the towns of the State, though secretly, and arms are forwarded from here and St. Louis.

CHICAGO, April 27. The east wing of the old court house was destroyed by fire this morning.

WASHINGTON, April 26. There have been many interviews between Congress to-day, and the result is that the prospect of a compromise on free banking and the retirement of the greenbacks continues to increase. Senator Morton is now acting with the more moderate western men, and is understood to have assented to a scheme which also commands the support of some of the strongest of the hard money men of the east. It is now thought that the proposed inflation address will not be issued to the country.

The nomination of McCook for Governor of Colorado, though favorably reported on by the committee on Territories, still hangs fire in the Senate where it has been the subject of a very animated discussion. The charges against him are most elaborate, and are supported by voluminous testimony and take time for examination.

NEW ORLEANS, April 26. Captain Banks who has just returned from a trip through the overflowed portion of Northern Louisiana, writes to a member of the relief committee that the tabular statement of the damages in the immediate districts heretofore presented to the committee are much too small. He submits figures which show that 11,000 are in actual want. In the parishes North of Louisiana and in the large number living outside of the settlements on bayous and on the creeks makes no less than 25,000 in that district. The extent of the damage is just beginning to be understood. It involves 50,000 acres and 7,800 people. The richest and largest cotton producing parishes are inundated, embracing two and a half millions acres of cotton land, besides a large amount of corn land. The sugar producing parishes show an equal amount of ruin and suffering. Two and a half millions acres of tilled and untilled sugar lands being overflowed; the rice and grain crops and many cattle were also destroyed. It is believed that in less than sixty days the number of persons requiring aid will amount to 50,000. In Aveyalles and St. Landry parishes, not including the above estimate, is a district 25 to 30 miles wide overflowed and 10,000 people rendered homeless.

TOPEKA, Kan., April 25. The Topeka Steel and Iron Works have started up making the first bar of railroad iron ever rolled in Kansas. A large crowd was in attendance, and were very enthusiastic over the inauguration of this important enterprise. The company have worked enough engaged to keep them busy a year.

MADRID, April 25. Maleampo has been appointed Captain General of the Philippine Islands.

NEW YORK, April 25.

The Crematica Society has a meeting last night to consider organization and to discuss the question of burning the dead. The attendance was small but select. Some of the most eminent men in theology, medicine and journalism being present. But one lady was present. Among the speakers the address of the society was made by Edward A. Caswell, Prof. Barnard, President of Columbia College, Rev. Dr. Worthington and others. It was stated that a bill for incorporation of the society was now before the Legislature, and might pass this session. The society makes it obligatory on itself to burn bodies of all members, provided the relatives of the deceased person shall not object. One speaker stated that the body could be burned at a cost of five to eight dollars. It is the intention of the Society as soon as they have been incorporated, to lease a piece of land in the outskirts of the city, and there erect a building, in which where bodies may be burned in a business like and unobtrusive manner. The cost of the buildings and furnaces is calculated at about ten thousand dollars. Another meeting will be held soon, when a number of scientific papers will be presented bearing on the subject.

NEW ORLEANS, April 24. Rain and wind prevailed this morning. Northern, eastern and western mails are slow due, but many are washed away. Nine men were blown to sea from the south-west. They were picked up by a fishing schooner which arrived here to-day.

LONDON, April 25. The death of Professor John Phillips, of Oxford University, was caused by an accident. Partial investigation into the circumstances attending the accident of the steamer America shows that the hull was perfectly water tight. The accident was caused by the valves being left open.

PARIS, April 25. It is stated on reliable authority that two American named Frank Riggs and Wm. Payne, intended to have a hostile meeting on the border of Belgium, but were prevented by the police, who interfered, compelling the would be combatants to return to this city. A rumor says that an old feud existed between the fathers of the young men, which was the cause of the meeting. But the real cause, probably, is an affair, which took place between the fathers of the parties a fortnight previously, at the Washington club, of Paris.

CABLEGRAMS.

Two Prominent Liberals Elected to the House of Commons.

The Crew of the French Steamer L'Amérique Arrive at London.

KINGSTON, Jamaica, April 25. The colony continues to progress, and agriculture generally may be said to be thriving. The late high price of coffee has inspired small cultivators to increase considerably their areas of cultivation. The cable communications have been resumed between the West Indies and the United States, and also of South America. A special steamship packet company, which cost £114,000 per annum, for semi-monthly conveyance of mails between South America and the West Indies, have got a seven years' renewal of the contract for eighty thousand pounds. Five other companies were unsuccessful competitors. The inhabitants of this colony are extremely anxious that the government should grant a subsidy of four thousand five hundred pounds for mail service between this place and New York to the Pacific Mail Company which is giving great satisfaction, and doing much to afford contentment among the merchants who are glad to see a few hundred passengers in the company of a day.

Affairs in Haiti are in a very unsatisfactory condition; a revolution is feared, and it may break out at any moment. The north has its candidate for the Presidency, but the President's message is pledged to deliver the Presidency only to General Domingue, Vice President, who is a southern candidate.

The coffee market is greatly depressed, there being an indication of a rainy season setting in.

LONDON, April 25. In the House of Lords, yesterday, Marquis Salisbury, Secretary of State for India, said the next harvest in India promised to be abundant for the Presidency, but the famine was undoubtedly ample. In the House of Commons, Mr. Small moved that the suddenness of the late dissolution of Parliament is deserving of the censure of the House. He characterized the act as a coup d'etat, by which the last government sought, unconstitutionally, to retain power. He declared that Mr. Gladstone had resorted to stratagem, which was ungenerous to his friends, insolent to his opponents and barely honest to the nation. Mr. W. Windley seconded the motion. Mr. Gladstone signified his assent to a dissolution was secretly planned as untrue, absurd and impossible. He challenged a repetition of the words of the speaker, which had been applied to him, and upon a refusal from Mr. Small to repeat it, he charged him with a lack of decency and civility. He defended the act of dissolution which he declared would have been postponed had it been possible. He concluded his speech, Mr. Gladstone left the House. The motion was negatived without discussion. Much excitement was manifested during and after the close of the debate. The last parliamentary election in Wakefield has been annulled on account of bribery.

Mr. John Holmes and Henry Fawcett, Liberals, has been elected to the House of Commons from Hackney, by two thousand majority. A correspondent of the Daily News at Plymouth reports that the crew of the French steamer America have arrived.

Three million rials, seized by the Carlists, have been sent in Santander.

LONDON, April 25. The steamer Silesia, that sailed from New York on April 11th, for Hamburg, is aground in the Elbe river, and is reported to be in a dangerous position.
