American CYCLOPAÆDIA

New Revised Edition.

Entirely rewritten by the ablest writers on every subject. Printed from new type, and illustrated with Several Thousand Engravings and Maps.

THE work originally published under the title THE WORK ORIGINALLY PROBLEMS A WAY THE MEN AMERICAN CYCLOPARDIA WAS OMPleted in 1863, since which time the wide irrelation which it has attained in all parts of he United States, and the signal developments the United States, and the signal developments which have taken place in every branch of ccience, literature, and art, have induced the editors and publishers to submit it to an exact and thorough revision, and to issue a new dition entitled, THE AMERICAN CYCLOPAE-DIA.

Within the last ten years the progress of dis-covery in every department of knowledge has made a new work of reference an imperative

covery in every department of knowledge has made a new work of reference an imperative want.

The movement of political affairs has kept pace with the discoveries of science, and their truifful application to the industrial and useful arts and the convenience and refinement of social life. Great wars and consequent revolutions have occurred, involving national changes of peculiar moment. The civil war of our own country, which was at its height when the last volume of the old work appeared, has happily been ended, and a new course of commencial and industrial activity has been commenced.

Large accessions to our geographical knowedge have been made by the indefatigable explorers of Africa.

The great political revolutions of the last decade, with the natural result of the lapse of time, have brought into public view a multitude of new men, whose names are in every one's menth, and of whose lives every one is curious to know the particulars. Great battles have been fought and important sleges maintained, of which the details are as yet preserved only in the newspapers or in the transiant publications of the day, bu which ought now to take their place in permanent and authentic history.

In preparing the present edition for the press, thas accordingly been the aim of the editors to bring down the information to the latest postible dates, and to furnish an accurate account of the most recent discoveries in science, of every fresh production in hierature, and of the newset invention in the practical arts, as well as to give a succinct and original record of the progress of political and historial event.

The work has been begun siter long and careful preliminary labor, and with the most ample resources for carrying it en to a successful termination.

Three volums now ready. Succeeding vo-ums, until completion, will be issued once in two months.

** Specimen pages of the AMERICAN CYCLOPARDIA, showing type, illustrations. etc., will
be sent gratis, on application.

A lover of china would not equally courteous, impassable woman of business, meeting a new clifail to notice the blue and red anent. I folded my veil double over tique porcelain vases which stood filled with sweet, common garden red and white carnations in contrast or does not like interviewers.

of crimson and snow. A large creonne easy chair, drawn up before The Oldest Lawsuit. mirror and toilet table, was the only sign of the business of the The introduction over, madame would insinuate: "If you would kindly take that chair she would be charmed to show you her method;" and, while she scanned a patient, glide into a neat little speech that answered for everybody. "You see, I have nothing to tempt the fancy. I cannot take superb rooms like those of Mme. Felix. My customers are good enough to overlook my simplicity, and I do all I can "Ah! you are very sanguine"-or nervous, or bilious, as the case may be-"you must study your nature. Be generous to yourself, and take plenty of pleasure and amusement. You should laugh and sing and go to theatres, and allow yourself excitement. That is the trouble with these women who come to me. They have no interest in anything, or else they have too much interest in one thing or one person more likely. Either way it is very bad. The blood settles in the nervous centres, and leaves their cheeks,

and 1668, but the main question exconflicting cases, until fresh legislative attempts at a settlement were made in 1858 and 1860. These, howmake a final adjustment, had, after research and argument, to abandon the task as hopeless, and to leave the matter just as it stood in 1663, Aged witnesses were heard who had been "ducked" or "whipped" in their boyhood to make them rewere examined that had been recorded in both States, and taxpayers who had paid taxes in both or neither. A proposal has just been made on the part of Maryland to refer the whole dispute to a single arbitrator, or else to a new joint commission. It is stated, however, that neither proposal will be accepted by Virginia, so that this venerable dispute is not likely to come to a speedy

A Sleepy Organist.
A ludricous incident occurred last Sunday in one of the San Francisco churches. The opening hymn had been sung, the voluntary finished, and the minister fairly launched on the sermon. The organist rose with the proud consciousness of having performed his duty well, and, taing a seat, reverently bowed his head upon the railing. From sermon to slumber is but a step, and before he was aware of it the drowsy god had closed his eyes, and he was in the land of dreams. Gently as sleeps the babe upon its mother's breast, slumbered the organist, while from the pulpit volleyed and thundered the invectives against sin have spoiled their hair by frizzing and sinners. The "thirdly" was finished, and the "lastly" reached. and still the organist slept. The all the down on the forehead next closing hymn was given out and the hair. That starts it growing. I read, but no sound came from the organ except the gentle sighing of the bellows. The good pastor looked appealingly toward the organ loft, and the eyes of a majority of the congregation were turned in that direction. The sexton rushed up the stairs, and seizing the pedal master by the shoulder, shook him vindictively. The somnolent, partially awakened by bumping his head against a gas burner, rubbed his eyes and went to sleep again. and all. A famous doctor told me and the congregation fell in one by that. It can be done in little one. As each one sang in the time pieces, you know; but it is a fact, and I know more than one bald man who would be scalped if he could have a natural head of hair a cracked falsetto that had got lost and was vainly looking for a good "Then gentlemen are interested place to stop. Disregarding the latter as being beneath notice, the
