PHILADELPHIA, May 21. United States Centennial Commistories. The report of the executive committee was read. It concludes as follows: "Your committee in all its proceedings has acted upon the assumption which they feel assured is fully warranted by the provisions of the acts of Congress, under the authority of which the commission was organized. That commission is a national governmental body, representing both the people and the Government of the United States, and acting for and on be-half of the nation in the organization of the international ex-hibition. This view of its functions is derived from words of Congress which created the commission, and

which imposed on it the express duty of conqueting an exhibition international in its character, and to be held under the auspices of the Government of the United States; profoundly impressed with the responsibility resting on the commis-sion, and being conscious of having performed the labor imposed upon us to the best of our ability the duty imposed on us by acts of Congress, we respectfully submit that without the governmental aid which has been requested, it will be impossible to render the exhibition creditable to the nation and worthy of the occasion it is intended to commemorate. The responsibility, therefore, for the success of the centennial inter-national exhibition now clearly rests with Congress. The Director General reports the number of shares of centennial stock subscribed for to May 1st, 1874, as follows: Pennsylvania, 171,172; Missouri, 16; Indiana, 31; Illinois, 4; Montana, 2; Nevada, 84; Oregon, 540; California, 249; Louisiana, 129; Florida, 25; Maryland, 47; Ohio 33, Wisconsin 62, Michigan 15, Arizona 102, New Jersey 174, Delaware 64.
