NEW YORK, May 25. The latest foreign newspapers just arrived, per White Star steamer Oceanic, says the great event in English society last week, was the arrival of the Czar. On landing at Dover, he was received with great military display and pomp. The Ninth and Tenth regulars, Seventh Fusileers, the Royal Artillery, and Kent militia, were drawn up at the landing point. The royal train ar-rived with the Prince of Wales, Duchess of Edinburg, and the commander of the military. The Russian Imperial Yacht Derjova now apstaging. The Emperor stood on the paddle box in the uniform of a Rusian General, and was loudly cheered before landing. He saw and recog-

The Grand Duke Alexander was present in the uniform of the Russian havy, as was also the duke of Edinburg. The entire party then returned to the saloon of the Derjova, where a number of dis-tinguished British officers presented His Masjesty, as were the members Imperial suite- The English Princess, Mayor and corporation of Dover presented the Czar with addresses of welcome, The party then returned to the royal train, and everything, including eighteen or twenty tons of imperial baggage being placed on the train, they started for Windsor, receiving a parting salute from Castle guns and artiflery, and cheers from the

vast crowds. At every station rowds gathered to see the visitors. There was a reception at Windsor of a military character similar to that at Bover. The party drove to the Palace. The route was illumin-

PARIS, May 24. Prince Hopentake, the new Ger-man ambassador to this city, yesterday waited upon President McMahon, and presented his credentials. President McMahon, in receiving the new minister, said he hoped for a long continuance of the friendly relations which now exist between Germany and France.

PARIS, May 24. Ex-President Thiers to-day received a deputation from the De-partment of the Gironde, and in reply to their address said the monarchy which they were seeking to establish was impossible. The Con-servative Republicans alone could reorganize and pacify France. He hoped that after its recent experience the assembly would admit the necessity of making the country the sovereign arbiter as expressed in the sitting. While powerless to at-tain any very definite result, it would exceed the bounds of reason. Being unable to form a gov-ernment, the majority had lost the means and right to govern. He therefore expected a dissolution, which would rehabilitate the assembly in the eyes of the nation. The

electors would be less wise and modest, the longer the dissolution was delayed. An election to fill the vacant seat in the assembly, took place in the department of Nicore, to-day. The Republican candidate was chosen by a decissive majority.

CITY OF MEXICO, May 18. Senor Castello, Alcade of Jacob in the State of Sinalva, has officially reported to the Prefect of his district, that on April 14th he arrested, tried and burned to death, Jose Maria Bonnellia and his wife Diega, for sorcery; it having been proved that they had bewitched one Sylvester Zacarias. Before the executive citizen Poras,

as a test, made Zacarias take three swallows of blessed water, whereupon the latter vomited fragments of a blanket and bunches of hair. The Alcalde states that the people was experating against the Zacarias and demanded that they be burned. The pretence was executed with his approval, and he adds that he has his eye on other soreery against whom complaints have been made by the citizens. The official Diario of the city
