Congressional. SENATE.

WASHINGTON, June 2. Mr. Wright gave notice that he would to-morrow call up the bill reported by him from the Judiciary Committee, declaring the true intent and meaning of the Union Pa-

eific railroad acts. Mr. Morrill (of Maine), from the Committee on appropriations, reported the pension appropriation bill with amendment. Placed on the calen far. The amendment fixes the pen-

sion agents' fees at 25 cents instead of 20, as provided by the House. Mr. Logan, from the Military Committee, reported unfavorably on seve al minor bills, and the committee was discharged from further

consideration of them. Mr. Sherman from the Commi. tee on Finance, reported back the bill to amend the customs, revenue laws and repeal the moities, with a number of additional amendments, one of which proposes an appropriation of \$100,000 to enable the Secretary of the Treasury to make compensation for informers during the next fiscal year. The bill was placed

on the calendar. The morning hour expired and the Senate resumed the considerati n of the Indian appropriation bill. A number of nnimportant amendments submitted by the committee ordinates, filed into the office of the were agreed to.

Mr. Cunningham submitted an amendment increasing the appropriation for contingent traveling ex- in the department, and hadsomely per ses, etc., of superintendents and agen's from \$200,000 to \$400,000; agreed to. Also an amendment appropriating the necessary sum from the funds of the Winnebago Indians in Wisconsin to purchase from the Omaha Indians in Neb aska, such a quantity of land not exceeding twenty sections, as may be required for the use of the Winnebagos; agreed to. Also an amendment striking out the provision that all examinations of vouche's and accountants shail hereafter be made

in Washington. The request of the House for a conference committee on disagreeing votes on the banking bill, was granted.

The Indian appropriation bill was then reported to the Senate, read the third time and passed. Mr. Windom moved to take up the resolution reported by him in te- Oliver Paine, one of his companions, gard to cheap transportation, which states that Rochefort is preparing

Mr. Poland briefly explained the provisions.

Mr. Crounse opposed the bill as establishing a dangerous precedent and said he regretted to notice the sentiment on the subject in the House. He' had beard members siding near him say in eloqueat and forcible language, that they did not care what in hell it contained, they were going for it.

Mr. Potter opposed the bill.
Mr. Cannon, delegate from Utab, spoke at length in opposition to the bill, declaring it unjust to the are a leave income. tory, inasmuch as it was special in reason for if, that, reason applied to all other territories. He charged that the United States Marshal and the United States Marshal and rests is to break up the republican District Attorney for Utah, had been lobbying for the bill, and that it would make the Marshal's office worth \$50,000, as it swept away 24 sheriffs, and substituted the Marshal and his assistants. He claimed that the affairs of the territories had been most economically managed, and that the bill was in the interest of robbers who waited to get con-

tracts of the territory for purposes of Mr. Ward advocated the bill, destop to polygamy, not in the name of religion but in the name of justice

Mr. Poland closed the debate and declared as an undeniable fact that the manners were hostile to the government as any portion of the people of the south had been in the darkest hours of the rebellion. He said the law passed by an act of Congress twelve years ago against repeal that law or take means, such as this bill afforded, to have in enforced. The House then proceeded to vote on the bill and the amendment was rejected.

Mr. Barber offered an amendment providing that the salary of the District Attorney shall not exbe reported to the Treasurer, agreed to. The bill passed 150 to 55. The remainder of the session was

given to the committee on public buildings and grounds. Several bitts were disposed of. The House took a recess.

The chief importance attached to the letter is that it shows the Challenger to have done away with the continent in the Antartie ocean, previously supposed to exist there, which was discovered by ceed \$3,500 and any excess in fees to Wilkes and assigned by him to the termination of land. The Challenger cruised about the place as indicated on maps, but discovered nothing except icebergs. The Challenger expects to reach Hong Kong by November.

LONDON, June 1. As the Prince of Saxewarmer was leaving his residence this afternoon to attend the levee, he was fired at by an unknown assassin, who escaped. The Prince was not hurt. ister at Washington be reduced to

\$5,000. The vote was rejected by a vote of 89 to 2. The debate in the House of Conmons, last evening, on the salary of the minister at Washington was unusually interesting. It arose from the fact that the approval of the House was required for an increase of the salary proposed by the gov-ernment. Sir H. Wolff moved that the amount the government recommends be reduced five thousand dollars. He said he opposed the increase because Sir Edward Thornton's residence at Washington has been signalized by a series of diplomatic disasters and because Americans would regard such increase as a mark of approbation, which the late government lavished upon negotiations of the Washington treaty. Mr. Boarde, under sec-retary of foreign department, stated Whisky-Firm and higher at 941 that no blame could attach to Sir Edward Thornton for his conduct of the result of negotiating with the United States, and he stated that the reason for adding to his salary was simply because expenses, living in Washington, had increased. After defeat of Sir H. Wolff's motion no further objection was made. The Viceroy of India telegraphs that rain has been general north of
