American CYCLOPAÆDIA

New Revised Edition.

Entirely rewritten by the ablest writers on every subject. Printed from new type, and illustrated with Several Thousand Engravings and Maps.

THE work originally published under the title of THE NEW AMERICAN CYCLOPAEDIA was completed in 1853, since which time the wide circulation which it has attained in all parts of the United States. circulation which it has attained in all parts of the Uniced States, and the signal developments which have taken place in every branch of ecience, literature, and art, have induced the editors and publishers to submit it to an exact and thorough revision, and to issue 2 new dition entitled, THE AMERICAN CYCLOPAR-

Within the last ten years the progress of dis-covery in every department of knowledge has made a new work of reference an imperative

made a new work of reference an imperative want.

The movement of political affairs has keppace with the discoveries of science, and their fruitful application to the industrial and useful arts and the convenience and refinement of social life. Great wars and consequent revontions have occured, involving national changes of peculiar moment. The civil war of our own country, which was at its height when the last volume of the old work appeared, has happily been ended, and a new conress of commercial and industrial activity has been commenced.

Large accessions to our geographical knowledge have been made by the indefatigable explorers of Africa.

The great political revolutions of the last decade, with the natural result of the lapse of time, have brought into public view a multitude of new men, whose names are in every one's mouth, and of whose lives every one is curious to know the particulars. Great battics have been fought and important sieges maintained, of which the details are as yet preserved only in the newspapers or in the transient publications of the day his which ought now to take

been lought and important of which the details are as yet preserved only in the newspapers or in the transient publications of the day, but which ought now to take their place in permanent and authentic history. In preparing the present edition for the press, thus accordingly been the aim of the editors to bring down the information to the latest possible dates, and to furnish an accurate account of the most recent discoveries in science, of every fresh production in literature, and of the mewest invention in the practical arts, as well asto give a succinct and original record of the progress of political and historial event.

The work has been begun after long and careful preliminary labor, and with the most ample resources for carrying it on to a successful termination.

Billous Granules. THE "LITTLE GIANT" CATHARTIC, or Multum In Parvo Physic.

The novelty of modern Medica, Chemical and Pharmaceutical Science. No use of any longer taking the large, repulsive and nauseous pills, composed of cheap, crude, and bulky ingredients, when we can by a careful application of chemical science, extract all the cathartic and other medicinal expectives from the mast valuable roots and use, scarcely larger than a mustard seed, that can be readily swallowed by those of the most sensitive stomachs and fishidous tastes. Each tittle Purgative Pelict represents, in a

Each little Purgative Pellet represents, in a most concentrated form, as much cathartic power as is embodied in any of the large pills found for sale in the dreg shops. From their wonderful cathartic power, in proportion to their size, people who have not tried them are apt to suppose that they are barsa or drastic in effect, but such is not at all the case, the different active medicinal principles of which they are composed being so harmonized and modified, one by the others, as to produce a most searching and thorough, yet gently and kindly operating cathartic.

8500 Reward is hereby offered by the pro-

other forms of mercury or any other mineral poison.

Being entirely vegetable, no particular care is required while using them. They operate without disturbance to the constitution, diet, or occupation. For Jaundice, Headache, Constipation, Impure Blood, Pain in the Shoulders, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in acouth, Blilous attacks, Pain in region of Kidneys, Internal Fever, Bloated feeling about Stomach, Bush of Blood to Head, High Colored Urine, Unsociability and Gloomy Forebodings, take Dr. Pierce's Pleasant Purgative Pellets. In explanation of the remedial power of my Furgative Pellets over so great a variety of diseases, I wish to say that their action upon the animal economy is universal, not a gland or tissue escaping their sanative impress. Are does not impair them; their sugar coating and being enclosed in glass bottles preserve their virtues unimpaired for any length of time, in any chmate, so that they are always fresh and reliable, which is not the case with the plus found in the drug stores, put up in cheap wood or paste-board boxes. Recollect that for all diseases where a Laxative, Alternative or Purgative is indicated, these little Pellets with give the most perfect satisfaction to all who use them.

They are sold by all enterprising Deventists at 25 cents a bottle.
