(Special Correspondence of the Bee.)

WASHINGTON, June 5. I take advantage of the first mail to give the readers of the Bee, full particulars of the victory won in the House this afternoon on the transfer question and terminus fight.

Mr. Logan presented a petition signed by 2,000 citizens of Illinois, praying Congress for a charter for a double track freight railroad from the Mississippi to the seaboard; referred.

The Senate insisted upon its amendment to the very appropriation bill, and West, Logan and Stevenson were appointed as a conference committee thereon.

At the expiration of the morning hour, Mr. Anthony called up the bill to provide for the sale of extra copies of public documents, and for the distribution of regular official editions thereof.

The fourth section of the bill, as reported by the committee, provides for the printing for distribution by the commissioner of agriculture of 25,000 copies of the agricultural report.

An amendment confining the distribution to employees of the department with information was offered by Mr. Freylinghuysen, and was adopted.

Mr. Edmunds moved to increase the number of agricultural reports to be sent out to 50,000.

Mr. Garfield desired to offer an amendment to the appropriation bill which would provide for the printing and distribution of 300,000 copies of the agricultural reports; agreed to, 34 to 68.

Mr. Kelly moved to amend the bill so as to provide for the printing and distribution of 300,000 copies of the agricultural reports; agreed to, 34 to 68.

Mr. Hurlbut, who has charge of the bill, refused to allow the substitute.

Mr. Garfield moved to reconsider the vote by which the previous question was seconded, but the House refused by a vote of 119 to 102.

Mr. McCrary's substitute which provides for the construction of the Fort St. Philip canal and its maintenance as a national highway was adopted, and the bill thus amended was passed; 140 to 5.

The bill as it passed provides that a strip of land shall be kept at some point on the Mississippi below Fort St. Philip and connecting at Breton Pass, shall be constructed and maintained at the expense and under the control of the government.

Mr. Hurlbut occupied the closing hour in advocating the jetty system. In the Senate the bill for the relief of certain settlers on public lands, in the State of Minnesota, was passed.

Mr. Logan presented a petition signed by 2,000 citizens of the State of Illinois, praying Congress to charter a double track freight railway, from the Mississippi river to the Atlantic ocean. Referred.

Congressional SENATE.

WASHINGTON, June 5. Mr. Windom, from the committee on public lands, reported favorably on the bill for the relief of certain settlers on public lands in Iowa and Minnesota; passed.

Mr. Logan presented a petition signed by 2,000 citizens of Illinois, praying Congress for a charter for a double track freight railroad from the Mississippi to the seaboard; referred.

The Senate insisted upon its amendment to the very appropriation bill, and West, Logan and Stevenson were appointed as a conference committee thereon.

The proceedings were generally unimportant today.

NEW YORK, June 5.

The chief of the secret service of the division of Government, arrived yesterday morning with a mass of testimony against the counterfeiter lately arrested in the west. Arrests of this last batch of counterfeiters—seventeen in all—were effected in the cities of Cincinnati, Cleveland and Detroit; and comprise the names of the most notorious men in the business.

The gang are James Seymour, John Mills, Bill Gordon, Jake and Andrew Devaha, H. C. Barkley, James Earle, G. Stoppelkamper, Fred Breutzinger, Joe Miller, John McNealon, and females Mary Brown, Mrs. Mitchell and their confederates. A terrible blow was struck at the last session of counterfeiters in the United States by these arrests, and for the time being it will have a tendency to check the flood of spurious notes with which the country, its business and banks, have been afflicted.

A World's special from Salem, Oregon, says that Grover, Democrat, has been elected Governor of Oregon, with the entire Democratic State and Congressional ticket by one thousand majority.

A special from Washington says: Hugh L. Jewett, member of Congress, says he knows nothing of the Presidency of the Erie road being tendered him, except what he has seen in newspapers.

The Herald this morning published a long review of Dr. C. M. Van Hook, member of Congress, who he had rendered to the executive department the result of his investigation into the condition of affairs in the overworked portions of Louisiana. He says Louisiana, between the flood and complicated condition of affairs, is in a most unfortunate condition that, misery, wretchedness, want and despair are constant companions of the poor whites and negroes.

A young lady giving her name as Alice Caples, while kindling a fire with a can of kerosene oil, at the residence of Frank H. Roberts, in the Venango court, near this city, was fatally burned today, by the kerosene igniting, and the can exploding. She stated to her attending physician, that she was the girl who made the disclosures of the misconduct of a Catholic priest and nun, at St. Catherine's, Canada, and who escaped from thence to Rochester, N. Y., where she was published in the public press. When asked if she desired the services of a priest, she replied that she did not. All she wished was to be square with the public, to be laid in some quiet spot. She stated that she had no friends in this country, and had no communication to send to any one.

The young woman made her appearance in this section about two weeks ago, arriving here on boat. Previous to the accident she refused to give any clue as to who she was, or where she belonged, and only made this statement after being assured there were no hopes of her recovery.

A cable dispatch from Yokohama, via Nagasaki, Japan, to the Pacific Mail Steamship Company, in this city, states that the steamship Alaska sailed today from Yokohama for San Francisco, with a full passenger list, and is expected to arrive here about the 10th inst. The steamer China sails from Hong Kong June 13th, and from Yokohama June 23d, for San Francisco.

A dispatch from Chester, Penn., says the Pacific Mail steamship, the City of Japan, left that port for New York yesterday morning, to receive engineers and outfit.

The State Senate passed a bill abolishing the State constabulary over the Governor's objection. The House failed; it acted affirmatively however upon the enactment establishing a State detective system, with a clause putting the act into the constabulary.

This will probably receive the sanction of both houses, and show whether the governor wants a corps of spies, or means to retain corrupt State police.

At the closing session of the brewer's congress today, it was voted that a committee of five be appointed to report on the subject of the new liquor law, to be passed at the next congress in Cincinnati.

Thomas Morrissey, residing at this section, in this State, married his wife yesterday, while drunk.

WASHINGTON, June 5. The Attorney General has decided that, in respect of time or place of marriage or residence of party, a white woman who is married to a citizen of this country is to be taken and deemed a citizen of the United States. The Attorney General has also decided that the acts of Congress confer jurisdiction upon the war department the introduction of spirituous liquors into the Indian country to be exercised according to the discretion of the Secretary of War.

In the House the speaker asked that the sum of \$8,000 be hereby appropriated to be paid in installments not exceeding one-third of the whole in any one year; that report of the survey and receipt of the Secretary of War shall immediately advise for bids to construct the canal and shall award the contract to the lowest responsible bidder, who shall give satisfactory bonds for the completion of the work; the bidder must, however, deposit \$10,000 to be turned over to the United States Treasury in case he fails to make the contract in 30 days after being notified of the acceptance of his bid.

The house took a recess till 7:30. The evening session is to be for business of the committee on public lands.

CABLEGRAMS.

ROME, June 5. The Pope is somewhat better. He refuses to quit the Vatican, although a change of air is recommended by his physicians.

LONDON, June 5. The owners of the Durham collieries are ejecting a large number of their tenants who were striking miners. Plans were merely feints to cover eight of these ejected families are camping in fields.

There is great excitement at the Vatican, and intense anxiety is manifested, as His Holiness the Pope has suffered a relapse of fever, and physicians state that his death is imminent.

Gen. Elio has arrived here to recruit his health. Gen. Plano succeeds him during his absence from his command.

The Carlist attacks upon San Sebastian, Irulin, Hernani and Legutio were merely feints to cover the withdrawal of their forces to the defense of Estella.

Advices from Spain state that the Luqueito, a maritime town in the province of Biscay, seventeen miles east of north-east of Bilbao, and on the Bay of Biscay, has been plundered by a schooner belonging to the Republican navy. The cause of this act was the admission into port of a foreign ship containing a cargo of contraband goods.

A treaty has been made between Mexico and Italy for the extradition of criminals.

The mayor of Matamoros has ordered the chief of police of ranches to prevent the passage of cattle over the Rio Grande either way. This order, if enforced, will probably break up stealing of cattle on both sides of the river.

Gen. Salamanca, commanding the Republican forces at the town of San Vicente, province of Tarragona, reports to the minister of war that a body of Carlists, numbering 3,000 men, attacked him yesterday, and were repulsed with a loss of seventy killed and ten wounded. The casualties on Gen. Salamanca's command were thirty killed and wounded. The Carlists have occupied Rosas, a seaport town, twenty-seven miles north-west of Gerona.

It now appears that Senor Rascon is to be appointed Spanish minister to some one of the South American republics, and not to Washington, as was mentioned yesterday.

The Assembly has passed the electoral bill in its second reading by a vote of 335 yeas to 318 nays. Louis Blanc and M. Gambetta opposed the bill, and President MacMahon their speeches were received with perfect ovation from the Left.

That the center have issued a programme drawn up by Dukes De Broglie, D'Audiffert, Pasquin, M. Goullard, and Lavergne, approving immediate organization of the army, and President MacMahon for continuance of the title of President of the Republic, and maintenance of the political truth until the end of the present seven years term, or in the event of an occurrence of a vacancy in the Presidency. In the meantime the Left centre is dissatisfied with the proposed bill, and is considering sufficient to them.
